RC(SW) – TFH J3 Tgts – Op STEN TAKAY

Obj DOODY – Mullah Niaz Muhammed – IS3673

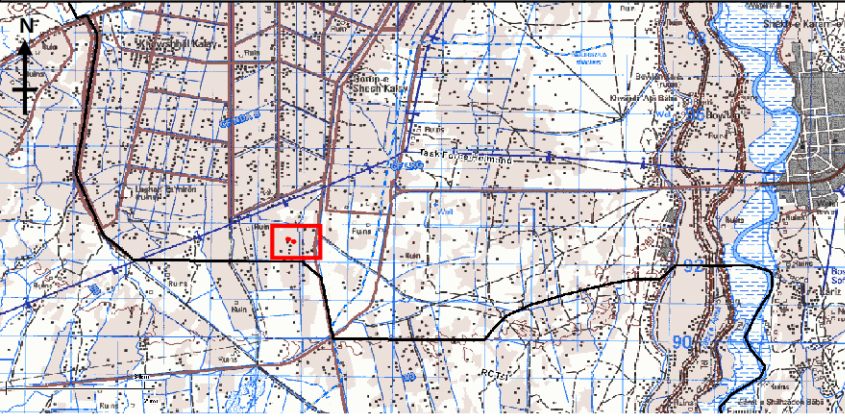

Unit: TFH J3 Tgts
POC: ██████████
Engagement Asset: UK AH-64 C/S UGLY 50
Qualified Observer: WIDOW 87

Objective: DOODY
Date of Engagement/ATO: 7 Feb 11 (YD)
ISAF No. IS3673
Location: 41R PQ 1768 9260
Description: JPEL Tgt
Function: Mid-level commander and facilitator
Significance: JPEL Pri 3 Tgt

BDAR:
 UGLY 50 conducted a 429 strike on JPEL tgt Obj DOODY (Mullah Niaz Muhammed, IS3673). UGLY 50 engaged target alone and on foot in the open with 100 x 30mm. 1 x EWIA.
 Initial engagement with 1 x AGM-114 of Obj DOODY + 1 x PIDROF may have resulted in 2 x Civcas (1 x WIA, 1 x KIA).

Engagement Summary:
 071017D*FEB11 – UGLY 50, 41R PQ 1781 9254, 1 x AGM-114.
 071019D*FEB11 – UGLY 50, 41R PQ 1768 9260, 100 x 30mm.
Munitions Employed:
 071017D*FEB11 – 1 x AGM-114.
 071019D*FEB11 – 100 x 30mm.

Follow-on Plans:
 Ground C/S arrived at engagement site at 1134D*. Initial BDA 1 x EWIA (Obj DOODY), 1 x WIA (adult male), 1 x KIA (male child). Immediate first aid given to 1 x EWIA and 1 x WIA, with subsequent Casevac at 1144D*. 1 x KIA taken to compound by LN for immediate burial.

INT Summary:
 Obj DOODY is a mid level commander who operates in both NDA(S) and MJH. He maintains links to Obj KOJAK from whom he receives direction and Obj STILTSKIN with whom he is assessed to discuss commission matters, particularly TB dispute resolution by lethal means. Obj DOODY is active in planning attacks on CF and NDA DCC. He also directs subordinates to conduct attacks and facilitates the supply of heavy weapons and ammunition. Obj DOODY is a new commander who has been given the responsibility for Saidebad by Obj KOJAK.

Expectation:
 The removal of Obj DOODY will deny the INS within NDA(S) and MJH of a competent commander linked into the HMD Military Commission. The networks within this area are suffering as a result of recent targeting and BG operations. Denying the INS this commander will further impact on the INS ability to conduct attacks against CF and ANSF and the resupply of weapons.

