

In the name of Allah the most Compassionate and Merciful

IN THE NAME OF GOD, THE COMPASSIONATE, THE MERCIFUL

Having published the documents concerned with Shariatmadari, Moghaddam Maraghei and Hassan Nazieh in the book No. 5 of the Moderates, the present book contains documents about Abbas Amir Entezam (in addition to those included in book No. 10), Bahram Bahramian, Khosrow Qashqai, Sam Sanjabi, Ali Saifpour-Fatemi, Touraj and Fereidun Nasseri.

Like the previous book, explanatory notes are provided to further familiarize the reader(s) with the text of documents concerning every one of the above mentioned individuals, with the hope of having taken another step in exposing U.S. imperialism's local bases, while having frustrated America's efforts in placing deviate currents vis-a-vis the Islamic Revolution.

Real Name: Amir Abbas Entezam.

Code Name: S. D. Plod/1.

Occupation: Prime minister Bazargan's deputy, the provisional government's spokesman, and a liberation movement member.

The present documents about Amir Entezam are in the form of classified documents, which were completed or found after the publication of book 10 concerning Amir Entezam. These documents are indicative of the continuation of the C. I. A. 's operational tactics concerning exchange of information with the provisional government of Bazargan. Two more points can be distinctly noticed in addition to that which has been mentioned in book 10: 1- Amir Entezam had connections with the C. I. A. and with George Cave (Adelisk), a senior C. I. A. agent, since the beginning of 1340 (1961). 2- In appointing Amir Entezam as ambassador to Stockholm two objectives were pursued by the leaders of the Liberation Movement (provisional government). Firstly, that he would act as the agent of the provisional government for re-establishing its connections with the C. I. A. and exchanging information with it. Second ly he was to allure the Iranians living in Europe in to returning home.

Real Name: Bahram Bahramian.

Code Name: S. D. Arne/1.

According to the documents of the C. I. A. Bahramian was a member of the High Command of the Liberation Movement Organization and a friend of Bazargan. In June 1977 he was employed by the C. I. A. as a single channel of information for passing secrets about the so-called terrorist activities and about the opponents of the regime in Iran. In the beginning this co-operation with the C. I. A was based on the understanding that he would pass word to the U.S. government about the views of his moderate political party through a certain channel with the hope that the U.S. government would do something for his party as a result of these contacts and for his support to the government of the Shah. He was of course prohibited from disclosing to his colleagues anything about his contacts with the C. I. A. After the Revolution, he desired to promote a perfectly open system in Iran and had the feeling that the U.S. government could play a significant role in this regard. For a long time he refused to accept any salary, but after Khurdad (June) he signed a memorandum of commitment and agreed to receive a salary, according to which the C. I. A. had to pay the instalments of his life insurance policy -- an amount equivalent to \$100000 and to deposite \$5000 anually in an indirect bank account. He was given the legal status of a permanent resident of America, and he was promised that he and his family would be given the above mentioned legal status as long as they stayed abroad.

Bahramian was given training in code- writing, code-telecommunication and security system. He possessed wireless transmitter Mx-350, through which the incharge of the C. I. A. station made contacts with him and asked for his help during the Bahman 58 (January 1979), seige of the embassy, after which he informed Yazdi about it. Afterwards the transmitter was taken from him by the C. I. A. and he was given liedetection tests which he successfully passed.

His principal reports were about the leadership of the provisional

government, Revolutionary Council and the clergy, which were of extreme value to the C. I. A., and he often gained very high marks for his reports. He was the source of information for 67 reports from Dey 57 (December 1978) to Shahrivar 58 (September 1979).

