4/16/2015 23:15	Scottsdale	Arizona	<p>MOR Alert for P50 Number: P50-M-2015/04/16-0005 Type: Public inquiry or concern (including all pilot reported NMACs) Date/Time: Apr 16, 2015 - 2315Z A/C: C25B Summary: The pilot of C25B was inbound to SDL for VA to Ry21 from the South. The Biltmore controller vectored the aircraft from over the top of PHX toward a left DW for Ry 21 at 050. After the field was reported in sight, the controller issued a visual approach clearance. When the aircraft descended through 047 on a NE bound DW heading, the pilot reported a "helicopter, you know, one of those gyro-type things" that just passed by the windscreen. I had the SDL ATCT give the pilot my phone number so I could clarify. When the pilot called, they used the term NMAC, saying the craft passed from right to left off the nose of the aircraft. The pilot stated they had no time to input any control instructions into the aircraft, but had it been 2 seconds earlier, they would have hit it. The description of the aircraft was a small UAV with 4 sets of rotors and a string of all red lights across the whole craft. The pilot estimated the distance from the UAV to his aircraft at between 50-75ft.</p> <p>Phoenix TRACON (P50) – Thursday, April 16, 2015 at 4:15 p.m. PDT: C25B was inbound to Scottsdale (SDL) Airport from the south on a Visual Approach to Runway 21. The pilot reported that as he entered the downwind descending through 4,700 feet a UAS passed across his windshield. When the pilot called the facility (SDL ATCT) he said that the UAS passed off the nose of the aircraft from left to right and that he had no time to react. The pilot stated that had it occurred two seconds earlier they would have hit the UAS. The UAS was described as small with four rotors and a string of red lights across the whole aircraft. The pilot described the incident as a NMAC and estimated the closest proximity was between 50 and 75 feet.</p>	Item	FocusAreas/AFS/AFS-80/Lists/UAS_Reports_Database

4/27/2015 15:40	Livermore	California	MOR Alert for LVK Number: LVK-M-2015/04/28-0001 Type: Public inquiry or concern (including all pilot reported NMACs) Date/Time: Apr 27, 2015 - 1540Z A/C: C206 Summary: Pilot yesterday morning on a VFR flight from LVK to CNO. Ten minutes after departing LVK pilot believes he had a possible collision with a UAS/Drone. Pilot reported the incident to LVK Tower in person at 2200Z today, 4/28/2015. Pilot reports hearing a loud thump and a jolt to the aircraft climbing out of 4,500ft approximately one to two miles south of the southern shoreline of Lake Del Valle. That location is the ECA R235/29.17 or LVK airport R141/10.75. At the time of the incident acft was in contact with NCT Grove sector receiving flight following. Review of radar data was conducted to with geography maps on to help determine the location as accurately as possible. During review of the radar data there were no unidentified targets observed in the reported area of the incident. Pilot inspected aircraft after landing at CNO. Aircraft had sustained two gouges to the lower portion of the nose cowl about 3 inches long and deep enough to take off the first layer of fiberglass. Evidence of impact with the inside of two of the three props was evident. There was no blood found anywhere on the aircraft as would have been expected with a bird strike. Pilot has filled out an ASRS report.	Item	FocusAreas/AFS/AFS-80/Lists/UAS_Reports_Database

