FOIA No. 2020-088

Dear Mr. Greenewald:

This letter responds to your recent Freedom of Information Act ("FOIA") request received by the Federal Communications Commission ("FCC" or "Commission") and assigned to the Consumer & Governmental Affairs ("CGB") and Enforcement ("EB") Bureaus. You are requesting copies of all informal complaints received at the FCC that contains the phrase "FAKE NEWS." We are responding to your request electronically.

CGB conducted searches of its databases containing responsive records. Our search revealed approximately 1,773 complaints that are responsive to your request. Due to the number of complaints located and the number of hours involved in processing your request, we will be providing you with responsive records on a rolling basis over an extended timeline to complete your request in the most efficient and timely manner possible. Attached are approximately 497 complaints which are the first release of the rolling production. EB informed CGB that a search of their records identified no responsive records. Please be advised that the FCC receives many complaints and comments that do not involve violations of the Communications Act or any FCC rule or order. Thus, the existence of a complaint or comment filed against a particular carrier or business entity does not necessarily indicate any wrongdoing by any individuals or business entities named in the complaint or comment.

Records responsive to your requests were redacted under FOIA Exemption 6.<sup>1</sup> Exemption 6 protects files containing personally identifiable information disclosure of which would constitute a clearly unwarranted invasion of personal privacy. Balancing the public's right to disclosure against the individual's right to privacy, we have determined that release of this information would constitute a clearly unwarranted invasion of personal

---

<sup>1</sup> 5 U.S.C. § 552(b)(6).

privacy. Therefore, all personal email addresses and personal telephone numbers were redacted under Exemption 6.

You have been categorized as a representative of the news media for purposes of assessing FOIA fees.<sup>2</sup> As such, you are responsible for the cost of reproduction beyond the first 100 pages. As the costs of responding to your request did not exceed this amount we are not charging you any fees.

If you consider this to be a denial of your FOIA requests, you may seek review by filing an application for review with the Office of General Counsel. An application for review must be *received* by the Commission within 90 calendar days of the date of this letter.<sup>3</sup> You may file an application for review by mailing the application to Federal Communications Commission, Office of General Counsel, 445 12<sup>th</sup> St SW, Washington, DC 20554, or you may file your application for review electronically by e-mailing it to [FOIA-Appeal@fcc.gov](mailto:FOIA-Appeal@fcc.gov). Please caption the envelope (or subject line, if via e-mail) and the application itself as “Review of Freedom of Information Action” and the application should refer to FOIA No. 2020-088.

If you would like to discuss this response before filing an application for review to attempt to resolve your dispute without going through the appeals process, you may contact the Commission’s FOIA Public Liaison for assistance at:

FOIA Public Liaison  
FCC, Office of the Managing Director,  
Performance Evaluation and Records Management  
445 12<sup>th</sup> St SW,  
Washington, DC 20554  
[FOIA-Public-Liaison@fcc.gov](mailto:FOIA-Public-Liaison@fcc.gov)

If you are unable to resolve your FOIA dispute through the Commission’s FOIA Public Liaison, the Office of Government Information Services (OGIS), and the Federal FOIA Ombudsman’s Office, offers mediation services to help resolve disputes between FOIA requesters and Federal agencies. The contact information for OGIS is:

---

<sup>2</sup> See 47 CFR § 0.470(a)(2).

<sup>3</sup> 47 CFR §§ 0.461(j), 1.115; 47 CFR § 1.7 (documents are considered filed with the Commission upon their receipt at the location designated by the Commission).

### **Description**

Baltimore, MD station Fox 45 aired a manipulated video of protesters. They made it appear and sound like the protesters were chanting "Kill the Cops". On Dec. 23rd they apologized for doing so. Faking of any news simply can't be permitted. This goes beyond the single station though I doubt your penalty will.

---

**Ticket: # 55231 - intentional lies and evil broadcast as news!**

**Date:** 12/24/2014 9:11:28 AM

**City/State/Zip:** Baton Rouge, Louisiana 70816

---

### **Description**

WBFF FOX 45, chose to edit, "we won't stop, we can't stop, 'til killer cops, are in cell blocks," from protests. they edited and told viewers the chanting was saying, "kill a cop."

this was presented as NEWS. how many thousands of police officers have seen this - and will now increase the brutality and rights violations committed by officers against protestors??

why do these fake news channels exist in the USA???

why are they allowed to make up lies, broadcast them as news, and be the cause of brutality and death in our nation - WITH NO REPURCUSSIONS???

---

## **Description**

It is a funny feeling how like when you find a story that you may find to be interesting or something is false and like not true. I can see that false stories in the news can affect the people. I believe The Hollywood Reporter has removed the LAPD/NYPD story about Quentin Tarantino that the officer at the LAPD said it was yet another false story on CNN about the LAPD there in the last three weeks there. Also, last night Showtime or HBO should have removed "Pulp Fiction" shown at an odd time there last night probably because the story said the NYPD and LAPD would have visited the home of Quentin Tarantino today to discuss how much they hate his movies. According to the LAPD, it may be a very small bunch of LAPD or NYPD officers that did not speak to us or it is another false story about the LAPD on CNN. Yes, I suggested to the California Atty General with these fake news stories about the LAPD twice in the last two weeks on CNN there that maybe the FCC should have a jurisdiction over cable or something. I learned you do not have a jurisdiction over cable though. Should you? Again, it is odd when the LAPD complains to me that two stories I read about the LAPD there on CNN in their huge articles there on CNN is false about the LAPD. Do you think that the California Atty General should like my suggestion where I said that maybe the FCC should also regulate cable? Odd and BAD how the LAPD got mad at CNN for making two stories in the last three weeks there that were false on CNN about the LAPD. I can tell the LAPD is not happy, this time also the NYPD may not be along with Quentin Tarantino, unless this thing with the LAPD/NYPD and Tarantino with him being visited by them is a very very small group that never told headquarters....would you think it is a good idea for you to regulate cable also or no???

## **Description**

In today's world we live in a society able to access more information than humans have ever had access to. While there's 1000 new news apps, websites, and twitter accounts designed to deliver people information every day, we still look to the familiar names to decide on what we think is true and what we think is false. CNN, NBC, and Fox News have cornered the market as the news organizations able to weather this storm, and by doing so, they seem to be the most familiar news source to a lot of people. But imagine one or all of these news organizations are reporting in a manner to disregard the truth journalism is suppose to expose and instead twist stories with irrelevant, false, and vindictive information designed to sway public opinion towards their own beliefs. This or these organizations are morally corrupting America and reporting false information mostly regarding certain religious or political factions. Since below I have to cite a certain channel, I will shift the focus of my complaint over to Fox News. They're infamous for the lies they tell and for publicly doing the bidding of the republican party. I have no quarrel with republicans, however the news is not the place for that. Also the purposeful negative tone taken towards Muslims is 100 percent unacceptable in today's society. Just to site a few examples, this article describes and provides a video of Fox purposely using an irrelevant video from 2011 to create a negative depiction of Muslims, all the while claiming they're not doing exactly what they are doing.

<http://www.dailykos.com/story/2015/9/28/1425732/-Watch-John-Oliver-Bust-Fox-News-For-Falsifying-Refugee-Video>. On the FCC website, it says that content falls under the category of prohibited if, "The material, taken as a whole, must lack serious literary, artistic, political or scientific value." If fake news doesn't fall under this catagory then I dont know what else does. These people are repected as newsman by the public who don't know any better between what they're being told and the the truth. These lies have no value, and need to be stopped. Please FCC, whoever happens to come across this, please don't disregard this complaint.

## **Description**

With Google and Facebook's announcement of no longer allowing "fake news" or "propaganda" to appear in AdSense. That is completely understandable and somewhat commendable that they are attempting to stop the spread of biased or untrue news. However, the inclusion of certain sources such as Infowars seems a little extreme if they are not going to include such publications as New York Times or Washington Post. There are several editorials that are not clearly marked as such that the mainstream news networks such as CBS and NBC then air on their various news programs as if it is news and not opinion. This move by Facebook and Google feels like discrimination to me. Especially since they are now only promoting the news that they claim is news by filtering out advertisements for alternative news sources. I think the FCC needs to step in and take steps to ensure that the Internet and the people's free access to information is not being hindered by Google's actions.

## **Description**

I sent this same message to the DNC, Attorney General Lynch, Bernie Sanders and Elizabeth Warren and I will pose it to you as well as the FTC as I believe each of your organizations should be protecting the public interest with regard to the false information which was disseminated throughout the election cycle and ultimately fed the frenzy if many Americans who apparently cannot distinguish between fact and fiction.

why has no one taken steps to file suit, at the federal level, against fake news sites which have fed republicans information that caused their frenzy and elected Trump?

There are innumerable sites that are peddling garbage which is blatantly untrue. This is not restricted to conservatives, but the quantity appears to be significantly higher from my experience.

These sites are an absolute and public nuisance as well as a private nuisance to America. I personally believe that there isn't any reasonable excuse to have to fact check every article that comes up for validity when reading news stories. I believe that there should be some level of "truth in reporting" just as there is in advertising. At the bare minimum any organization that wants to write fictional stories should be required to mark their fiction as such.

I feel it is the very least your organization can do to proactively combat the ignorance which apparently had overtaken a huge swath of this nation and was obviously being done so by the alt-right in an effort to undermine equality for women and minorities.

The assault we face both environmentally as well as economically is one most persons in your organization are likely not acquainted with intimately these days however we are stuck with the outcome of the misinformed being angry over purposely provided misinformation.

If I had the economic means I would personally levy the suits against these organizations and likely the government for failure to have not already done so in the public interest because it is unethical and morally wrong.

This travesty of false advertising in politics has to come to an end. Please, I know time is short but if there are wheels that can be set in motion to prevent any more of this before this abortion of a presidency begins with his Goebbels propaganda style information machine now is the time to do try to save the American people from themselves.

**Date:** 11/28/2016 8:23:58 AM

**City/State/Zip:** Madison, Georgia 30650

**Company Complaining About:** Yahoo

---

## **Description**

The company "Yahoo" is biased, and is inciting fear in the American public by printing and distributing online web content that is simply not true.

Hence: [https://www.yahoo.com/news/m/178db2ce-a1ee-3a1b-b375-917e8f98d703/ss\\_can-we-expect-the-stock.html](https://www.yahoo.com/news/m/178db2ce-a1ee-3a1b-b375-917e8f98d703/ss_can-we-expect-the-stock.html)

This policy of magnifying issues by the creation of false news stories is creating a cycle of fear, and hatred in the American public.