In Bahramian's file, several documents are concerned with the determination of an operational address in England for his use. These documents also indicate that as conditions in Iran worsened the C. I. A. did not find any other means to contact Bahramian except personally receiving information from him in Iran. In order to retain this connection they assigned one of their agents to receive reports from Bahramian, which could be sent under confidential cover by ordinary mail. The name and address of the agent could be seen on the documents, Afterwards some changes were made regarding the maintenance and care of those technical instruments of communication that were in Bahramian's charge. Subsequently there are certain documents at the end of the file regarding the plans of his possible secret flight from Iran and other such activities for which the C. I. A. had prepared the forged documents for Bahramian in advance.

It is worth mentioning here that the documents related to the Liberation Movement Organization (document 9: book 24.) give an account of the meeting that Muhammad Tawassuli of the Liberation Movement had in the company of one of the officials of the political section of the Espionage Den with this spy (Bahram Bahramian), that was held on Mehr 3, 57 (September 25, 1978). It was he who arranged this meeting on behalf of the Liberation Movement along with Muhammad Tawassuli.

SOURN/I. MR. BAHRAMIAN. SELF-EMPLOYED CONSTRUCTION CONTRACTOR. MARRIED, WITH AT LEAST ONE GHILD, A SON AGED ABOUT 12. 4/1 AGED ABOUT 40.

4/1, AS OF AUGUST 79, WAS A MEMBER OF AN INFORMAL GROUP ADVISING AND CONSULTING WITH PRIME MINISTER BAZARGAN. (IT IS RECALLED THAT HE MENTIONED TWO OR PERHAPS THREE NAMES OF OTHER MEMBERS; IT IS BELIEVED THAT ENTEZIM AND A MR. SAHABI WERE AMONG THEM.) IN THIS CAPACITY, HE REPORTED ON THE PLANS AND ACTIVITIES OF THE GOVERNMENT.

BETWEEN LATE JUNE AND THE SEIZURE OF THE EMBRISSY, THERE WERE THREE IR FOUR MEETINGS WITH W/I, ALL OF THEM IN AUGUST AND SEPTEMBER, HIS INFORMATION REPORTING DURING THAT PERIOD CONCERNED A RURAL DEVELOPMENT PLAN PROPOSING THE MOBILIZATION OF UNEMPLOYED TECHNICIANS AND THE FREE' RESOURCES OF MINISTRIES SUCH AS ROADS AND HEALTH. (U/I WAS UNABLE TO RESPOND TO STATION QUERIES ABOUT SUCH MATTERS AS THE SUBSTANCE OF BAZARGAN'S MEETINGS WITH THE IMAM.)

IN LATE SEPTEMBER OR EARLY OCTOBER, AFTER U/1 HAD MISSED TWO PRE-ARRANGED MEETINGS SEVERIL UNSUCCESSFUL EFFORTS WERE MADE TO CONTACT HIM BY PHONE. HE WAS FINALLY REALHED AT HEME. HE SAIDHE WAS WORRIED ABOUT HIS SAFETY AS A 'GUARD' (PERHAPS A SURVEILLANT) HAD RECENTLY APPEARED OUTSIDE HIS HOME HE SAID HE DID NOT KNOW TO WHAT ORGANIZATION THIS GUARD BELONGED, BUT THAT IN VIEW OF MR NAZIH'S DIFFICULTIES, HE WAS AFRAID HE MIGHT BE ARRESTED. U/1 SALD HE HAD DECIDED TO ET TERMINATE HIS ASSOCIATION WITH THE PRIME MINISTER, CLOSE HIS BUSINESS, AND LEAVE THE COUNTRY. HE SAID HE PLANNED TO LEAVE IRAN IMPEDIATELY AFTER A TRIP TO BALUCHISTAN (AS RECALLED) TO CONCLUDE SOME BUSINESS THERE HE WAS ASKED TO MAKE PHONE CONTACT UPON HIS RETURN. HE DID NOT DO SO, AND THERE WAS NO SUBSEQUENT COMMUNICATION WITH HIM-

THE STATION REPORTED THIS DEVELOP. MENT, AND HOS INSTRUCTED WOLOCK, EZNOVA, AND EZVIVO TO BEGN CONTINGENCY PLANNING W CASE U/I NEEDED HELP TO LEAVE THE COUNTRY. DETAILS OF SUBSE-CFUENT CORRESPONDENCE ARE NOT RECALLED, BUT IT IS BELIEVED THAT MACAO AND LEBANESE PASSPORTS WERE BEING CONSIDERED. AS THERE WAS NO FURTHER CONTACT WITH, NO ASSISTANCE WAS EVER ASKED OR OFFERED

Real Name: Khusrow Qashqai.