4/28/2015 0:00	Winchester	Virginia	On 4/28/15 we had an unmanned aircraft system (quad copter) flying over the carnival (attendance approx. 2,000) which was apparently taking video/pictures of the event. Our officers spoke to the operator. Citizen was cooperative and stopped flying the UAS. Pictures that the UAS were posted on the Shenandoah Apple Blossom Festival's (SABF) Facebook page the following morning. I spoke with SABF officials who advised that citizen had a business that does photography and marketing. Citizen tried to work out a deal with SABF to be contracted to take pictures with his UAS for the festival, but no formal agreement was made. Examples of his pictures have been posted on his website. Last fall the Winchester Public Schools used a UAS to assist with making a sort of public service announcement and I believe same cirtizen was also used for that filming. During a planning meeting held by the WPS superintendent I advised that I believed that the person operating the UAS needed an FAA permit and the response I received was "he does this all the time." Citizen was not at this meeting to hear my concern. Please keep in mind that our only encounter with citizen so far has been cooperative. I don't want to appear that we have some issue with him. I just want to make sure people are following the rules and if we have a problem in the future we can say we've treated everyone fairly.	Item	FocusAreas/AFS/AFS-80/Lists/UAS_Reports_Database

4/28/2015 2:12 Dallas	Texas	<p>PRELIM INFO FROM FAA OPS: LOVE FIELD, DALLAS, TX/UAS INCIDENT/2112C/DAL ATCT ADVISED VIRGIN AMERICA 769, A319, LGA-DAL, ENCOUNTERED A UAS WITH RED LIGHT OPERATING 200 FEET ABOVE ACFT WHILE AT 1,300 FEET ON 3 MILE FINAL RUNWAY 31R. The tower did not receive any reports last night of drone activity. The time on the MOR is estimated. Below is a copy of the information shared on the email with the perpetrators name redacted. The watch command has been notified by the Citi Field detail of a male under arrest at Citi Field for operating a drone during the course of the New York Mets game against the Baltimore Orioles at Citi Field. The drone was operated outside the stadium, not at any time interfering with game play. The drone was a standard Quad copter type with a Go-Pro camera attached. The perpetrator has been identified as a white male. He has been charged with two counts of reckless endangerment and will be processed at the 110th PCT</p>

6/25/2015 17:23 New York	New York	<p>PRELIM INFO FROM FAA OPS: JFK/UAS INCIDENT/6-25 1323E/JFK ATCT ADVISED AERO MEXICO 408, B788, REPORTED A UAS, TYPE UNKN, 100 FEET BELOW AND TO THE LEFT OF THE ACFT VCNTY OF JFK ARPT. NO EVASIVE ACTION REPORTED. UNKN IF LEOS NOTIFIED. REPORT FILED LATE.</p> <p>MOR Alert for JFK  Number: JFK-M-2015/07/02-0002  Type: Public inquiry or concern (including all pilot reported NMACs)  Date/Time: Jun 25, 2015 - 1723Z  A/C: AMX408 (B788)</p> <p>Summary: Safety report received via e-mail from AMX concerns a drone reported by their crew to JFK LC2 on 6/25/2015. FLM on duty remembers ATCS told him AMX saw a drone on his left. A scan of R-ACD showed a police helo to the left of AMX, and FLM believed that was what was seen by AMX. The controller did not mention that the pilot had reported the drone 100' below him and "almost had a midair." This information was gotten after numerous play backs of the voice recording. The pilot had a strong accent and made it difficult to clearly understand what was reported. The controller is now retired and out of country.</p>