This issue was recently brought to light by President Obama when he said that "fake news has the power to damage or even destroy democracy." President Obama made this statement on Thursday in a joint press conference in Germany with Chancellor Angela Merkel.

"If we are not serious about the facts and what's true and what's not, particularly in the social media era when so many get information from sound bites and snippets off their phone, if we can't discriminate between serious arguments and propaganda, then we have problems," he said.

Yahoo and other media outlets need to be fined for spreading propaganda that create fear, hatred and social unrest.

## **Description**

I have watched year after year more mergers come through that should have been stopped by the FCC and did not. Now we have the problem we all feared would happen. Rules are to be followed for a reason and I believe you the FCC did not follow your own. 95% of media on TV has a liberal bias. Many of those stations are routinely getting caught stating false facts and narratives. They have gone so far off the deep end it is inciting violence in our nation. Police officers are getting killed. People are talking about civil war and most of the media still continues to stir the pot with lies that are proven wrong easily. They are not reputable even though they claim to be because there is no need to be when you own and operate 95% of the news media. They show one sided news with a narrative. Conservatives are being attacked in our nation and instead of reporting on it media continues to report SPLC lies knowing its biased. OAN had to sue just to stay on the air for example. At this point the number of Liberal owned and agenda driven media outlets exceed the others by a ridiculous amount. This isn't even government news we are seeing its one party news willing to lie and cheat. They are now pushing an agenda of fake news against small outlets when by and large they in fact pushed most of the lies we saw on TV this year. The masses are still quoting lies like hands up don't shoot, hate crime hoaxes, Steve Bannon is a racist, etc and they are just not true I'm sorry. I did the research. You allowed a dangerous media conglomerate to exist by not regulating them for monopolies. It's time you stepped up and did what you were created to do and started breaking some of these dangerous outlets up. Stop allowing mergers here and now and get this under control. Americans are in danger of civil war due to the rules here not being followed. Please review this carefully it really has gotten out of control. You should have in my opinion 33% liberal 33% conservative 33% independent news channels in every market. I don't have a party preference I really mean that. I used to like watching news and fact checking statements and interview guests. It used to be fun or funny to some degree but in the last few years it is just utterly disturbing how agenda driven it has become.

---

## **Description**

My son has/had a business on Facebook. On October 24th they unpublished all the businesses sites. All our customers pages too. We have been given generic reasons from "negative fan feedback" to posting malicious links. The last was for a site with no posts. We cannot get in touch with anyone nor file a grievance with a real person. We would like our business pages reinstated and the offense in writing with time to remove it. We would also like assurance that once given back because someone asked they wont be taken away as soon as the news/judge/government entity is gone. They have done that before. All we are asking is to be allowed on a level playing field. They post scam ads, fake news, but our pages were G and posted no fake news nor scam ads. They have to listen to you as you control the Internet. Maybe make them a "public utility" that will stop the random unpublishing of pages just because they can.

I am writing regarding the following URL:

<http://www.thesmartershoppers.com/ABA/3/fbg/iq.html?rt=bg&sxid=cec390lozdei>

The site masquerades as a Forbes news site. However the URL and lofty claims reveal otherwise. This is a fake news site with an "article" about a dietary supplement taken by billionaires to help boost memory and IQ.

My 75 year old father told me about this site and the memory boosting pill Bill Gates touted in Forbes. I explained it was a fake news site.

Why is this not regulated? With our expanding aging population, how can we take greater measures to safeguard them against the sneaky ploys of sites, such as these. It is most alarming that a reputable magazine and public figures are used as persuasion tactics.

Just something to consider.

**Company Complaining About:** Cox

---

## **Description**

We are tired of CNN's fake news and Trump bashing, so it took some work, but I was finally able to remove CNN from my channel line-up. My first call to Cox back in Nov, 16 said it could not be done. The second time I threatened to cancel, and they advised I could select the 'Starter TV' channel line-up, and I would also save \$40/mo! :) Success. I told a friend about it, he called Cox Cable, and they told him there was no way to remove CNN...which was a 'total lie'. He wants to get rid of CNN, and Cox won't do it. Cox customer service is lying and not advising consumers how to get rid of CNN 'and' save \$40/month. I called Cox and said they were "lying" to their customers, and the rep didn't care. CNN is toxic, and we feel so much better getting rid of it, knowing our cable fees are going into their pocket to pay their salaries. I have many friends who feel the same way. Cox should not be lying to consumers to boost their profits and force CNN into their homes...they should be advising them to pick the Starter TV Channel Line-up, which excludes CNN.

## **Description**

The Mainstream Media news outlets are obviously trying to undermine our President and our nation by inundating the public with fake news, misleading stories, and one-sided biased interviews and spokespeople. It is most apparent on CNN, MSNBC, ABC, CBS, NBC, and PBS, but also print media like the New York Times and Washington Post. For the sake of our nation, I hope you will get them to develop a balanced and unbiased approach to the news they report.

**City/State/Zip:** Eugene, Oregon 97401

---

## **Description**

The Fox news network has been generating fake news for many years. Fox is no better than a tabloid network.

Example 1: Greg Phillips has claimed, without substantiation, that Donald Trump won the popular vote in the 2016 Presidential election by over 3,000,000 votes. In addition, Phillips claims that these votes came from 'illegal' aliens. Most Secretaries of State across the US have debunked this claim. There has been no retraction or correction by Fox. Trump has continued to use this Fox news bit to claim 'massive voter fraud'.

Example 2: On a Tucker Carlson show a clip of a film by Ami Horowitz blamed immigrants to Sweden as causing violence. The allegations by Horowitz have been debunked. However, Donald Trump accepted this as truth and claimed that Sweden had been attacked by immigrants. This has created an international incident between the US and Sweden. I have not seen any retraction of this news by Fox.

There are many, many other cases where Fox has created 'news' where no story exists. And with Fox being under investigation by the Federal Government for breaking the law for sexual harassment lawsuits, their credibility is virtually nil.

I hope that the FCC investigate Fox for creating 'news'. Furthermore, Fox should be required to issue retractions for every single fake 'news' item. Additionally, Fox should be required to dismiss each and every single person who created fake 'news', and fine the network appropriately. Next, Fox should be required to hire an independent agent who will review news items for truth and accuracy and has option to cancel news article. Finally, Fox will be placed on warning that should any further broadcast of fake 'news' without immediate retraction or correction will result in the revocation of their license to operate.

## **Description**

Face Book is a well known worldwide social media where you can share news, ideas, social interaction, personal data, marketing media, etc, etc with millions and millions of followers. You know Face Book.....

Face Book has there "terms, conditions & policies". However, Face Book with out any warning will block who ever they choose and even if you are not in violation of their policies, they will block as they feel. Basically a one way street and very little ability to explain your side or contact. And if anyone actually does read your reply, they will not answer.

There are many, many, many company's of FB that are a total scam. Take your money and run and FB does absolutely nothing. Most personal posts allow for "like, comment & share" with others. The illegal company's, the first clue is that they do not allow the public to comment as they do not want the truth known and if you share, you are basically promoting their products.

I believe that FB blockage is against our first amendment rights to free speech. Certainly their policies can restrict things like child porn, sales of drugs, guns, etc. But I have seen a LOT of nudity at "Gas Monkey Garage" which is a porn site disguised as a car page so I imagine the rest goes on as well.

They also "filter" likes and comments. Mark Zuckerberg was a Hillary fan and in the beginning of the presidential race, Trump used to get 10,000 likes an hour while Hillary got a few thousand? Towards the end, Trump would get a few hundred a day and Hillary would get thousands. Zuckerberg donated \$17 million to Hillary which I call collusion and conspiracy and if she won, my belief he would have control of the Internet.

There was and is endless fake news on FB. Much of it made up against Trump by FB, Hillary and the democratic party. I really feel that the FCC needs to investigate Face Book & Zuckerberg and drain that swamp. And if you do not believe me, start monitoring FB for all the complaints and see for your self. I currently am in FB jail for a week and did nothing wrong. I personall have been ripped of by FB company's. ACER computers, The Perfume Spot, Ashley Jewels, Go Pro and much more.

We as a private citizen have no powers, but you do and here is a great place to start.....

This is a follow-up to your previous request #1321806 "Re: [FCC Complaints] Re: Ad..."

Hi, this spam advertising problem has started again and I've getting one or two emails a day (except weekends) for the past month. It appears this time it comes from [randomname]2017@gmail.com, most has to do with fake news stories about famous USA celebrities. I report them as "phishing scams" because they try to get my login information and put malware to track my every move on all my browsers in the process. This garbage has got to stop right now again, and I figured that I needed to add this information to this ticket. Thank You.

**Ticket: # 1498293 - Fox News deliberately creating Fake News**

**Date:** 3/10/2017 12:57:29 PM

**City/State/Zip:** Lake Forest, Illinois 60045

---

**Description**

This week Fox News went out of their way to support #45 with a Fake News Story. They interviewed a so called expert on Swedish National Security, who is a convicted felon. They gave him a job title that does not exist and Nils Bildt himself have stated that it was a Fox News Editor who decided to give him that title. They did know it was not correct. The man is not a Swedish National Security Advisor, he does not live in Sweden and he is not affiliated in any way what so ever with the government or intelligence in Sweden. His closest affiliation is that his father was a riding (athlete) star.

It is worrisome when news stations deliberately create fake stories to help their own agenda. We need to be able to trust the news. It is even more worrisome that Fox News refuses retracting the story and apologize.

<http://www.dn.se/nyheter/varlden/fake-sweden-expert-on-fox-news-has-criminal-convictions-in-us-no-connection-to-swedish-security/>

<https://theintercept.com/2017/02/25/fox-news-interview-fake-expert-sweden-baffles-swedes/>

It is an embarrassment on the credibility of American News Stations, which the entire world is discussing right now.

Fox News must be made responsible for this, as a story like this also incites hatred and fear towards minorities.

According to Mr. Bildt Fox News knew that he was not a national security advisor and it was the Fox Editor who decided to give him the title - emphasize the fake story. Fox News knew the story was FALSE.