Code Name: S. D. Rater/4.

In this section the documents concerned with Qashqai are contained, a part of which is related to the documents of the Foreign Affairs Ministry and another part is concerned with the documents of the C. I. A. (those belonging to the period between 1330-1343 Shamsi-Hijri (1951-1964) are related with the Iranian Foreign Ministry and the rest are related with the C. I. A.).

A little attention to the dates and the contents of the documents related with the Foreign Affairs Ministry and Qashqai's meetings with the officials of the embassy (during 1952) is sufficient to reveal the extent of his association with the U.S. administration and the nature of his activities. In spite of his anti-Shah tendencies he was favourably inclined towards America and the West, and in this regard he never hesitated to express his urge to help them.

The C, I, A. documents concerned with Khusrow Qashqai are mostly composed of his reports, his meetings with the C. I. A. officials and his

stand vis-a-vis the then current course of events in Iran. There is nothing available regarding his past record with the C. I. A.

Though he did not receive any salary from the C. I. A., his cooperation with America may have been on account of his intention to gain support from America in fulfilling his future ambitions concerning the Islamic Republic.

The principal reports and opinions of Khusrow Qashqai revolve around certain specific aims:

-By weakening the provisional government and secretly opposing the Islamic Republic, while outwardly, supporting it, he was planning to incite different political and military leaders into starting a series of operations to overthrow the government. In this connection he made contacts with Madani and asked him to supervise a military coup against the Imam and the Bazargan government. According to his own claims, Qashqai contemplated certain preventive, and strategic measures necessary for opposing the government and launching an armed struggle against the Islamic Republic. Contacts were also made with him from the side of Bakhtiyar and he was even offered payment for organizing a coup. During one of his meetings he speaks about his contacts with the Arab dissidents and that they will act as the suppliers of arms to the non-Arab tribes of the south every now and then. - Qashqai was planning to bring out a publication in association with Madani, and he had informed the C. I. A. about this plan. The C. I. A., too, was thinking about the possibilities of bringing out a publication which would serve as their organ against the anti-American atmosphere prevailing in Iran and would counter the attacks against America. The C. I. A. was secretly planning to not only encourage Khusrow Qashqai in this regard but also to give him the material aid that he was asking for to aid in the printing and distribution of this publication. They advised him to take steps to select the material desired to be published.

Through these meetings and visits the C. I. A. wanted to attain the following aims:

- Obtain information about the Qashqai tribe and the possibilities of this tribe in confronting the Islamic Republic and the chances of exploiting it in emergency conditions, since they believed that the Qashqais were the only tribe besides the Kurds, who were in a position to put up active resistence.

- Obtain information about the security conditions in Khuzistan and Fars Provinces.

- To reach a political understanding with Madani, because Qashqai had a close relationship with him.

- To watch Qashqai in his anti-government activities. The appoin-

tment of Qashqai was ment for fulfilling different purposes such as influencing the National Front for promoting the pro-America moderate forces and supplying them with information and reports; arranging meetings with the Interior Minister Haj Sayed Jawwadi with the view of getting information about the future programmes of the provisional government concerning the elections; arranging meetings with Shariat Madari and Khaqani in order to establish a possible future programme; and meeting with bringadier general Jam with the hope of fulfilling, a certain function in a specified period of time. On the whole, the aim of using Qashqai as an intermediary and a catalyst agent was bringing together all the pro-American moderate forces throughout the various classes of society. (The document about this part can be seen with the documents concerning Shariat Madari).