6/25/2015 19:15 San Bernadino	California	<p>PRELIM INFO FROM FAA OPS: SAN BERNARDINO, CA/UAS INCIDENT/1915P/SOCAL TRACON REPORTED TANKER44, LOCKHEED P2, ENCOUNTERED A UAS 8 N SAN BERNARDINO AT 3,200 FEET WHILE CONDUCTING FIRE FIGHTING OPERATIONS. Reported passing a very small drone at FL240. The aircraft was 30nm SE of R-2601 which often has drone and UAV activity. Called the R-2601 range officer and verified that they had no aircraft airborne at the time. No actions were taken by the flight crew.</p>
7/24/2015 19:01 Oswego	New York	<p>PRELIM INFO FROM FAA OPS: OSWEGO, NY/UAS INCIDENT/1521E/UAS (SMALL, FIXED-WING "DESERT HAWK III"), CONTROL &amp; CONTACT LOST VCNTY SUSQUEHANNA RIVER. NOTAM ISSUED TO WARN PILOTS IN AREA. VEHICLE SHOULD'VE RUN OUT OF FUEL BY NOW.</p> <p>MOR Alert for BGM  Number: BGM-M-2015/07/24-0001  Type: Communication not established/maintained as expected/intended. (required ATC/pilot action/notifications)  Date/Time: Jul 24, 2015 - 1910Z</p> <p>A/C: (DRONE)</p> <p>Summary: We got a call from an operator in Oswego, NY saying they lost control of a drone they were flying and it was flying near the Susquehanna River when they last spotted it. We then got a call from a pilot who called to complain that someone from "Owego tower" called on frequency 122.8 and reported they have lost control of a drone and to watch out. The pilot actually saw the drone. According to our COA regarding the use of their drones, they executed every requirement of the COA when they lost the plane. A NOTAM was issued for UAS activity prior to departure, they called to report the loss of contact and they got on CZG frequency to provide notification to any pilots in the area as a warning. They indicated they did not recover the drone but based on the time lapse, it would have run out of fuel by now and is down somewhere. The drone is a fixed wing Desert Hawk III.</p>
7/24/2015 19:10 New York	New York	<p>PRELIM INFO FROM FAA OPS: NEW YORK, NY /UAS INCIDENT/7-24-2015/1510E/LATE REPORT FROM MOR LONG ISLAND MAC ARTHUR ATCT RECEIVED A CALL FROM LOCAL RESIDENT OF A DARK IN COLOR 4 PROP HELICOPTER LIKE UAS 1.5 - 2 MILES SOUTHWEST OF THE AIRPORT AT APPROX 400 FEET. <p>7/25/2015 0:00 Fort Worth Texas</p>	<p>Reference eon page U00035:  On July 25, 2015, COOK CHILDREN HOSPITAL pilot tried to call attention to the drone operator from the top of the west side of the parking garage overlooking Thistle Hill. The drone operator ignored his requests, turned his back and looked down at his screen. At this time the drone flew from the east side of Thistle Hill to about over the Thistle Hill sidewalk and elevation varied from about 50' to 100 feet above the elevated west helipad at Cook Childrens. This prevented us from taking off and getting back in to service and taking our next call. This also could have been much worse had we arrived and hour later and arrived when the drone was flying as we may not have seen the drone upon landing at Cook Childrens Medical Center perhaps creating an in air collision with the drone. Had we not seen the drone prior to take off the same situation could have occurred creating an in air collision with the drone as our usual departure is to the west. The security officer at Cook Children could see from the elevator that we were having some sort of issue. Normally the pilot does not leave raised helipad area to yell and wave arms over the side of the parking garage. She came over to assist and she could not get the drone operators attention either. She used her radio to have another officer drive over to tell the drone operator to land. I requested that she ask the officer to get his identification. The operator refused to produce any identification citing he does this for a living and he was hired by the historical society to take pictures of Thistle Hill. He is more than 5 miles from and airport and under 400 feet. He is well within his rights and does not have to show any one anything. The security officer on the ground got pictures of the respective vehicles the operator of the drone and historical society persons left in.</p> <p>For this event, law enforcement had not been notified.</p>