After this incidence we have seen a rise in violence against ethnic minorities and has participated in causing incidences such as the shooting of an indian man in Kansas the day after, several ethnic minorities being harassed and physically and verbally assaulted from right wing people believing such false stories. Another example is the man slurring at ethnic minorities in a United airplane in Chicago OHare, telling darker people to get out of his country. The safety of the general public has clearly decreased after this false story.

**Ticket: # 1498601 - Complaint against CNN's Believer for false and racially hateful reporting**

**Date:** 3/10/2017 2:23:01 PM

**City/State/Zip:** New Jersey, New Jersey 08817

---

### **Description**

The CNN episode of Believer that aired on Sunday March 5th at 10pm EST was used by Reza Aslan to spread lies, disdain and hatred toward a peaceful, benevolent and dynamic community - the Hindus.

This has caused severe hurt to the Hindu community all over the world. You will see several protests against CNN this weekend. The Hindus are hurt due to the lies shown but also afraid of being victims of hate and racism more than ever due to CNN and Believer. I can share multiple rebuttals as well as consequences the Hindus are facing due to this very poor move by CNN. I am including one response here for referral.

<http://indiafacts.org/reza-aslans-believer-exhibit-unconcealed-hinduphobia/>  
Fake News to Hatred - the CNN story is a reality.

I am requesting strict and prompt action against CNN, and see that CNN retract the show and apologize as well as take action against Reza Aslan for false reporting and hateful propaganda.

## **Description**

On 28th February, West Michigan's 107.7 WRKR rocker morning show host Mr Mike McKelley regurgitated the ugly claim during his jokey jokes segment that witches were trying to destroy president Trump in clear violation of title 47 chapter 1 subchapter D part 95 sub part A subsection 95.183.

As a witch, I don't normally let things like this get to me, as I've dealt with it all my life through, but 1. This fake news story put out their on a conventional public platform frequented more than mainstream media and EIB, and 2. When I contacted Kate Morton a month later after no response to my previous email the day of the incident, four hours later she responded that Mr. McKelley's words were well within FCC guidelines, but as you can see as previously mentioned, that is flat out lie. Even when truth is broadcasted, nowadays people can barely believe it because the media as a whole has been corrupted by political agendas.

When I contacted her again of the recent repercussions of the media pushing things like that, I got no response. That was sixteen days ago. All I was asking for was an apology to my community for spreading that harmful lie in this day and age where people are stuck in the seventeenth century, and are killing people for nothing more than religious differences at an alarmingly increasing rate. But no, saving face is far more important than apologizing when you do something wrong.

I was exceedingly lenient and patient with this case, as you can tell by the date of the incident related to now, and WRKR has denied responsibility for their actions every step of the way. We witches already have to live in fear of possibly being discovered by people we should be able to trust but know we can't, and being thrust back into the 17th century in some places and the 11th century in others. We shouldn't have to worry about the prospect of an uprising that threatens the very fabric of society and makes Trials the norm again.

When I first contacted ms Kate Morton, she told me she fully supports the on-air team as long as they stay within FCC guidelines. Apparently she must never have read them. I hope that whomever gets this does the right thing. Seems like the polar opposite has become the social norm.

I hope this email finds you well in a timely fashion.

Much Love and Blessed Be

## **Description**

Khq6 in Spokane WA has been falsey reporting information to incite the viewing audience for the most recent years. Khq6 has always been a trump hater and that is the news they deliver. It's reported to the fictional and certainly not truthful. Last evening khq6 ran a story re the new health bill so they ran a story with a woman who claims the health bill will KILL her. No one will know what will be contained in that bill until it is final. Again khq6 did not do any responsible investigating but they achieved their goal in inviting the viewers. The story should never have been run but khq6 got exactly the angry public the wanted.

I tried talking to the station manage three times today and finally talked to someone named Shawn Kelly who was rude and abusive. Khq6 deliberately and continually airs stories that are slighted toward their political views and usually are never the truth. Don't they have a responsibility to air the truth? Their airing is fake news an adjective so well deserved. Can't you punish them for false reporting.

Khq6 has hired a silly airhead to deliver their decietful and false stories. This individual apparently as no integrity because she doesn't seem to have a conscious. The viewing audience must indue her silliness instead of the news we have tuned in to hear. Instead we are tortured with showing us the junk she has in her home. Her dog stories.

We want accurate unbiased reporting by khq6 but we are not getting it. Aren't there rules and guidelines khq6 must follow to deliver honest unbiased and accurate news??

## **Description**

It has come to my attention that the above networks are refusing to air an ad pertaining to President Trump because it contains a shot about fake news. These very same news networks are the ones complaining about free speech and even had a huge portion of the WH Correspondents dinner dedicated to free speech. If they have the right to say and report their opinions, then this ad has the right to advertise as they believe. This is impending free speech. Allowing them to boycott this ad is sending us down a slippery slope. If they can ban this ad, then what about the next election cycle. Will they refuse to air ads for the candidate that they are against? We cannot allow this to happen. This should be troublesome to anyone regardless of party affiliation.

## Description

I am contacting the FCC because of the disgusting remark Stephen Colbert made about President Trump and Russia's Putin - "The only thing your mouth is good for is being Vladimir Putin's c—holster." It is very offensive and Colbert should either be fired or heavily fined. If you are going to let something like this continue and not address at least the issue of indecency to the office of President of the United States of America, then maybe the function of the FCC needs to be addressed.

Trump supporters and others took to Twitter, calling the joke homophobic.

As the backlash swelled, Colbert's camp was silent. A "Late Show" spokeswoman and the comedian's agent did not respond to requests for comment, and Colbert did not address the controversy on Tuesday's show — or on his Twitter feed.

But Wednesday night, he opened his show by discussing the now-infamous joke.

"While I would do it again, I would change a few words that were cruder than they needed to be," he said. "I'm not going to repeat the phrase. But I just want to say, for the record, life is short, and anyone who expresses their love in their own way, is to me an American hero. I think we can all agree on that.

"I hope even the president and I can agree on that. Nothing else. But, that."

Colbert's monologues have largely focused on Trump, his aides and their gaffes. And his lampooning of the president seems to have paid off.

Just last year, he was trailing far behind Jimmy Fallon's "The Tonight Show." Colbert managed to narrow down Fallon's lead and eventually topped his competition. By late March, Colbert's show was averaging nearly 3 million viewers, about 400,000 more than Fallon's.

But as The Washington Post's Callum Borchers wrote, by joking about oral sex, Colbert "rushed the bro-ternity" of Alex Jones, who once said that Rep. Adam B. Schiff (D-Calif.) "looks like the archetypal c—sucker," and Jesse Watters, who came under fire for a not-so-subtle joke about Ivanka Trump "speaking into that microphone."

Sitting on a panel on "The Fox News Specialists" on Tuesday, Karl Rove, who was a senior adviser in the administration of former president George W. Bush, called the jokes "lewd," "obscene" and "inappropriate."

"They wrote this. This was not a rant that he came up with on the top of this head. They wrote this," Rove said, adding later: "I'm going to continue to do what I do with anything Colbert. I'm going to refuse to watch the SOB."

Many demanded an apology.

Others hijacked the trending hashtag with sarcastic jabs at Colbert's critics:

Colbert began his scathing monologue Monday night by making fun of Trump's comments about the first 100 days in office, which the president called a "ridiculous standard."

"Trump has repeatedly said that this 100 days is totally arbitrary, okay. Totally unimportant. And to prove how unimportant it is, he took out a TV ad, he cut a cake on Air Force One, and he held a rally in Pennsylvania," Colbert said. "The theme of that rally, 'Promises Made, Promises Kept.' Which is better than the original slogan, 'Promises made, never mind, never said it, fake news, watch Fox & Friends.' "

He then turned to how Trump abruptly ended the interview with Dickerson, after the "Face the Nation" host asked him if he stands by his claims that President Barack Obama had wiretapped him.

Trump's response to the question was replayed on Colbert's show:

"I don't stand by anything," Trump told Dickerson.

That's when Colbert said: "It's true. He doesn't stand by anything except the dressing room door at Miss USA Pageant. ... Who needs a lotion?"

But it was Trump telling Dickerson that he was a purveyor of "fake news" and calling his show "Deface the Nation" that seems to have set Colbert off.

In an interview Wednesday with Newsmax TV, Federal Communications Commission Chairman Ajit Pai said the agency does not get into the business of regulating content. The Supreme Court, he said, has placed some limits on the authority of the FCC, which regulates communications by radio, television, wire, satellite and cable.

"It's a free country. People are willing and able to say just about anything these days," Pai said, adding later that unless a content is indecent, obscene or profane by FCC standards, the agency's authority is "pretty limited."

This post has been updated.

**Ticket: # 1628499 - Rude indecent behavior by Donald Trump to John Dickerson on Face the Nation**

**Date:** 5/7/2017 11:46:01 PM

**City/State/Zip:** Raleigh, North Carolina 27615

---

**Description**

I am offended, sickened and embarrassed that the president of the United States gets away with making rude, untrue, indecent statements to a respected mainstream journalist on a long running respected news program like Face the Nation, just because he doesn't like the questions or disagrees with factual statements or questions that he is asked. I am offended that President Trump called John Dickerson and Face the Nation "fake news" and "Deface the Nation". I am offended, sickened and embarrassed that Mr. Trump still won't stand down from his allegation that former President Obama ordered wiretapping of him during the campaign when there is absolutely no evidence given by him or the intelligence agencies that this occurred.

I applaud Stephen Colbert for standing up to Mr. Trump's rude, indecent, offensive behavior to a respected journalist. Mr. Colbert was using a satirical technique that was basically using the same name calling, rude behavior that Trump uses all the time on anyone with whom he disagrees with or doesn't like. It was not homophobic or obscene but it was disparaging in similar language that Mr. Trump uses (blood coming from her.....). I respectfully request that any investigation into Mr. Colbert's comments take into consideration that millions of American's are offended, sickened and embarrassed by a president who demeans, disparages, and lies about the former president of the United States, campaign opponents, and American citizens, and calls anything that he doesn't like "fake" news. I respectfully request that these millions of Americans want Mr. Trump to stop his offensive, childish, petulant behavior and we are happy that someone like Mr. Colbert actually stepped forward to call Mr. Trump out on his offensive, embarrassing, rude behavior. No action should be taken against Mr. Colbert or CBS unless you also take action against the same behavior that Mr. Trump exhibits all the time on television.