Remarks:

Shortly after leaving the American College of Tebras in 1939, Khosro Khan assumed his tribel duties and since that time has spent most of his time in the provinces us compared with his brothers who spent most of their time in Tebras. Until his election to the 15th Majlis, he puid only periodic visits to Tebran and uns the least publicised of the four brothers. In 1943 he was appeinted Governor of Firuzabed, his duties consisting for the most part of these has beligserant sub-tribel leaders in line and conferring from time to time with high-ranking officers of the Iranian Army. At that time the gashquis were not is fuvor with the Central Covernment because of their previous pro-Cerman sym athles and their request to disarm their tribesmany.

In August of 1944 Khosro was supplied with Coveraneat arms and amunition and, with fity followers, pursued and subdued his furitive sousin Chenchis khan.

Theore QubiQAI was a Deputy to the loth and 17th Hajlises and a close advisor to losades on tribal affairs. He, along with several of his brothers, is is in official exile from Iran and now lives in Geneva, although he is in the Vis at the makent. He is extremely active and vocal in opposition to the Unant Evernment, but is probably out of contact with most of the groups within Iran except through his brother Mohamad Hosein, who is permitted to live in februar.

SUB: Conversation with Khosro Quashquai

Last night at Mr. Melbourne's cocktail party I joined a conversation between Col. Hincke and Khosro Quahsquai, which may be of interest to you.

Quashquai was holding forth about popular feelings against he Shah, and maintained that we would not find a single picture of the Shah in a public place today as the crowds will have ripped them all down. He added that he himself had a score to settle with the Shah because the Shah's father had killed his father, but added that the Shah was still useful. An argument also developed as to whether the Shah was Commander-in-Chief of the Army: Quashquai had maintained that American Military Aid was given to the Shah and not to Iran.

Some of Quashquai's assertions were so close to the Tudeh line that I felt constrained to ask him if he was a member of the National Front, which he said he was. No doubt Col. Hincke can give you further details, as the discussion was well advanced when I joined it. SUPPLEMENTARY BIOGRAPHIC DATA

Career:

1950 - Pebruary 1952: Deputy to 16th Majlis from Firuzabad. Vice-President of Majlis.

April 27, 1952: Deputy to 17th Majlis from Firuzabad.

Remarks:

Qashqai's election went unchallenged, based as it was on the votes of his tribesmen. While critical of some of Dr. Losa deq's policies, furthermore, he has consistently and openly supported the government and is one of the National Front's most valuable assets.

Recently Qashqai delivered a bitter speech in the Majlis, attacking Americans for their alleged "sabotage" of the Mosadeq government during the brief premiership of Qavam. His friendship for various members of the American Embassy has, however, continued, and he has explained his outburst as an atempt to open American eyes to their mistake in failing to support the National From& government strenuously. He has further explained his objection to the U.S. military missions by insisting that the resulting equipment and trained men will be used against the interests of Iran. He appears to have chosen to stick with Mosadeq in the ever-widening split between Kashani and the Frime Minister, but his tendency toward intrigue on a master scale makes any such conclusion tenuous at best.

thears KHAN. Recent Visit to Shiras

While discussing informally and unofficially the general subject of the tribes with Mr. BAHMANBEDUI, Chief of Tribal Education Program of Point Four in Shiras, I learned that Knosro RHAN had visited General AZIZI on Sunday, October 2h. According to Bahmanbegui, Khapro Khan is presently living at Finnapad.

Subsequently Mr. Donald Gilfillen, Provincial Director of Point Four in Shiras told me that General Asimi was calling on him that afternoon (October 25). I suggested to Mr. filfillen that he casually mention the Khosro visit to the General. The following information was related to me by Mr. Gilfillen after his talk with General Asisi.