<p>7/25/2015 0:10 Youngstown Ohio</p>	<p>PRELIM INFO FROM FAA OPS: YOUNGSTOWN/WARREN, OH/UAS INCIDENT/1210E/YOUNGSTOWN APPROACH ADVISED CESSNA C172, HEADING EAST BOUND, REPORTED A POSSIBLE NMAC WITH A WHITE, 2 FEET IN DIMEMETER UAS WITH 4 PROPELLERS AT 3,500 FEET 10 SSW YOUNGSTOWN. <p>8/5/2015 16:35 Mobile</p> <p>Alabama</p>	<p>PRELIM INFO FROM FAA OPS: MOBILE, AL/UAS INCIDENT/1130C/MOBILE APPROACH ADVISED A CITIZEN REPORTED UNIDENTIFIED UAS AT 100 FEET 1.2 SSE MOBILE ARPT. MOBILE AIRPORT PD NOTIFIED</p> <p>MOR Alert for MOB  Number: MOB-M-2015/08/05-0001  Type: Other  Date/Time: Aug 5, 2015 - 1635Z  A/C: N/A (N/A)</p> <p>Summary: RECEIVED CALL FROM COAST GUARD PILOT REPORTING HE WITNESSED DRONE OPERATIONS IN CLOSE PROXIMITY TO MOB AIRPORT WHILE DRIVING IN HIS VEHICLE. OPERATION WAS TAKING PLACE IN THE PALMERS TOYOTA PARKING LOT WHICH IS APPROXIMATELY MOB145001. UNDER THE RWY33 FINAL. CONTACTED AIRPORT POLICE AND THE AIRPORT MANAGER AND THEY WENT TO INVESTIGATE. Following is the email: We spoke with the GM at Palmers Toyota regarding the drone operation earlier today. He said they were filming a commercial, but would not give up the companys name who was hired to shoot the film, or the drone operator. While on-site we spoke with the person who first reported the drone operation and he provided us with a great deal of information for the FAA investigation. He said he spoke with the film crew, and told them they could not fly unmanned aircraft in such close proximity to the airport. He is in the Coast Guard at ATC Mobile and is very familiar with the layout of MOB and its arrival/departure corridors. He also mentioned that he was told the drone operators were wearing -Tower Drone- shirts. A quick Google search shows the company being based out of PNS. It does not appear that the company has a Section 333 exemption for commercial drone operations.</p>

1/2/2016 14:00	<p>PRELIM INFO FROM FAA OPS: MODESTO, CA/UAS INCIDENT/1400P/MODESTO ATCT ADVISED CESSNA C188, REPORTED POSSIBLY STRIKING A UAS AT 1,400 FEET 6 NE OF MODESTO. NO DAMAGE TO ACFT. MODESTO PD NOTIFIED.</p> <p>MOR Alert for MOD Type: Other Date/Time: Jan 2, 2016 - 2200Z A/C: (C188)</p> <p>Summary: At 2220Z, after landing at Modesto, the pilot reported via telephone that at approximately 2200Z, his aircraft had been struck by what he believed to be a drone. He reported hearing a thump noise and then seeing to the right of his aircraft, a lot small shattered pieces of black colored debris. The pilot was very confident it was a man made object that struck his aircraft and not a bird. After the pilot landed he performed a thorough inspection of his aircraft and found no damage or any new blemish on his aircraft. The pilot believed it was a drone that had struck one of his tires. The pilot reported the incident location to be approximated 6 NM NE of Modesto airport near Clause Road between Sylvan and Clairabel cross roads near a soccerfield. The DEN, Modesto Police, and NORCAL Approach OPS Manager and area C Supervisor were all notified. There was no radio communication of the incident on any radios from the pilot.</p>	Modesto	California