---

**Ticket: # 1641633 - Fox News (they present fake news)**

**Date:** 5/12/2017 7:56:52 AM

**City/State/Zip:** Saint Johns, Michigan 48878

---

### **Description**

Fox News is clearly an opinion show. They lead with a real news item, i.e. Comey Fired. However, the truth ends there and they present opinion dressed as news. They posit questions loaded with lies and innuendo designed to lead uninformed viewers to false conclusions. Free speech is critical. However, even the FCC rules say you can't become involved when obvious lies are repeatedly made. Please do something. This group had ruined our democracy. No where else in the world can lies be presented as news.

---

**Ticket: # 1651955 - Fake news on DNC staffer by FOX**

**Date:** 5/17/2017 5:11:37 PM

**City/State/Zip:** Durango, Colorado 81303

---

### **Description**

FOX shouldn't be allowed to broadcast. They are dangerous to the USA and they create self sourced dangerous stories routinely. They do not fit the moral obligation of the FCC rules for having a license. They are not exercising free speech they are full scale sedition and do not deserve to broadcast. Yesterday they fabricated a story. We used to call this yellow journalism. Does the FCC actually protect people any more or have they cut you down to two guys with a email account? I have an idea how you let them do that by broadcasting seditious lies.

---

[Ticket: # 1652845 - FoxNews Seth Rich hoax story](#)

**Date:** 5/18/2017 10:02:59 AM

**City/State/Zip:** Astoria, New York 11377

---

## **Description**

FoxNews deserves censure for airing a COMPLETELY PHONY fake news item regarding the death of #SethRich on 5/17/17. In collusion with INFowars, Drudge Report and other altRight outlets, to distract from the TrumpAdministration's scandal-plagued week. Their "source" was a private investigator and FoxNews contributor. This is as deceitful as it gets.

---

[Ticket: # 1653328 - MSNBC fake news](#)

**Date:** 5/18/2017 12:14:25 PM

**City/State/Zip:** Tewksbury, Massachusetts 01876

---

### **Description**

as a news network,that is supposed to be unbiased, this network is basically an arm of the democratic party. Any opposing view are not tolerated on any of the shows. I was watching the other evening, the a former navy seal was on one of the panels and he was shouted down and attacked as a bigot and racist for asking about unnamed sources etc. This network is a joke and is involved in sedition of the us government

---

**Ticket: # 1654856 - CBS, NBC, ABC, CNN an all other fake news Services under your Jurisdiction**

**Date:** 5/18/2017 7:40:19 PM

**City/State/Zip:** Norwalk, Connecticut 06855

**Company Complaining About:** Cbs, Nbc, Abc, Cnn, Msnbc An All Fake News Outlets

---

## **Description**

I just heard Bob Schiefer at 6:55 pm say that the current investigation into the President raises to the level of Watergate, How can anyone try, convict and literally impeach a President without a single piece of evidence yet presented, It is a crime alright, the news media is dividing this country as much or more than what went on years before the revolution in the colonies and British loyalists, I see a second coming not of the Lord Jesus though I pray he does come soon but of a second revolution or civil war between the 50 states, mark my words it is in the air already because of reporting that is unprovend and totally misleading I am a fair minded moderate and I am appalled at all news channels, all for profit and destruction of society. I am joining the resistance movement and will boycott all that is unfair and rise up against them with many millions of US citizens, illegals have no voice they are criminals as soon as they enter this country illegally no legal voice no matter where they come from, my family came here 160 years ago legally

---

**Ticket: # 1657343 - FAKE NEWS and DISGUSTING COMMENTS**

**Date:** 5/20/2017 8:27:14 AM

**City/State/Zip:** Jefferson, Georgia 30549

---

**Description**

Isn't it time that CNN is investigated for the disgusting "HOSTS" they have? Now Anderson Cooper talks about President Trump taking "a dump on his desk". This along with the obvious unintelligent references to such things as sharia law, Fascism, etc. shows that they do not research and report NEWS, they report whatever they feel. THIS STATION IS A DISGRACE!

---

[Ticket: # 1663009 - Seth Rich fake news story by FOX](#)

**Date:** 5/23/2017 5:44:52 PM

**City/State/Zip:** Durango, Colorado 81303

---

**Description**

FOX news has a long history of creating and self sourcing fake news. How in the heck do you allow them to broadcast lies and call themselves news. They are profiting from lying and destroying the USA. Enough is enough! Pull their license!

---

[Ticket: # 1663170 - Fake news site is also promoting anarchy and anti-gov propaganda](#)

**Ticket: # 1676172 - Not Reporting on a major news story that is PROVEN to be FAKE news**

**Date:** 5/31/2017 2:02:50 PM

**City/State/Zip:** Sherman Oaks, California 91401

**Company Complaining About:** Time Warner

---

## **Description**

Someone has been declared dead all over the media for years but there's a confession by the person involved that the dead body "was NOT the same person" that was announced dead--this is available in video form. The dead body is proven to be a decoy body double. I also have a confession that person "looked different" in writing.

Another person who saw the dead body also said, "he thought it was a cancer hospice patient who had been suffering a long illness" and there's video proof from 12 hours prior to the death announcement that proves he didn't look sick or ill, but looked healthy and strong.

This person's death is continually promoted despite information that has been presented to all major media conglomerates that control 90% of what Americans see, hear and read.

It's become a conspiracy and a cover-up.

I've informed and have proof they have opened my emails stating such information but they have ALL decided to ignore this information to keep this information from the public-at-large. All media companies are in lock N step with each other and are not serving the public with information they deem is not in their own financial interests despite the truth being presented to them over and over. Furthermore, they have been informed where to find further supportive proof that dead body was a decoy, but REFUSE to do their investigative work to inform the public.

Outlets involved:

### **BROADCAST**

CBS  
NBCUniversal  
ABC  
Fox  
ExtraTV  
C-Span  
Warner Bros  
Turner

### **INTERNET**

Radaronline.com  
PerezHilton.com

TMZ

PRINT

Wall Street Journal  
LA Times

WIRE

Associated Press  
NPR  
Thomson Reuters

#### SUPPORTIVE EVIDENCE:

There's still no name on this person's crypt

The mortuary states they don't have this person's body and have never had it

The Coroner doesn't have a record of the person announced dead, but has another record with this same person's NAME using aka (also known as) names

The California Courts has called this person "alleged" in identification and also called the date of death "alleged".

The 911 call never mentioned this person's name

At the hospital where this person was announced dead, doesn't have him registered in the correct name and has used aliases.

Other parties involved refused to stipulate this person was dead for 8 days but made sure the NAME (which is the wrong one) was duly noted.

All death documents are in the wrong name

It's a death hoax that major media outlets are refusing to inform the American public about, even though they have announced this person dead and continue to further the lie this person is dead despite being presented with evidence to the contrary.

The public deserves to know these FACTS which are NOT in dispute but are being kept away from the same audience they have told over and over again that is dead.

There are also supportive FACTS that prove undoubtedly it was a faked corpse of someone else and not the reported deceased person. I have under oath testimony that proves this 100% by examining the cause of death and proving the death photos to be faked. There's also testimony to this as well.

News reporting has a responsibility not to deliberately report news that is not true and if a mistake is made, they must retract that statement on that same outlet but are simply refusing to do so despite

being told over and over there is evidence, proof, testimony, and facts that dispute the news they told the American Public.

I have PROOF that supports everything in this complaint.

---

**Ticket: # 1683346 - Broadcast diversity and competition**

**Date:** 6/4/2017 1:33:40 PM

**City/State/Zip:** Stuyvesant, New York 12173

**Company Complaining About:** Dish Network

---

## **Description**

The local CBS affiliate, WRGB, has been bought by the Sinclair Broadcast Group, one of whose first acts was to replace the second half hour of the long-running, widely-respected, network show "Face the Nation" with the "fake news" program "Full Measure," produced by Sinclair and full of misinformation, one-sided presentations and bias masquerading as "news."

This is the way Sinclair has operated around the nation, substituting their bigoted point of view for any semblance of balanced reporting. Since part of your mandate is to protect a free press and make sure that the public airwaves support a wide diversity of opinion, I urge you to re-instate some form of the "fairness doctrine" to the media, and limit the control of information fomented by increasing consolidation in the broadcast media. In that interest, I urge you to reverse the recent change in the ownership calculation rules that allows Sinclair to widen its hold on broadcast outlets and propagate its biased views and propaganda.

Beyond your duty to the Broadcast Industry and to the Trump Administration, you have a duty to the American Public, which takes precedence. I urge you to take the responsibility seriously.

CNN needs to be accountable for reporting and making fake news. There is lots of stupid people that believe these garbage. Isn't there a law against reporting lies?

---

**Ticket: # 1691011 - Revoke All Licenses from CNN ASAP**

**Date:** 6/7/2017 6:10:43 PM

**City/State/Zip:** Dallas, Georgia 30157

---

### **Description**

Please revoke all FCC licenses from CNN for providing TV coverage that is based on news without supporting facts, fake news, and false news concerning our current administration. Other instances include the "Don't Shoot" false news about Ferguson, which helped to incite further rioting because the Afro-American community thought that the shooter was attacked by a policemen who was cleared of all charges. Other complaints include inciting assassination of the President, Vice President, and Speaker of the House. See article below. CNN is just a far-left propaganda news machine to help Hillary Clinton get elected and then try to destroy Donald Trump, Mike Pence, Paul Ryan, and Trump's staff. CNN is a disgrace to the journalism community. Get them off the air now!

**Ticket: # 1700359 - Facebook Restraint of Trade Issue****Date:** 6/13/2017 10:16:41 AM**City/State/Zip:** Queensbury, New York 12804**Company Complaining About:** Facebook

---

**Description**

I am one of the admins for a group page with the title, "I Am A Jew And I Did Not Vote For Obama In 2012". First Facebook gave us a problem with changing the name of the group. Now they have unpublished it altogether saying we published fake news. This is not true. They gave us no examples and no warnings. Our group has close to 14,000 members with 10,000 active members in it. Only admins can post. We are very careful with our content. I, myself, check each article before I publish it and get to the source and submit from the original source. I was told by the other admins what sources are legitimate. I am pretty up on what is going on in the world politically. I have not found any one person--regardless of who he or she is, (including the President)--to be knowledgeable on every single issue. There were no complaints about our group in all the nine years in existence though. I believe Facebook has discriminated against us and is wrong in their decision. We admins are just a few senior citizens with disabilities who do not advocate violence or discrimination in any color, race, sexual orientation, shape or form. We are not the only conservative oriented site shut down by Facebook for no apparent reason. There must be something done about this. We would like Facebook to know we are not happy, feel discriminated against and that they are restraining trade and to republish our page and to change the page name, as per our numerous requests.