According to General Asisi a messenger from Khosro Ehan called on him Sunday advising that Khosro was outside of the city and would like safe passage in order to talk with the General. The General said he promptly sent an escort and had Khosro Khan brought to his office. The General told Mr. Oilfillen that Khosro appeared very nervous. Asisi said he told Khosro had had no reason to feal inscours. Further that Khosro could travel freely snywhere without fear. However, the General said he told him that the Government still insisted that Khosro leave before a certain date or be subject to arrest. He said he told Khosro the Government in general and his command in Fars in particular were desirous of good relations with the tribes. The General said he told him there was to be no trouble with the tribes. However he said he told Khosro because of his activities Lat year in stirring up trouble it was absolutely mendatory that he leave. The General implied, according to Br. Gilfillen, that if Khosro didn't get out upon this date (the General id not mention the date) the Aray would come and get him out.

This ands information I received concerning the Gilfillen-Exisi conversation. In my earlier conversation, Bahmanbegui said that he believed Kherre Enan no longer had much support amongst the trabes. According to Bahmanbegui the support Kherre still enjoys is based Silely on his wealth.

Background on Bahmanbegui: About h0 years old. Is a number of the Amalek tribe. His father is in the mountains with his sub-tribe. Bahmanbagui is a graduate of the University of Tehran law school. He directs the Point Four tribal education program which appears to be an excellent operation. He seems sincerely interested in his work.

CONFIDEN TIAL

He visited the United States in 1952 for six months on a private visit. This trip was mostly financed by Khosro Khan. He speaks good English. He told me that because he opposed Khosro in his abortive act of last year he has lost Tavor with him. He implied that he was active in forming an epposition to the Khan's acts.

Last night at Mr. Melbournes & joined Khosro Quashqai and Commander Follard for . Tew moments. Quashqai was saying that the US had supplied the arms that killed innocent people and was therefore guilty of their murder. Follard pointed out that all Military aid had been turned over to the Iranian Government. Quashqai replied that there had been no real Ibanian Government for forty years but an Intelligence Service Govt. A Govt of Major Jackson, Dr. Zenner and Middleton. The point was wid the US now aid the real Iranian Govt. The trus had been given to the Shah in the past. At this point he said "I have a score to settle with the Shaha and one day I will settle it". He said what Iran needs is a democratic Shah. At this point I left the UPOUP.

COUNTRY: IRAN

SUBJECT: POLITICAL ACTIVITY AND SECURITY CONCERNS OF KHUZESTAN GOVERNOR MADANI (DOI: EARLY SEPTEMBER 1979)

SOURCE : A MEMBER OF THE QASHQAI TRIBE WHO IS A CONFIDANT OF A SENIOR QASHQAI TRIBAL LEADER WITH HIGH-LEVEL CONTACTS IN THE PROVISIONAL GOVERNMENT OF IRAN. HIS REPORTING RELIABILITY HAS NOT BEEN ESTABLISHED.

1. AS OF EARLY SEPTEMBER 1979, AYATOLLAHS MOHAMED HOSSEIN B E H E S H T I AND HASSAN L A H O U T I WERE ATTEMPTING TO PERSUADE AYATOLLAH RUHOLLAH K H O M E I N I THAT THE INEFFECTIVENESS OF THE PROVISIONAL GOVERMMENT OF IRAN (PCOI) CAN BEST BE REMEDIED BY REPLACING PRIME MINISTER MEHDI B A 2 A R G A N I WITH ADMIRAL AHMAD M A D A N I, CURRENTLY COVERNOR OF KHUZESTAN PROVINCE. (SOURCE COMMENT: KHOMEINI'S' DECISION, IS NOT YET KNOWN, BUT THERE IS REASON TO BELIFVE THAT KIMEINI IS PLEASED WITH MADANI'S SUCCESS IN KEEPING ARAB DISSIDENCE IN KHUZESTAN UNDER CONTROL.) (FIELD COMMENT: A RELIABLE SOURCE SAID ON 6 SEPTEMBER THAT BEHESHTI IS GENERALLY THOUGHT TO BE PERSONALLY HOSTILE TO MADANI.)