8/23/2015 21:00	<p>MOR Alert for SAN Type: Public inquiry or concern (including all pilot reported NMACs) Date/Time: Aug 23, 2015 - 2100Z A/C:</p> <p>Summary: Point Loma concerned citizen called to advise of a man flying a UAV at Pt. Loma High School at a "very high altitude." SAN Twr attempted contact with SDPD dispatch but never reached a dispatcher due to being on hold +10 minutes. SAN Twr requested helo to fly the area to determine if the UAV was still airbourne. Helo was advised by their dispatch that San Diego Unified School District Police (SDUSP) advised it was an employee of SD School District flying the UAV taking photos of the school roof. I advised citizen of the SDUSP dispatch that UAV operations are not authorized at the school location because it is located in San Diego Class Bravo airspace. Additional information was given to citizen pertaining to UAS operations and the waiver process. She did not know how high the district employee was flying the UAV but would relay the information to him. No aircraft were involved.</p>	San Diego	California
8/23/2015 19:18	<p>PRELIM INFO FROM FAA OPS: CLEVELAND, OH/UAS INCIDENT/1518E/CLEVELAND APPROACH REPORTED AEROSTAR AEST, AT 4,000 FEET, OBSERVED A CHROME UAS, 2 TO 2.5 FEET IN DIAMETER, OPERATING 200 FEET BELOW, 1,000 FEET OFF RIGHT WING, 15 MILES SOUTHWEST CLEVELAND ARPT. <p>3/17/2016 18:10</p>	<p>MOR Alert for YKM  Type: Public inquiry or concern (including all pilot reported NMACs)  Date/Time: Mar 16, 2016 - 0415Z  A/C: UNKNOWN (UAS)</p> <p>Summary: The citizen reported this event to Yakima Air Terminal Airport Manager yesterday, but the full details were not received until this morning. A UAS was observed operating south of YKM above the reporting party's property between 100' and 150' AGL. Several aircraft were operating in the traffic pattern south of YKM. I interviewed the controller on duty at the time stated and listened to the audio for the timeframe indicated. The UAS was not observed from the tower and neither pilot operating in the pattern reported the event. The reporting party followed the UAS and advised the operator that he was operating a UAS within 5 miles of an airport. I have not spoken to him. Our traffic pattern altitude is 900 AGL, so it would appear that the UAS operation did not pose a threat to the NAS.</p>	<p>Yakima</p>	<p>Washington</p>

7-Aug-16	Lower Crab Creek Fire	Washington	<p>PRELIM INFO FROM FAA OPS: YAKIMA, WA/UAS INCIDENT/0800P-DELAYED NOTIFICATION/FOREST SERVICE COORDINATION CENTER ADVISED A UAS OPERATING IN THE TFR FOR THE LOWER CRAB CREEK FIRE. WHITE QUAD COPTER, 2 FEET IN DIAMETER OPERATED AT 400-500 FEET AT 0800P AND AGAIN AT 1230P. A FIREFIGHTER IDENTIFIED THE OPERATOR AND CONFRONTED INDIVIDUAL. THE OPERATOR REFUSED TO IDENTIFY HIMSELF. LEO NOT NOTIFIED.</p> <p>UAS MOR Alert for ZSE Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Aug 7, 2016 - 0100Z A/C: Summary: FOREST SERVICE COORDINATION CENTER RELAYED THE REPORT OF A DRONE OPERATING IN THE TFR FOR THE LOWER CRAB CREEK FIRE. POSSIBLY AT 8:00AM (GLARE MADE IT DIFFICULT TO VERIFY), BUT POSITIVE VERIFICATION AGAIN AT 12:30PM OPERATING 400-500FT., WHITE, 2FT. IN DIAMETER, 4 BLADE DRONE. A FIREFIGHTER IDENTIFIED THE OPERATOR AND CONFRONTED THE INDIVIDUAL, THE OPERATOR REFUSED TO IDENTIFY HIMSELF AND THE FIREFIGHTER FAILED TO GET A LICENSE PLATE NUMBER.. THE FIREFIGHTERS DID NOT NOTIFY LAW ENFORCEMENT. CALL CAME TO ZSE OPERATIONS MANAGER AT 6:15PM THE LOWER CRAB CREEK TFR WAS CANCELLED AS THE REPORT WAS BEING RELAYED.