**Ticket: # 1731078 - CNN is fake news.**

**Date:** 6/27/2017 11:20:16 AM

**City/State/Zip:** Hendersonville, Tennessee 37075

---

## **Description**

According to your website, you have listed information that someone can use to help bring attention to an issue (see below). An issue with CNN has been long withstanding and is now being brought to light. CNN has been mudslinging beyond compare, and now it's time to take care of this problem. Lie after lie has been pushed out by CNN, causing many problems throughout many communities throughout the US. It needs to stop now. Please look into this and get CNN's FCC's accreditation yanked.

Q: What can a person do if he or she is attacked personally on a cablecast?

A: The personal attack rule applies when "an attack is made upon the honesty, character, integrity, or like personal qualities of an identified person or group" during origination cablecasting concerning controversial issues of public importance. A cable system must give the following to the person or group attacked within one week: (1) notification and identification of the cablecast; (2) a script, tape or accurate summary of the attack; and (3) an offer of a reasonable opportunity to respond over the cable facilities.

**City/State/Zip:** Sioux Falls, South Dakota 57110

**Company Complaining About:** N/a

---

## **Description**

Based on the recent release of the Project Veritas video related to a CNN producer admitting that CNN creates/follows stories "for ratings", I believe it is time that the FCC look into CNN and its operations/reporting. As Americans, we want and deserve honest reporting, and that is not what CNN is providing, as evidenced by their retraction of the Scaramuchi/Russia story. If we can't get honest reporting, how can we make informed and intelligent decisions as related to our representative government? I ask the FCC to investigate this, to somehow get involved. Thank you.

**Ticket: # 1731875 - CNN is Very Fake News**

**Date:** 6/27/2017 2:15:05 PM

**City/State/Zip:** Elgin, Illinois 60123

---

### **Description**

A senior producer for CNN has been caught on tape admitting Trump's collusion with Russia narrative is mostly "bullsh\*t" - that there is no such evidence to report on, yet they continue to air made-up stories to push this agenda, that there is a witch-hunt against our President.

<https://www.youtube.com/watch?v=jdP8TiKY8dE>

CNN has risked a World War with continuous negative coverage of Russian interference into the Presidential Election. This is unacceptable, it is dangerous and dishonest. CNN must have it's license to broadcast news revoked, as harsh a punishment this would be it needs to set an example that Fake News to push a political agenda is not to be tolerated, especially with the fate of the world in the balance. Thank you

## **Description**

I believe the networks CNN and ABC and MSNBC and others are seriously beating a horse that is long dead. These people have Trump Derangement Syndrome (TDS) unlike any other case I have seen before. It's as if the main stream "news" (lies) wants to cause world war 3. CNN and others should issue apologies to the American people and the Trump family for this whole bullshit Russia thing Hillary and Molesta Podesta came up with since she so dumb she lost a rigged in her favor election.

CNN will likely face legal repercussions if they do not apologize to the world for being the two faced liars they are. You hear that CNN? I want all of your story writers and publishers to say they are liars and lied to the world about Trump. Pieces of shit, fake news, motherfuckers

## **Description**

I'm filing this complaint in regards to the recent revelations of CNN producer John Bonfield, admitting: "I mean, it's mostly bullshit right now." about the non stop coverage of Russian collusion w/ Press. Trump. He also admitted that they also "manipulate governments". Given this shocking and outrageous admission I believe that this network would happily lead the world into WW3 for ratings. They are a direct threat not only to the US but to the world. So much has been made of the threat of fake news to our democracy I would assume that the FCC would take measures to stop the threat CNN has admitted to be. I'm hoping that the FCC is not as corrupt as so many branches of our current government is and does it's legal duty to protect the public from the threat CNN imposes. I could go on and on about all the other false narratives they have concocted such as the "hands up don't shoot" Michael Brown narrative that directly led to riots and the inception of another domestic terrorist org. such as Black Lives Matter, which has led to many police deaths. Please do your duty and revoke CNN's broadcasting license. We are depending on you.

**City/State/Zip:** Phoenix, Arizona 85086

**Company Complaining About:** Time Warner

---

## **Description**

CNN purports to be a news organization. It is licensed and carried internationally as such, and its sponsors are told by CNN that it broadcasts news. Per their own producers, however, they knowingly broadcast untrue (ie not news) nonsense for ratings. This nonsense is costing American taxpayers tens of millions of dollars, and significant interruption of our democratic processes in the current Russia nonsense that CNN today admitted is bogus. Their broadcast license should be pulled unless they begin to advertise and brand themselves as entertainment drama and not news. They are interfering in the political governance of the United States.

**City/State/Zip:** North Merrick, New York 11566

---

## **Description**

My problem is the selective enforcement of the FCC and it's failure to follow it's own rules regarding the willful, and harmful transmission of fake news. something they have openly admitted. Please enforce and sanction, fine and pull the broadcasting license of CNN nationally. Here is your own rule, now please enforce it. Broadcasting False Information

Knowingly broadcasting false information concerning a crime or a catastrophe may violate the rules of the

Federal Communications Commission (FCC).

Specifics of the FCC's Rules

The FCC's rules prohibit holders of broadcast licenses from broadcasting false information concerning a

crime or a catastrophe if:

- the licensee knows the information is false; and
- the licensee knows beforehand that broadcasting the information will cause substantial "public harm." The public harm: (1) must begin immediately and cause direct and actual damage to property or the health or safety of the general public; or (2) divert law enforcement or public health and safety authorities from their duties.

Disclaimers

If a broadcast licensee uses a disclaimer that clearly characterizes the program as fiction, and the disclaimer

is presented in a way that is reasonable under the circumstances, the program will be presumed not to pose

foreseeable public harm.

Filing a complaint

You have multiple options for filing a complaint with the FCC:

- File a complaint online at <https://consumercomplaints.fcc.gov>
- By phone: 1-888-CALL-FCC (1-888-225-5322); TTY: 1-888-TELL-FCC (1-888-835-5322); ASL: 1-844-432-2275
- By mail (please include your name, address, contact information and as much detail about your complaint as possible):

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

To Chairman Pai:

I want to add to the complaints being forwarded to the FCC and to ask that serious consideration be given to revoking CNN's license to broadcast.

While the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, the CNN Chairman Jeff Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- \* Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- \* CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- \* One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- \* Mr. Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

Please move quickly - if not to revoke CNN's license to broadcast its fake news on America's airwaves, but to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

I am an individual who wants to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were removed over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves. Additionally, he maintains that people trust CNN now more than ever.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. We trust this will be initiated before ATT is allowed to merge with Time Warner.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As a concerned US citizen and retired military officer, I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration simply to achieve higher network ratings. This practice is an abuse of trust. By manipulating their broadcast content to focus on known, inaccurate information to manipulate viewer perceptions, the CNN format is clearly evolving away from news and becoming a propaganda organization.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, or to begin an investigation into whether CNN is abusing the public trust.

Respectfully,

(b) (6)

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license - along with ABC, NBC, CBS, and MSNBC to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully - and so do these other networks. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources; (the other networks except FOX did the same.) CNN reported the existence of a dossier of then-candidate Trump, which has been debunked; (so did the other networks except FOX)

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings; (All of them are driven by ratings rather than the truth.)

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves. (The other networks have followed suit, except FOX.)

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration. (Others have not admitted, but are clearly guilty.)

We hope you will move quickly if not to revoke CNN's, NBC's, ABC's, CBS's, and MSNBC's licenses to broadcast their fake news on America's airwaves, then to begin an investigation into whether they are abusing the public trust.

The problem is NOT with Spectrum, our cable provider. The problem is with the networks that deliberately report "news" that is nothing but lie after lie after lie. They are supposed to be the public's watchdog, not another arm of the democrat party. As a natural born senior citizen "news" has degraded to propagating lies. It needs to STOP!!

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN should not be allowed to air news stories that are not true or made up to fit a political agenda. According to FCC regulations, the agency "may issue penalties for knowingly broadcasting false information." "As public trustees," the FCC specifies, "broadcasters may not intentionally distort the news."

As recent coverage has revealed, Mr. Zucker and the executives at CNN has repeatedly and willfully broadcast false information. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

## **Description**

I am disgusted at the deliberate and knowing broadcast of falsehoods by CNN and other news outlets. The disconnect from reality and blatant bias makes these broadcasts indecent.

Our major media outlets have shifted to a mode where "telling a lie often enough makes it truth."

Allowing this to continue will lead our country into a constitutional crisis.

This practice of knowingly or carelessly broadcasting falsehoods needs to stop!

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
2. One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
3. CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration. They have also admitted on camera that they do this for rating and advertising revenue.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. ## **Description**

Dear Mr. Chairman,

In these days of "fake news" it is astonishing that the largest players in providing news to the public are the biggest offenders. CNN and the likes are the Fifth Column and in a Democracy that is extremely dangerous. Following is the prepared statement of AMAC and I agree with their statement. I just wanted to personalize and emphasize how dangerous I feel CNN and the puppet-masters are to the continued freedom of America. It has come to the point that I do not believe anything about a Russian connection except perhaps those puppet-masters themselves pulling what they think are the right strings to sway public opinion. Pull their licences and if at all possible prosecute and jail those responsible.

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." Senior Action Alert: File Your Complaint Against CNN!

White List AMAC - how?

[Forward this Message](#) | [Join AMAC](#) | [View in Browser](#)

[File Your Complaint Against CNN for Bogus Russia Narrative](#)

Dear Valued AMAC Member,

Today we filed a formal complaint with the Federal Communications Commission (FCC) on behalf of our organization's 1.2 million members. We took this action in response to revelations that CNN contributor Van Jones described his network's Trump-Russia collusion story as a "nothing burger" while CNN supervising producer John Bonifield admitted it was "bulls\*\*\*." And this is days following the resignation of three CNN reporters who admitted to publishing a false story.

According to FCC regulations, the agency "may issue penalties for knowingly broadcasting false information." "As public trustees," the FCC specifies, "broadcasters may not intentionally distort the news. The FCC has stated publicly that 'rigging or slanting the news is a most heinous act against the public interest.'"