2. QASHQAI TRIBAL LEADER KHOSROW Q A S H Q A I HAS RECOMMENDED TO ADMIRAL MADANI THAT THE LATTER LEAD A MILITARY COUP AGAINST KHOMEINI AND THE BAZARGAN GOVERNMENT. MADANI RISPONDED THAT SUCH A MOVE AT THIS TIME WOULD BE PREMATURE; IN THIS CONTEXT HE ALLUDED TO THE CONTINUED WEAKNESS OF THE ARMED FORCES.

3. MADANI IS DEEPLY CONCERNED ABOUT THE SECURITY SITUATION IN KHUZESTAN PROVINCE. ALTHOUGH ARAB DISSIDENT ACTIVITY HAS DECLINED IN PAST WEEKS, MADANI HAS INFORMATION INDICATING THAT ORGANIZING ACTIVITY AMONT THE ARABS HAS GREATLY ACCELERATED (FIELD COMMENT: SOURCE HAD NO DETAILS ON THIS SUBJECT.)

- SUBJECT: MILITARY AND POLITICAL ORGANIZATIONAL ACTIVITY OF THE OASHOAI TRIBE (DOI: EARLY SEPTEMBER 1979)
- SOURCE : A MEMBER OF THE QASHQAI TRIBE WHO IS A CONFIDANT OF A SENIOR QASHQAI TRIBAL LEADER WITH HIGH-LEVEL CONTACT IN THE GOVERNMENT OF IRAN. HIS REPORTING RELIABILITY HAS NOT BEEN ESTABLISHED.

1. ACCORDING TO QASHQAI TRIBAL LEADER KHOSROW Q A S H Q A I THE TRIBE AND ITS ALLIES IN FARS AND ADJACENT PROVINCES HAVE A TOTAL OF 20,000 LIGHT WEAPONS. THESE ARE ALMOST EXCLUSIVELY INDIVIDUAL ARMS, ALTHOUGH THERE ARE ALSO A FEW MORTARS AND LIGHT MACHINE GUNS. (FIELD COMMENT: IT SEEMS LIKELY THAT THE CLAIMED NUMBER OF LIGHT WEAPONS IS EXAGGERATED. SEE NIT-10,658. TDFIRDB-315,12271-79, FOR EARLIER INFORMATION FROM THE SAME SOURCE ON QASHQAI ACTIVITY.) ORGANIZATIONAL ACTIVITY DESIGNED TO FACILLITATE THE EMPLOYMENT OF THESE FORCES IS WELL ADVANCED, AND KHOSROW QASHQAI BELIEVES THAT HE COULD MOVE AS MANY AS 20,000 QASHQAI AND ALLIED TRIBESMEN TO TEHRAN WITHIN THREE DAYS. THE ORGANIZATION OF THE LOGISTICS AND TRANSPORTATION ASPECTS OF SUCH A MOVE IS BEING CONDUCTED UNDER THE PRETEXT THAT THE QASHQAI MIGHT HAVE TO REACT AGAINST A THREAT TO AYATOLLAH RUHOLLAH K H O M E I N I. IN FACT, QASHQAI WANTS TO BE PREPARED TO CONTRIBUTE MILLITARY PORCE. TO KHOMENI'S OVERTHROW WHEN THE TIME IS RIGHT.