</p> <p>UPDATE - 8/26/16 Multiple jurisdictions: A drone was witnessed flying near the Division A/B break on the Lower Crab Creek Fire near Mattawa, WA. A TFR (6/9265) was in effect over the fire area, but no aircraft operations were being conducted at the time. The Division Supervisor made contact with the operator who was unaware personnel were working in the area, nor of the TFR. The drone operator left the area, and incident personnel were not able to find him again. Personnel in the Type III Organization and on the division were immediately notified of drone activity in the area. Personnel re-engaged the fire once the drone had left the area. The National Airspace Program Manager was notified and the TFR intrusion was elevated to the FAA for follow up investigation. Seattle Center was notified by NWC and the UAS Script was used for notification.</p>

NO OTHER A/C IN THE VICINITY REPORTED SEEING A DRONE.</p>

12-Sep-16	PORTLAND	Maine	<p>PRELIM INFO FROM FAA OPS: PORTLAND, ME/UAS INCIDENT/0905E/PORTLAND ATCT REPORTED A RADAR TARGET 2 NE PORTLAND TRACKING SE AT 70 KNOTS AFTER RECEIVING A CALL FROM THE PORTLAND PD REGARDING NUMEROUS UAS SIGHTINGS IN THE AREA BY LOCAL CITIZENS. NO ACFT INVOLVED.</p> <p>UAS MOR Alert for PWM  Type: Hazardous and/or Unauthorized UAS Activity  Date/Time: Sep 12, 2016 - 1305Z  A/C: N/C  Summary: At approximately 9:05 local time, I received a call Portland Police Department. He was calling to inquire whether or not we had authorized a drone to operate roughly 2 miles north of the Portland Jetport. I informed him that we had not. Police advised me that they had received numerous calls from 911 regarding the drone. It was reported to be operating in the vicinity of Stevens Avenue, over the University of New England and the Evergreen Cemetery. Police was unable to provide me any detailed description of the drone, not even the color. The only description given to them by callers was that it was an extra large drone, roughly four times larger than what residents in the area were used to seeing. About 20 minutes after this call we observed a target 2 miles northwest of the field, tracking southeast bound at 70 knots. Attempts were made to identify the target from the tower without success. It dropped off somewhere in the Old Port area of Portland. The DEN was notified.</p>
12-Sep-16	PONTIAC	Michigan	<p>PRELIM INFO FROM FAA OPS: PONTIAC, MI/UAS INCIDENT/1141E/PONTIAC ATCT ADVISED, HELI, ON DOWNWIND FOR RUNWAY 27L, OBSERVED A UAS .5 SE OF ARPT AT TREE TOP LEVEL. 10/25/2016	HOUSTON	Texas	<p>PRELIM INFO FROM FAA OPS: HOUSTON, TX/UAS INCIDENT/1034C/ HOUSTON TRACON ADVISED CANADA REGISTERED, CESSNA C172, REPORTED A BLACK UAS AT 1,500 FEET VCNTY PEARLAND REGIONAL ARPT, HOUSTON. ACFT WAS AT AN UNKN ALTITUDE AND HEADING. NO EVASIVE ACTION TAKEN. FBI NOTIFIED.</p> <p>UAS MOR Alert for I90 Number: I90-M-2016/10/25-0001 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Oct 25, 2016 - 1534Z A/C: (C172)</p> <p>Summary: C172 reported a black drone at 1500 ft. He was unable to see details on the drone but reported it around the LVJ airport.</p>
10/25/2016	SMYRNA	Tennessee	<p>PRELIM INFO FROM FAA OPS: SMYRNA, TN/UAS INCIDENT/1730C/SMYRNA ATC ADVISED HAWKER BEECHCRAFT BE20, OBSERVED BLACK QUAD-COPTER UAS 3 NW MQY ON FINAL RUNWAY 32 AT 2,000 FEET. ACFT REPORTED MISSING THE UAS BY APPROXIMATELY 200 FEET. UNKN IF LEOS NOTIFIED.</p> <p>UAS MOR Alert for MQY Number: MQY-M-2016/10/25-0002 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Oct 25, 2016 - 2230Z A/C: (BE20)</p> <p>Summary: A VFR BE20 reported a UAS at 2000 feet on 3 mile final landing runway 32 at MQY. Aircraft reported missing the UAS by approximately 200 feet. He reported the UAS as a Black Quad Copter. Aircraft landed without further incident.</p>