I call on you with the preservation of truth and civil, democratic disclosure to join me and the rest of the Association of Mature American Citizens by filing your own complaint to the FCC.

Please feel free to use my letter below as an example for your complaint.

Regards,

Dan Weber, AMAC President

## **Description**

I no longer listen to CNN (Once trusted) because they are politically biased and no longer report actual news and in this case outright lied.

I think CNN should be fined and reclassified as a show with political narrative instead of a news station. Also, any reporter who lies or knowingly allows a false narrative to be reported as news should be liable for jail time as well.

The public's primary access to domestic and world events is through TRUSTED news networks and organizations. When those organizations are proven to have political agendas and no longer report the truth, basic American freedoms are at risk and this represents a serious threat to our understanding of domestic and world events that influence our voting actions, buying activities and our feelings of security and safety.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

It is impossible for me to put accurate times, dates and specific shows as I did not write them down and the offensive and inaccurate reporting is rampant. Another example is Joe Scarborough calling the president a "Schmuck". CNN has been caught on tape admitting the Russian collusion stories are bogus. Disagreeing with the president is fine; perpetuating false stories and treating him with such personal disrespect is not acceptable.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

Of late, so-called "Fake News" has abounded on the networks, most appear to be an attempt to slander the present administration instead of reporting factual news. CNN has admitted that their reporters and their producer reported as fact news of Russian allegations against the Trump administration. CNN took action and fired those personnel, however confirmation of an overall slant of their news to slander the Trump Administration with phony news stories was also obtained in independent investigative videos of their news personnel admitting the non factual nature was used specifically to increase viewership. I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Fake news is a "thing" now, but it certainly should NEVER come from what presents itself for decades as a real news agency. I'm fed up with what news has become from so many so called "trusted" sources. It's very disturbing to me that I can't trust anything I hear and this situation only makes it worse.

Thank you for your consideration on this matter.

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

**Ticket: # 1741089 - Fake News and CNN the biggest liars**

**Date:** 6/30/2017 11:02:30 AM

**City/State/Zip:** Cashiers, North Carolina 28717

---

**Description**

I'd quit watching CNN and boycott their advertisers. They were very involved in getting Bill O'Reilly to quit FOX NEWS and they are the biggest liars to the American public and all they desire to do is get Trump out of office, as well as Conservative Republicans. They thrive on lying and report completely fake news and don't give any positive air time to what our President is trying to accomplish for Americans. All they do is tear him down, causing him to spend un-needed time to refute their fake news and charges.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

As concerned citizens, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN as well as several other networks have fabricated stories; reported on them for months knowing them to be false; all to boost ratings and to push their political agenda. Most recently the false story has been that the Trump administration colluded with Russia to manipulate the 2016 Presidential election.

This is illegal and CNN and any other network needs to be held accountable. To allow these acts to go unpunished, undermines the public's trust in the media. A trusted media is a capstone for the balance of power between a republican government and the governed. The folks a CNN and several other networks have violated that trust.

As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. This behavior is not ok.

**Ticket: # 1741413 - Knowingly and Repeatedly Broadcasting False Information as True**

**Date:** 6/30/2017 11:12:49 AM

**City/State/Zip:** Houston, Texas 77084

---

## **Description**

As a member of an organization that represents more than 1 million American seniors, I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something. In this case CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I would hope that the Commission will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves. Possibly a revoking of their license or a large fine will send a message to other networks to confirm stories before broadcasting them!

### **Description**

CNN is a propaganda network against America and our Constitution, against Christian faith and everything moral and just. The network is a mouthpiece for elitist who desire one world order who worship the earth and the prince of darkness, rejecting the one true God that created us all. CNN knowingly broadcasting fake news and lying to the American people must be held accountable. The FCC must do their job of due diligence, upholding and enforcing the current Laws and Regulations.

## **Description**

Dear Mr. Chairman,

I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to penalizing, suspending or revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest to get fair, balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration to improve ratings.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

I believe news that presented to the public that is known to be untrue and unsupported by facts is unethical, and when presented with implied statements that that the story is honest when it is actually presented dishonestly for ratings, is immoral and inconsistent with the trust the FCC requires from news agencies using air waves to tell their stories.

All I ask for is fair, balanced and honest information when watching news sources on the TV, it is clear we cannot trust CNN with that promise or responsibility and I respectfully ask the FCC to take action so CNN will again honor the terms of their charter.

Thank you

## **Description**

I have watched CNN on a regular basis until the past year when they have seemingly become unhinged in their efforts to discredit President Trump and his administration. The incredible waste of time and money discussing the Russian "collusion" has been absurd and the number of unsubstantiated reports distressing. The recent firing of three reporters for engaging in the slanderous attack of Anthony Scaramucci has made it clear that CNN and their ownership have little interest in conveying real news as opposed to "fake news".

The other mainstream media are not much better, all becoming more focused on political opinion than on accurate reporting of the news.

It would seem that the FCC has a responsibility to monitor what the news outlets are saying or printing, for the sake of our democracy, which needs to have fair and accurate presentation of all opinions as opposed to pure propaganda!

## **Description**

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN intentionally made up false news about President Trump being involved with Russia cyber attacks on the USA election of 2016. This is heinous act. Making up fake news is even worse than yelling fire in crowded movie theater - it is or should be a crime. CNN should be severely punished with a canceling or suspension of CNN's license to broadcast on TV, cable, satellite, radio, and internet.

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

As you are aware, for many reasons, not the least of which is our national security, is vitally important that broadcasters are constrained from the routine dissemination of falsehood over the public airwaves. Of late, this has been demonstrated to be the practice of the Cable News Network, ostensibly to boost their failing organization. In the interest of the public welfare which they are supposed to serve, we hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

When I think of the word, Press, I think of blue collar workers out on the streets seeking the truth. The integrity, the professionalism and unspoken oath were forefront at each reporters perspective when reporting the FACTS of a story.

Today, we have paparazzi and marketing majors running what we call the 'news'. Shame on this country, shame on the FCC for not following due diligence, and shame on these perpetrators of 'truth'.

CNN is only one of the most disgusting examples we have pushing papers for money. But, to drag the name of the United States of America through the mud for the bottom dollar and fake news and big ratings is no longer acceptable. The creation of this Russia scandal turns my stomach. I fought for this country and I'll be damned if I am going to let her good name be sullied by the likes of paparazzi organizations like this one.

It is time for you, The FCC, to start engaging in the discussion of ethics and no better time to do it than NOW with CNN.

Thank you.

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. ## **Description**

Dear Mr. Chairman,

As a member of the viewing TV and internet audience, I am formally registering a complaint with the Federal Communications Commission and am asking the FCC to seriously consider revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN (as well as other news media such as NBC) do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

I and many others like me are tired of all the negative personal views that are being pushed as news by much of the media these days against the Trump administration, forcing the Trump administration to waste time on the non-issues rather than addressing and correcting major governmental problems within America.

All the news medias must be held accountable for their fake, false, and biased news reporting that is fomenting unrest and distrust in our duly elected national officials. IT HAS GOT TO STOP!!!

---

## **Description**

Dear Mr. Chairman,

As an American seniors, I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to holding CNN responsible for broadcast knowingly false information.

While i understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. This must be handled as an example to other broadcaster; knowingly publishing false information will not be tolerated and penalties will be administered to keep the public air ways free of malicious abuse.

Thank you for your consideration, Garen

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As a member of an organization representing more than 1.2 million American seniors, I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

In addition a recent Harvard study found that from Jan. 20 to the end of April, 93 percent of CNN's coverage of President Trump was negative. That could not happen by accident, and is proof of an aggressive, top-down bias at CNN. CNN has jumped the shark. They're completely biased and they have an agenda, to take down the president.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thank you.

## **Description**

I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

Recent events surrounding the constant and biased drumbeat on CNN about Trump, his administration and Russia, I believe, falls under the purview of the FCC to impose penalties for a network that is knowingly broadcasting false and, thus, fake news and information. Please review CNN's broadcasting license in the context of their distorted and obsessive focus on broadcasting false information, their recent forced retractions of stories, their apparent corruption of some of their good journalists and subsequent firings of them and others in CNN's employ and the recent sting operation which revealed comments by a CNN executive producer that traced its fake news agenda to orders from CNN's top executive. Please take the appropriate steps to reign in and stop the FCC violations by CNN. Thank you for your prompt attention in the matter.

## **Description**

Dear Mr. Chairman,

I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast or at least penalties given.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings.

As you know, broadcasters are public trustees and they have a responsibility not to distort the news. To my way of thinking, distorting the news is a form of indecency. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves as well as on the internet, then to begin an investigation into whether CNN is abusing the public trust and issue penalties. Thank you for your time.

**Date:** 6/30/2017 11:47:19 AM

**City/State/Zip:** Genoa, Nevada 89411

---

## **Description**

People need to be able to trust our sources of news, especially our primary news sources such as CNN. I read the examples of untrustworthy news disseminated by by CNN from an article published by AMAC, and am very concerned about how CNN is allowed to willfully put this type information out without repercussions of any kind.

Examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

I urge you to take some action that would help prevent this type of behavior in the future. Maybe opening up an issue category like Fake News, or False News, etc.

CNN admitting to falsifying news about collusion between President Trump and Russia. This is outrageous and a betrayal of public trust. There are many low information people out there who watch TV news and believe everything they hear. This fake news has to stop. I hardly ever watch it anymore. Where are we supposed to get the truth? It's a good thing Donald Trump DOES tweet because it's the only way we know what he really says/does. CNN should be held responsible for their lies and distortions in the severest way.

**Description**

We wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thank You,

(b) (6)

## **Description**

The actions of the CNN network regarding their fake story about Pres. Trump and Russian interference in the 2016 election are beyond editorial license. This kind of reporting has caused this Nation great harm on the international level, not to mention the extreme undermining of the Office of the President. Penalties must be exacted against CNN and all other News Networks that participate in 'Fake News' . All those individuals involved must be held accountable for their actions.