2. THE POLITICAL PROGRAM OF THE QASHQAI FORCES LOYAL TO KHOSROW QASHQAI CALLS FOR CONSOLIDATION OF CONTACTS IN THE IRANIAN MILITARY; THEY SEEK ALSO TO ESTABLISH AN ALLIANCE WITH SECULAR POLITICIANS SUCH AS THE YOUNGER GENERATION IN THE NATIONAL FRONT. (SOURCE COMMENT: THOSROW QASHQAI IS HIGHLY IMPRESSED BY SEYED J A V A D I, REGARDING HIS POLITICAL PHILOSOPHY AS COMPATIBLE WITH THE INTERESTS OF BOTH THE TRIBESMEN AND THE IRANIAN NATIONPRIME MINISTER

Met in Tehran approximately every three to four weeks, either in his hotel room or picked up by car. Used Sheraton and Inter-Continental hotels. Purpose of Contact: 1) To aduire sources of information on Khuzestani Arabs, including organization, leadership, and any involvement with or support from Iraq; 2) Information on the security situation in Fars and Khuzestan Provinces; 3) Political plans of Admiral Madani.

Re 1): In October, Mr. Q said he had been informed about two Khuzestani Arabs, smugglers by trade, who might be able to provide the desired ifformation. Mr. Q was to provide names and other pertinent data in November. Re 2): Mr. Q provided information on his efforts both to guard against against threats to the Revolution and to avoid the stationing of Pasdaran and Komitehs among the Qashqai people. Described efforts to acquire friends for the Qashqai tribe among military officers and in the person of Adm. Madani. Re 3) Mr. Q described Madani's interest in seeking the Presidency of the Republic under the new constitution.

Mr. Q described the weekly newspaper he wanted to sponsor in cooperation with Admiral Madani. Most of the information involved the reasons for continued postponement of publication, primarily the absence from Iran of the propped editor (name not known). Paper was to be published in Tehran in about 70,000 copies per edition. We were interested, in principle, in

Payment: None. A U.S. visa was obtained for Mr. Q's sister.

Kareem Sanjabi:

The documents indicate that the C. I. A. was interested in talking to Sanjabi on the condition that he would not subsequently insist on meeting the Security Council or the White House. With the approval of the U. S. State Dartment, the C. I. A. intended to send one of their agents in the guise of a high ranking official form the State Department's special desk dealing with Iranian affairs to meet him, but due to his ill-health this meeting did not materialize untill Shahrivar 20 (September 11). The subsequent telegram about Sanjabi is dated Aban 8 (October 30), and as the documents referred to in the above-mentioned document could not be traced materialization or non-materialization of this meeting is not known. The documents in this section indicate that Sam Sanjabi, the son of Karim, was working as a contact for the C. I. A. and his father himself had a very close association with the C. I. A.

Real Name: Ali Saifpur Fatemi,

Code Name: S. D. Market.

S. D. Market (Ali Saifpur Fatemi) was a professor of economics at an American university and was employed as source of information on the political matters of Iran in Azar 58 (November 1979). His secret motive in working for the C. I. A. was that America should continue to support the Iranian moderates, so that through them a solution to the political problems of Iran could be found. He was residing in America as a permanent resident and had visited Iran several times in connection with his work at the International Training Centre of Iran.

In view of the information given by another spy about S. D. Market to the C. I. A. official to the effect that in all probability the charges of embezzlement, misappropriation and corruption against Ardshir Zahidi are also directed towards him (S. D. Market), the C. I. A. considered the probable dangers threatening him and did not intend to exert more pressure on him by making further contact.

Dear Hartins

Yesterday Ali Fatemi's attorney called to say the immigration Service had granted Fatemi's request to charge his status to that of personant resident. This was later confirmed by L/Suk, which maintains lisions with the INS. Mass I manhiness our interest, for political reasons, in knowing in advance about decisions of this kind, I was tolde that no doubt the Special Inquiry ifficar, acting in a quasi-judicial manner, simply informs the applicant came the decision is made. Fortunately, the decision was not babed on a claim that istemi would be personated if he were reported to irms. Nost proveing the decision, as in similar enses, was been as ratemi has an imprison actions will and child, on when Fatemi's deportation might work a hursany.