10/25/2016	FITZGERALD	Georgia	<p>PRELIM INFO FROM FAA OPS: FITZGERALD, GA /UAS INCIDENT/1752E/JAX ARTCC ADVISED PIPER PA31, OBSERVED A UAS, POSSIBLY A WEATHER BALLOON, 6 NNE FITZGERALD AT 8,500 FEET. NO EVASIVE ACTION TAKEN. UNKN IF LEOS NOTIFIED.</p> <p>UAS MOR Alert for ZJX Number: ZJX-M-2016/10/25-0004 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Oct 25, 2016 - 2152Z A/C: (PA31)</p> <p>Summary: The pilot of PA31 reported a drone approximately 500 feet below the aircraft. The pilot stated the drone looked like a hot air balloon. The FRD corresponds with 3146N 08315W L/L.</p>
10/25/2016	RICHMOND	Virginia	<p>PRELIM INFO FROM FAA OPS: , VA/UAS INCIDENT/1955E/RICHMOND POLICE REPORTED UAS CRASHED INTO THE FEDERAL RESERVE BUILDING LOCATED 6.6 NW RIC. NO INJURIES REPORTED. DAMAGE TO THE BUILDING IS UNKNOWN. RICHMOND PD.</p>
10/26/2016	DALLAS	Texas	<p>PRELIM INFO FROM FAA OPS: DFW/UAS INCIDENT/0115C/DFW ATCT REPORTED A UAS WITH WHITE, GREEN AND RED LIGHTS, LOCATED IN CLASS B AIRSPACE BETWEEN DALLAS-FT WORTH ARPT AND DALLAS LOVE ARPT, BETWEEN 4,000 - 10,000 FEET. NO ACFT ENCOUNTERS REPORTED. DFW DPS NOTIFIED.</p> <p>UAS MOR Alert for D10 Number: D10-M-2016/10/26-0001 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Oct 26, 2016 - 0615Z A/C: N/A (N/A)</p> <p>Summary: D10 TRACON OPERATIONS ARE IN THE CENTER TOWER. AT APPROXIMATELY 0615Z, I OBSERVED WHAT APPEARED TO BE AIRCRAFT LIGHTS(WHITE, RED, AND GREEN). NO RADAR TARGET WAS OBSERVED IN THE VICINITY OF THE LIGHTS. AFTER FURTHER OBSERVATION, THE OBJECT MOVED VERY LITTLE AND I BELIEVE THAT IT IS A DRONE OPERATING IN CLASS B AIRSPACE. AFTER CORRELATING A VISUAL OBSERVATION WITH A RECENTLY DEPARTED AIRCRAFT, DAL ESTIMATED THE ALTITUDE TO BE 4000 FEET. DFW DPS WAS CALLED AT 0635Z. DEN WAS CALLED AT 0637Z. ACFT REPORTED THE OBJECT WAS ABEAM HIS AIRCRAFT AND +OR-1000FEET. ACFT WAS AT 5000 FEET, 7 WEST OF DFW. A SECOND POSSIBLE DRONE IS NOW BEING OBSERVED DUE EAST OF DFW AT AN ESTIMATED ALTITUDE SLIGHTLY HIGHER THAN THE FIRST DRONE. THE SECOND DRONE ALSO APPEARS TO BE FURTHER AWAY TO THE EAST. DFW DPS AND DEN ADVISED OF SECOND DRONE AT 0700Z.</p>

10/26/2016	SACRAMENTO	California	<p>PRELIM INFO FROM FAA OPS: SACRAMENTO, CA/UAS INCIDENT/0836P/ NORCAL TRACON ADVISED CIRRUS SR22, REPORTED A LARGE BLACK UAS AT 3,500 FEET NW BOUND, 7 S SACRAMENTO MATHER ARPT. NO EVASIVE ACTION TAKEN. OAK GROVE PD NOTIFIED.</p> <p>UAS MOR Alert for NCT Number: NCT-M-2016/10/26-0001 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Oct 26, 2016 - 1536Z A/C: (SR22) Summary: SR22 reported drone activity 7 NM south of MHR at approx. 3500 feet. Large black object moving northwest-bound. No evasive maneuvers. Elk Grove PD advised.</p>

11/20/2016	Clear Creek Fire	North Carolina	<p>During operational suppression, a drone was allowed to over fly the Clear Creek fire without checking with Air Operations first to find out if Air Attack was on order to recon the fire. The Air Attack flight was cancelled due to high winds. When Dispatch informed the USFS Incident Commander that the AA flight was cancelled, Dispatch was informed that there was a drone flying the fire. All air operations were informed of the drone for Situational awareness. The Forest Aviation Officer said that the Incident Commander approved the flight and that the Forest is making steps that it "does not happen again." Contact was made with the drone operator and was told to discontinue the flight due to air operations that were about to begin.</p>