Sincerely'

Dear CNN,

I have been so disappointed, for many months. Since the election, I have tried to watch you but it is all Trump bashing. I've had to turn to other news sources to get the "whole" story of what is going on in politics. Now we have this fake Russian news story! How can we trust you again!!!! The only way is for CNN to start reporting UNBIASED REAL news! Can we focus on the Good too!!!! Tell the truth and tell it ALL so we can get back to watching you and America can start trusting news stations again. Right now we don't trust any of you and CNN least of all! Thank you,

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an American and a senior who received news in a few formats while growing up and still today I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand the FCC cannot (and should not) interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

CNN can be tuned into at just about every international hotel and American home. It is a shame Americans and people around the world are bombarded with fake news that is knowingly broadcasts lies in a news format while the FCC turns a blind eye to this issue. Broadcasters have a responsibility not to distort the news and should be a trusted source to keep Americans informed. I don't care if a broadcaster pitches biased or unbalanced commentary as long as it is truthful, accurate and not taken out of context. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

Please move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thank you,

(b) (6)

## **Description**

Dear Mr. Chairman,

I am registering a complaint with the Federal Communications Commission and am asking that serious consideration be given to revoking CNN's license to broadcast. They are despicable and a serious threat to journalistic integrity.

I understand that the FCC cannot interfere with news and commentary, however, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Broadcasters are public trustees and they have a responsibility not to distort the news. They should be held to a high standard. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Very sincerely,

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

The 2016 presidential election and the fake news surrounding the new administration that has been promoted by the mainstream media has been detrimental to the governance and people of America. The left leaning media who is the voice to the people is colluding with various groups and members of congress to take down a duly elected president. These attempts, on a daily basis, has had the effect of pushing Congress, House and Senate, the FBI and now a Special Prosecutor to investigate the sitting President, his administration and family.

I understand that America is about free speech and the left and right should be able to say what they feel. But when one side abuses this right, it needs to stop, hate speech, violence and shutting down opposing opinions or a speakers right to speak is not what our Founding Fathers had in mind with the Bill of Rights. Times are changing and one sides views appear to want to take control of how our country operates, by using the racist adjective and political correctness. The media is the biggest promoter of this agenda. Since our Constitution established how America is to work, by elections, representatives, for We the People of this country, we are seeing things in a different light. The left because of the agendas they have been pushing have lost in elections, congressmen and women, Senators and Governors. Money groups and individuals like George Soros want to promote a Global entity for controlling the the economies of the world. Because of our Constitution and Electoral College America has decided that is not where we want to go. But the FCC needs to understand that from a psychlogical standpoint the Media is being used or is complicit in attempts to change the minds of the American people. When you tell people something over and over again, I think after 17 times, a person will believe. Is acceptable if what they are being told is the truth. But in today's reality the media, with CNN, as a primary has chosen to promote an agenda that is only out there for rating purposes. Today our country is in trouble because we have a very small minority of people who are dissatisfied with our American values and way of life and they are using the media and whatever means possible to disrupt this great country.

CNN fired three people because of a threatened \$100,000,000 lawsuit for fake news report and defamation of character. The complainant dropped the case accepted CNN for letting go the reporters. It's a fact that CNN is creating news for rating purposes, the evidence is there, Project Veritable. The FCC should fine CNN a minimum of \$25,000,000 for this action. The media needs to get back to fact reporting. Each time a media leak comes out our government is asked to investigate. These investigations are costing the American taxpayer millions of dollars. The waste needs to stop. An FCC fine would help.

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## Description

Dear Mr. Chairman:

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

CNN has been reporting fake news for months now. It is not only fake but a full fledged lie. The sponsors have been sold a bad bill of goods and they should received full refunds for the money they spent for the last 8 to 14 months that this has been going on. CNN should loose their operating license for at least a year if not more for falsely operating a News Network. I selected Interference below because that is exactly what CNN did. MSNBC , NBC, CBS and ABC should also be investigated. The American people are being ripped off and so are the sponsors of these programs. This false information is very damaging to the integrity of the United States of America. The FCC can not allow this to go unnoticed. We need justice in this matter. News Network owners need to be held accountable. We need to restore Respect to the Presidency and this Nation! Thank You for your time and consideration. (b) (6)

As it would be well understood, a biased slanting of current events "goes against the grain" of responsible and ethical journalism. To however create and report FALSE current events only "doubles down" on the presently unethical practices.

Such practices ABUSE the privilege of "power" granted the press in the 1st amendment. Because, with that power granted the press comes the RESPONSIBILITY to report fairly and accurately.

The obvious intent of this malpractice is to invoke those granted powers to cause harm to the political discourse and to bury the truth.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

As a concerned citizen, I'm appalled at what CNN has been doing, which is all politically motivated, and totally disgusting! This is supposed to be a new channel - not a political diatribe!!!

### **Description**

CNN has knowingly broadcast false stories for a long time, but have actually been caught several times as of late! Whether their purpose is to boost ratings or to try to destroy the president, it is a betrayal of the public trust and a huge violation of CNN's responsibilities. Therefore, CNN should pay some large penalty plus an agreement that if it happens again, they lose their license.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

[File Your Complaint Against CNN for Bogus Russia Narrative](#)

Dear Valued AMAC Member,

Today we filed a formal complaint with the Federal Communications Commission (FCC) on behalf of our organization's 1.2 million members. We took this action in response to revelations that CNN contributor Van Jones described his network's Trump-Russia collusion story as a "nothing burger" while CNN supervising producer John Bonifield admitted it was "bulls\*\*\*." And this is days following the resignation of three CNN reporters who admitted to publishing a false story.

According to FCC regulations, the agency "may issue penalties for knowingly broadcasting false information." "As public trustees," the FCC specifies, "broadcasters may not intentionally distort the

news. The FCC has stated publicly that 'rigging or slanting the news is a most heinous act against the public interest.'"

I call on you with the preservation of truth and civil, democratic disclosure to join me and the rest of the Association of Mature American Citizens by filing your own complaint to the FCC.

Please feel free to use my letter below as an example for your complaint.

Regards,

Dan Weber, AMAC President

Violating the public trust by broadcasting bias and slanted opinion as news is truly indecent. We do not care from which side of the political spectrum it emanates. Knowingly promoting lies as fact is indecency. You may want to update your list of TV Issues.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

As a citizen and member of The Association of Mature American Citizens I wish to file a complaint against CNN Broadcasting for a recent story that was aired linking Trump associates with the Russians that was determined to be fictitious. CNN representatives were later caught on camera talking about their misleading news reporting. CNN Broadcasting deserves some sort of disciplinary action or possible suspension of broadcasting for this violation and others like it.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast. Their constant false stories/headlines to insight distrust in our duly elected president is very disturbing. The idea of throwing out a story that can't be verified, only to have planted the seed of doubt in the reader, then not to retract is appalling. They have tried to poison the minds of people with innuendo and this must to stop, it's propaganda!

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

I am very disappointed in fake news especially CNN admittance to doing it for higher rating and personal vendettas. I am 64 years old and I was brought in the time you could trust your news sources. A reporter was someone with intergety you could trust. If they rarely got something wrong it was quickly retracted. I heard a old trusted tv reporter on a show one day say they had to have 3 very reliable unrelated sources before they could report something. He said none of the unnamed one source stuff was allowed. This is so regular with CNN they need to be held accountable because they knew it was fake on numerous occasions because they made it up for a personal or political vendetta or higher ratings. This needs to stop and if necessary take their license and others if they are knowing lying and making up news for any reason.

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As one of more than 1.2 million American seniors represented by AMAC, I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

## **Description**

Dear Mr. Chairman,

I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast. Failing that, the FCC needs to impose sanctions against this irresponsible news agency which has egregiously betrayed public trust.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees who have been given the responsibility to report the news, not distort it, or, even worse, make it up. The public interest in unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration in order to increase their ratings.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. It is time to return decency and sanity to the public forum.

Sincerely,

(b) (6)

### **Description**

Dear Sirs: It is hard enough in today's world to get accurate and unbiased news from most outlets. As a citizen, I ask that you would penalize, fine, etc. the owners, producers and employees of CNN for deliberately lying and "concocting" false news reports, to be presented to the American public as factual reports. We teach our children to behave responsibly and to be honest and then have to watch or hear of openly blatant lying by "adults" on a daily basis! Please take action against these unscrupulous persons and maybe it will sink in that this behavior is not tolerated!! Revoking their broadcast license would be an outstanding lesson for future dishonest reporting outlets. Thank you.

**City/State/Zip:** Ludington, Michigan 49431

---

## **Description**

I find it unbelievable that CNN can get away with the dishonest reporting that is currently going on at that network. I hope that you investigate them and help them to understand that they are not to be a propaganda machine, but instead a news organization.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN has violated it's duty as a media trustee to report the truth, the whole truth, and nothing but the truth. By admitting that three reports fabricated the Russia/Trump conspiracy, it manipulated the truth and misinformed the country. This type activity could be corrected if the FCC dutifully executed it's responsibility to monitor all public media. This agency has become a major contributor to the "fake news" being perpetrated upon the citizens of the United States of America.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN is producing false news about pretty much everything and anything about President Trump. The management and correspondents are poisoning the news due to their political bias. I've always expected unbiased reporting from the media and CNN is guilty of gross negligence of abusing the public trust. These actions should not be allowed in a country of free speech. While we may have the freedom to express our opinions in our great country, public entities must be held accountable to honesty.

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman, I agree with AMAC about the FAKE News BS.

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

There is absolutely no excuse for deliberate false and slanderous reporting of any kind but especially against the government and the highest office in the land. Had this been a single incident, I might have some leniency, but this type of action has become constant with this network. Obviously the owners and management of this network do not like the outcome of the last election and have a particular venom-spewing hatred for our new President. This is particularly noticeable in light of the fact that, in CNN's eyes, the former President should have had "Saint" or "King of the earth" status bestowed on him...

I urge you to take immediate punitive action against the CNN network.

Thank you for your time.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

**Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

## **Description**

Dear Mr. Chairman,

As part of an organization representing more than 1.2 million Americans, I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources; CNN repeatedly reported the existence of a dossier of then-candidate Trump, even after it had been debunked;

One of CNN's leading on-air personalities, Van Jones, was clearly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration. While I am not a big fan of President Trump, he is our elected president and deserves to deal with a fair and honest news network, not a pack of lying wolves. We need him to focus on making our country better for our children and grandchildren, and spend less time defending himself from fabricated hit pieces that I would expect to see in a check out line at the grocery store, but certainly NOT from a major news outlet.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. It is clear to me, and frankly the majority of Americans, that the vast majority of CNN's staff are liberal hacks willing to lie and obscure facts to push their own personal agenda. This is damaging the fabric and unity of our country and simply **MUST END**.