The separtment continued throughout the proceedings to maintain its continue originally stated in Nous that a change of status would have an adverge effect on our relations with iran. We were overruled by the ind which has the responsibility under the law for making decision like this.

While this is containly unfortunate is terms of our foreign relations, bon memory and i believe that the Department employed every legitimate administrative resource at its command, abort of claiming overriding matical interest, to see to it that the responsible agongy was fully every of the foreign policy aspects of the ones. We would of course be interested in learning of any resolving in foreign.

Touraj Nasseri was a professor at the Sahrif Technical University and had contacts with the C, I, A, before the Revolution and had sent three reports to the C, I, A, till the fall of Bakhtiyar. Following the Revolution due to the security problems a time gap appeared in his relationship with the C, I, A, but after the Revolution the C, I, A, decided to reestablish contacts with him. During his telephone contact with Ganjian (code name of one of the C, I, A, agents at Tehran Station) he told him that he was a member of the purging committee of the Sharif Technical University and could not visit him. In person for security reasons but would like to continue telephone contacts.

In the documents collected from the political section of the Espionage Den concerning the moderates, there is a document dated February 12/78, mentioning the meeting of Dr. Touraj Nasseri with John Stempel, one of the officials of the political section.

Touraj Nasseri was responsible for introducing his brother Faridun (S. D. Paquin/1) to Ganjian (a C. I. A. agent). In Mordal 1357 (July 1978) Faridun was an assistant to the Interior Minister and was his deputy in the Budget and Planning Organization. In Shahrivar 1357 (August 1978) he became an official employee of the C. I. A., and it was decided that \$750 would be deposited in his bank account every month. He supplied information about the plans and aims of the Iranian government, proceedings of the Cabinet and gave political reports. He also used to receive information from his friends in the army and other military and intelligence agencies. SE QARE T SOZIEST APR 79 STATE

private sector but will remain in government service if the Prime Minister insists.

Nasseri confided in Ward that he has been offered the Governor Generalship of either Isfahan or Shiraz, whichever he would prefer. Though he is not interested in living in the "provinces." As Nasseri explains it, the logistics of maintaining a fully staffed residence in a provincial capitol, in Tehran, and in London is too much of a headache. Nasseri has also been asked by his old friend Dr. Shojaedin Sheikholeslamzadeh, Minister of Health, to assume the responsibilities as manager of Iran's billion dollar a year Social Services Fund. This Fund is the largest single investment fund in Iran and the position of Director brings with it several fringe benefits including a \$3,000 a month salary, twice the salary which Nasseri earned as Deputy Minister of Labor. Nevertheless, Nasseri said he would prefer to leave government service altogether and work in the private sector. He claims he has been offered the position of consultant to a large multi-national firm, which he would not name. at a salary of \$10,000 a month.

Government Operations in Iran

Ward asked of Nasseri if he had noticed in the past three years any changes, good or bad, in the organization and operation of the Iranian Government. Nasseri began his reply by stating that there were certain things in Persia that would never change and that there are certain things about governments that would never change. Ministries still tended to be private fiefs of ministers, and there was little or no coordination between ministries at the working level since no good Persian would try to "interfere" with the running of his colleague's domain. 'Nasseri felt, however, that there was stronger and better coordination at the top levels of government than when he entered government service. While dishonesty and inefficiency still existed in the Iranian Government, Nasseri pointed out that they exist in any government and he felt there were fewer instances today than there had been in the past. Working level personnel are generally better educated now than in the past and most Iranian ministries are beginning "to operate like Europeen ministries." In general, Nasseri felt that there was less wastage than in the past. Ward asked him to compare general openating efficiencies of the Persian bureaucracy with those of other nationalities. Nasseri admitted he was not familiar with working level operations in other ministries but felt that the Ministry of Labor operated as efficient as its British counterpart, but perhaps somewhat less efficient than its West German, French and U.S. counter-CONFIDENTIAL/NOPORN parts.