3/1/2017	PHOENIX	ARIZONA	<p>PRELIM INFO FROM FAA OPS: PHOENIX, AZ/UAS INCIDENT-LATE REPORT/011405M/SAFETY OFFICER CALLED PHOENIX DEER VALLEY ARPT TO ADVISE FLIGHT INSTRUCTOR ONBOARD PIPER P28A, REPORTED A NMAC WITH A UAS WHILE ACFT WAS ON BASE TO FINAL FOR RUNWAY 7R, APPROXIMATELY 3 MILES OUT, CAUSING PILOT TO TAKE EVASIVE ACTION. PILOT DID REPORT UAS AT TIME OF INCIDENT UPON REVIEW OF TAPES BUT DID NOT REPORT EVASIVE ACTION. UNKN IF LEOS NOTIFIED.</p> <p>UAS MOR Alert for DVT Number: DVT-M-2017/03/02-0001 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Mar 1, 2017 - 2105Z A/C: (P28A)</p> <p>Summary: Hazardous UAS activity was discovered during an investigation into a public inquiry as to what happens when a pilot reports a NMAC with a UAS. The safety officer had received a report from one of the their instructor pilots about a NMAC with a UAS on base to final for runway 7R (approximately 3 miles from the runway) which caused the pilot to take evasive action. The pilot stated that he did report UAS to DVT ATCT on the LCS frequency. In the review of the audio tapes the pilot did report the UAS but did not report having to take evasive action. The FLM on duty at the time stated that he was not monitoring LCS or LCN frequencies due to both positions working moderate traffic and that the LCS controller did not report the UAS to the FLM.</p>
3/1/2017	PROVO	UTAH	<p>PRELIM INFO FROM FAA OPS: PROVO, UT/UAS INCIDENT/2205M/SLC TRACON ADVISED DIAMOND DA42, REPORTED A UAS WITH RED LIGHT OFF THE RIGHT SIDE AT 4,800 FEET. 3/28/2017	FORT LAUDERDALE	FLORIDA	<p>PRELIM INFO FROM FAA OPS: FORT LAUDERDALE, FL/UAS INCIDENT/ 1610E/FLL ATCT ADVISED CESSNA C172, REPORTED SEEING A UAS AT 1,500 FEET WHILE 5 MILES WEST OF FLL. SHERIFF HELO RESPONDED. NO FURTHER INFORMATION PROVIDED.</p> <p>UAS MOR Alert for F11 Number: F11-M-2017/03/28-0002 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Mar 28, 2017 - 2010Z A/C: (C172)</p> <p>Summary: Small drone reported near ORL (280/005) at 1500 feet by C172. Sheriff helicopter responded to F11's inquiry and reported that drone operator was located with drone on the ground.</p>
3/28/2017	SAN DIEGO	CALIFORNIA	<p>UAS MOR Alert for MYF Number: MYF-M-2017/03/28-0003 Type: Hazardous and/or Unauthorized UAS Activity Date/Time: Mar 28, 2017 - 2304Z A/C: (P28A)</p> <p>Summary: P28A reported an drone in left downwind for runway 28L near pattern altitude. Upon landing and taxiing to parking at 2323Z, pilot said drone was medium size and silver, around same altitude he was at the time, CIC observed aircraft between 1,000 to 1,100ft MSL, left downwind slightly NW of Qualcomm stadium. Drone activity was active in the vicinity of MYF, 5 miles SE not at the reported altitude, so incident was determined to be a separate since it was 1-1.5 miles SE of MYF. CIC guessing from information provided it was a rotorcraft with 4 rotors and about 2-3ft in diameter. Law enforcement was not contacted at the time of event, since drone activity was active near airport, but verified with ATM that this incident was not at the authorized location once CIC was split off.</p>
3/29/2017	BELLINGHAM	WASHINGTON	<p>PRELIM INFO FROM FAA OPS: BELLINGHAM, WA/UAS INCIDENT/1700P/ BELLINGHAM ATCT REPORTED CESSNA C182, OBSERVED A BLACK QUAD COPTER TYPE UAS 40 FEET OFF LEFT WING WHILE SOUTHEAST BOUND AT 1,600 FEET 7.5 SE BELLINGHAM NEAR CHUCKANUT BAY.