Further Details of Tgt Struck:
 All Timings: LOCAL (D*).
 0741 – RELINT places Obj DOODY at 41R PQ 1803 9180 in NDA(S) AO.
 0950 – Obj DOODY conducts Shura with 5 x adult males at 41R PQ 1780 9250.
 1003 – Following the necessary analysis PURSUE 50 operator calls PID Obj DOODY.
 1006 – UK AH-64 C/S UGLY 50 checks in with TFH J3 Tgts JTAC WIDOW 87.
 1014 – UGLY 50 is talked onto Obj DOODY.
 1016 – Obj DOODY with 1 x PIDROF moves away from group on foot heading generally West.
 1017 – TEA granted for Obj DOODY + 1 x PIDROF by TFH Comd.
 1017 – UGLY 50 engages Obj DOODY + 1 x PIDROF on foot in the open with 1 x AGM-114. AGM-114 appears to miss the target impacting at 41R PQ 1781 9254.
 1018 – Obj DOODY and 1 x PIDROF then split with Obj DOODY moving away West and 1 x PIDROF moving away North East.
 1019 – UGLY 50 engages Obj DOODY on his own on foot in the open with 100 x 30mm at 41R PQ 1768 9260.
 1026 – Initial BDA is Obj DOODY EWIA.
 1134 – Ground C/S arrives at engagement area. Immediate first aid given to Obj DOODY EWIA. 1 x WIA (adult male) and 1 x KIA (male child) also discovered by ground C/S. Immediate first aid given to 1 x WIA.
 1144 – Obj DOODY and 1 x WIA Casevac'd to BSN.

2. Obj DOODY AH Strike – 1 x LN Child KIA 1 x Cat B

Op record event ref. no: Original: MM(SW)02-07F
Head injury transferred to KAF on MM(SW)02-07J

IJC FFIR no: 02-0733

HQ IJC / Command: TFH.

RC (if applicable): SW.

Who: TFH Targets/JHF(A)

Where (incl. grid): GR 41R PR 17897 92491

When: 071017D*Feb11

What: AH Strike onto JPEL Target Obj DOODY

Result: 1 LN Male Child KIA & 1 x LN Adult Male WIA

RC(SW)

TFH- CF NDA

What Happened?

- Full details of the incident are contained in the TFH Dynamic Target Storyboard RC(SW) – TFH J3 Targets – Op STEN TAKAY Obj DOODY – Mullah Niaz Muhammed – IS3673 (slide 1).

Report of CIVCAS

- At 071134D*Feb11 Ground C/S's from NDA(S) arrived on the site of the strike and discovered 2 x FAM WIA and delivered immediate first aid and arranged for them to be evacuated as INS under escort to BSN R3 hospital on MM(SW)02-07F at 1144hrs. The casualties are detailed below:
 - Casualty 1 - FAM. Believed to be Obj DOODY. Assessed at Cat A. Injuries caused by 30mm AH strike, resulting in intestine and head injuries. Drifting in/out of conscious. Radial pulse-present.
 - Casualty 2 – FAM. Assessed at Cat B. Injuries from shrapnel. Wounds to right arm and face, he is conscious.
- Subsequently the body of a LN Male Child with fragmentation wounds was discovered in compound CE10-32 (Gr 41R PQ 17897 92491). The body was quickly claimed by a LN family member and removed for burial.
- Casualty 1 (believed to be Obj DOODY) was subsequently transferred to KAF to receive treatment for his head wound on MM(SW)02-07J, with an escort.

Assessment

- The CIVCAS are believed to be the result of the following chain of events. This is only a preliminary assessment and further investigations will bring more detail. **This assessment may contain errors due to the time constraints involved.**
 - Initially correctly targeting Obj DOODY + 1 INS the AH launched its attack run but could not engage.
 - The AH then circled around for a 2nd run on the 2 x INS, possibly losing PID.
 - The AH then mistakenly targeted 2 x civilians in the same engagement with a Hellfire miss, realising they were not the intended target, he continued on and engaged the INS PID as Obj DOODY with 30mm.

3. Obj DOODY AH Strike – 1 x LN Child KIA 1 x Cat B

What Have We Done About It?

- At 1210hrs the DG was informed of the incident it was reported that “he understands that we try to negate CIVCAS but accepted we needed to ‘kill or wound INS’.”
- At 1325hrs the RCS(W) IAT was activated to investigate this incident. It will include a GIRoA representative from the PG’s office.
- A National Investigation (Shooting Incident Report) has been instigated into this incident.
- Infl and media have been informed.

What are we going to do about it?

- CF NDA(S) will continue to investigate the incident on the ground speaking with LNs to gain a greater understanding of the incident and its likely effects. They will also attempt to locate family members for future compensation payments.
- Casualty 2 in BSN will be re-classified as an LN and interviewed by the BSN CIFT team to gain further information. His details will also be recorded for future compensation payments.
- Casualty 1 in KAF will be processed in the normal manner for a suspected high value target.

TFH initial Assessment

- The TFH initial assessment is that the 2 x CIVCAS was caused by ISAF troops. The exact reasons why this occurred will be investigated in detail but initially appear to be a loss of PID, on repositioning of the Aircraft by the AH crew.