### **Description**

I think news media that is reporting what ever it takes to just get ratings should be banned from reporting news. News is suppose to be something that has actually happened. If they are going to report fiction, they should be in a different line of work. Just get rid of CNN, that would help solve the problem.

## **Description**

Dear Mr. Chairman,

First and foremost, I'm sick and tired of all the attacks being launched against the Trump administration; I'd rather see elected officials do the job they were elected to do and not waste my tax money chasing scandals and attacking other elected officials. One of the biggest problems seems to be the constant barrage of negativity from the media directed at our duly elected President and his administration; even his family. Enough!

I'm completely on board with the following and want this message to be heard loud and clear:

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

Very simply, I wish to register a complaint with the FCC and to ask that the FCC revoke CNN's license to broadcast.

As I understand it, the FCC has the power to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully :

1. Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
2. CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
3. One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger";

Broadcasters are public trustees and they have a responsibility not to distort the news. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

Rick Esterly

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Mr. Chairman,

You and the FCC, I know, do not want to interfere with the news and how it is broadcast, but I believe that you do have the power to have them verify their material BEFORE they put it on the air. In the case of CNN recently, where they had to fire three people for not doing that and just starting rumors about the president and others around him makes me sick. At one time years ago CNN was the station to watch for news, now I wouldn't give you 2 cents for anyone there or their broadcasts.

As you are aware, newscasters are supposed to give unbiased reporting and just give the facts from both sides of the story. It seems that most of them forget that fact anymore. I believe that the FCC needs to remind them of their job and principals that they are supposed to uphold. Although CNN is the culprit this time, they are not the only one acting this way. It's getting to the point that we might as well start watching "state sponsored" tv because they only give you one side of the story. If you believe theirs is the only one that matters, then you're in the right place, but if you have a mind and believe there is another side to the story, and then find out there really is, your SOL.

Please do something to make these people understand that they need to give us the truth, just not the truth as they see it through their eyes.

Thanks

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Urging your attention,

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Please investigate what is going on with CNN. I'm getting tired of hearing the same thing each day, broadcasting news that has unknown sources which I believe is misleading the public. They are obstructing the president and his agenda. It time to fine them or shut down their station.

Thank you.

**Description**

Dear Mr. Chairman:

I am a private citizen who watches primarily news. I want to register a complaint with the Federal Communications Commission and to ask that very serious consideration be given to revoking CNN's license to broadcast.

I understand that the FCC has the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked repeatedly;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

CNN Producer Jon Bonifield, on camera, calls the Russia collusion story mostly bullshit, but that because of ratings, Zucker wants to continue the story in lieu of other news.

Broadcasters are public trustees, and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

The history of our country has been a free press. A free press has a critically important and essential responsibility to the citizens of American which arose as an issue for Americans to be able to trust they are receiving fair, balanced and unbiased news. Broadcasters by the very nature of their role, have a deep responsibility not to lie or twist news, to be fair, and to tell the entire story.

This trust has been broken by CNN executives, who were captured on camera admitted they intentionally falsify the news to discredit our United States President, Donald Trump, including his administration.

I ask that you immediately embark upon an open and exhaustive investigation into CNN's conduct in knowingly and intentionally broadcasting misleading and fake news on America's airwaves to American citizens, and if found guilty, to act with the powers and responsibilities congress has bestowed upon you to protect the public, to terminate and rescind CNN's license.

Respectfully

---

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

CNN has been a reliable source of information for many years, however they have recently started reporting information that turns out to be incorrect. Recently one of their top reporters stated that unsubstantiated stories were reported to increase ratings. At least one of those recent stories had no data to support it and had to be retracted quietly later.

I realize the FCC cannot interfere with news and commentary, however it can "issue penalties for knowingly broadcasting false information." Recently Mr. Zucker and the CNN executives have been doing exactly that. Examples include;

- \*Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to have no sources, which means it was made up.

- \*CNN reported there was a candidate Trump dossier that turned out to be false.

- \*Van Jones, a CNN on-air personality appears to have said that CNNs coverage of Russia was motivated by ratings and had no substance, referring to it as "nothing burger."

- \*Jeff Zuckerberg, CNNs president, is know to have a long standing relationship with President Trump that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Broadcasters such as CNN are public trustees and they have the responsibility not to distort the news. Currently they are about as reliable as The Inquirer magazine. The public interest in fair, balanced and unbiased news must count for something. CNN executives have admitted on camera that they intentionally falsify the news for ratings and to attack President Donald Trump and his administration.

I am a member of AMAC, and I along with many other members hope that you will act quickly, if not to revoke CNNs license to knowingly broadcast fake news on America's airwaves, to begin an investigation into whether CNN is abusing the public trust.

Thank you for your consideration in this matter.

## **Description**

To formally register a complaint with the Federal Communications Commission and ask that serious consideration be given to revoking CNN's license to broadcast.

Knowing that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." (reference: Recent coverage revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. Some examples: Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources; CNN reported the existence of a dossier of then-candidate Trump, which has been debunked; One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings; CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Broadcasters are public trustees and they have a responsibility not to distort the news. The public interest needs fair, balanced and unbiased news and this must stand for something. Since CNN executives have admitted on camera that they intentionally falsify news to attack President Donald Trump and his administration, we the people (and those who represent us, FCC) must not tolerate such bold and untruthful acts from the media when presenting information through news to the public!

CNN's license to broadcast its fake news on America's airwaves must not become the journalistic norm in America!! Truth must prevail, so I am asking the FCC to begin an investigation into whether CNN is abusing the public trust. Thank you.

### **Description**

I no longer watch CNN because they are so intent on destroying the Presidency of President Trump, they are no longer an objective news organization. They are constantly reporting Fake News or anything they can report negatively on the President which the American people don't care about. They do not report on the great things the President is accomplishing or on serious things that are happening in our country and the world.

## **Description**

Mr. Chairman,

I am formally registering a complaint with the FCC to ask that consideration be given to revoking CNN's license to broadcast.

as I read it the FCC cannot interfere with commentary, it does have the power to serve up penalties for "knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Broadcasters are public trustees and they have a responsibility not to distort, worse consciously and KNOWINGLY distort, the news. The public interest REQUIRES fair, balanced, and unbiased news that public interest must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thank you

PS you need to BROADEN the TV ISSUES multiple choice box below it's an idiotic list (smacks of \$\$\$ Obamacare web site development) for general complaints that fit NONE of the categories - so I just picked one - you can ignore everything below

## **Description**

Dear Mr. Chairman,

I am one single voice, but every voice in this country is important, I'm emailing to formally register a complaint with the Federal Communications Commission regarding CNN. I believe a serious investigation needs to be conducted to determine if CNN has violated FCC rules and therefore needs to have its broadcasting license revoked.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

1. Three CNN employees were fired over a story linking President Trump's associates to Russia, a story that blatantly lacked any -- let alone credible -- sources;
2. CNN repeatedly reported the existence of a dossier of then-candidate Trump, again based on "unnamed sources," with said dossier being completely debunked; and
3. One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by nothing other than ratings.

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees who have a responsibility not to distort the news. The public interest in fair, balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

The Fourth Estate, instead of conducting itself in the watchdog role it's supposed to undertake, has become active participants in opposition to our duly elected President.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on American airwaves, then to begin an investigation into whether CNN abused the public trust.

## **Description**

Dear Mr. Chairman,

As an American senior, I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

News networks have a responsibility to report fairly because they have such a large audience and can unfairly lean a great number of people's thinking one way or another and everyone believes what they are told because everyone assumes the news is telling the truth (which is no longer true).

I believe this behavior is also responsible for a lot of the violence we have seen recently. This brainwashing of the masses to satisfy the network's own political agenda just has to stop!

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

I am sick of CNN's commentators' obvious, constant, & open hatred for President Trump & their created false narratives to promote their hatred of him. ENOUGH! It is lying! It is propaganda!

CNN clearly directed, based on live camera feed, with protesters to stage a fake "pro Muslim" protest in London. I saw it with my own two eyes!

CNN allowed a fake story from a supposed anonymous tipster falsely connecting Anthony Scaramucci to a Russian investment fund managed by a Kremlin-controlled bank.

CNN commenters & their ad nauseam repetition of Russian meddling in our elections, despite that both Democrats & Republicans have repeatedly said there was no evidence of any meddling affecting the outcome of the Presidential Election.

The thing most closest to the truth about Russia is CNN's love affair with propaganda. CNN is not a news organization, but an organization to promote hatred & lies against Trump. Before & after any hard news shows, there should be at least disclaimers stating "NOTICE TO VIEWERS: Not all CNN's comments & statements are based on evidence, or fact. In fact, CNN may outright lie. Caution Viewer!".

## **Description**

In agreeing with AMAC's email, & watching Fox News, including Hannity's night time commentary, and reading President Trump's tweets & Facebook posts on CNN's latest fake news & derogatory reporting of Donald Trump's unfounded & unproven "Russia collusion" stories, alongwith CNN's producer admitting to falsifying news stories, it has come to the conclusion that CNN is no longer a reliable source of any news reports whatsoever & cannot be trusted in giving such news reports as being "credible" in their devious eyes. Their only objective is to take out this President just because their misguided choice lost the 2016 election for President of the United States of America. When a news agency is supposedly having professional reporters reporting real news stories, viewers expect that report to be true, to their word. But when they vehemently & continuously conjure up made up reports without credible backup & sources, they are misleading any viewers watching them who then post up or tell others the wrongful information they received from a supposedly, credible & professional news organization (CNN) & then the viewer gets embarrassed by the real source as the story becomes a lie. As the saying goes, "Lie to me once, shame on you, lie to me twice, shame on me." Trust comes with telling the truth, lying destroys that trust. CNN lied continuously about President Trump's Russia collusion, therefore, they lost all kinds of trusts from viewers, and I wouldn't ever trust them if I was paid to do so. I would knowingly feel the guilt of a lie in pretending its the truth. How they go through their day knowing they reported a lie, pretending its the truth, is beyond my understanding. They should pay up the restitution for deceiving the public trust, and I think they should be shut down until such time to come up with real, credible news or publicly apologize to all viewers on public television that they purposefully reported and falsified their news stories about President Trump and anything else that was falsely reported, i.e. Sean Hannity being in "collusion with a Russian via through someone he knew personally, which was also unfounded & untrue. Commercial ads should pull out of advertising on CNN as well, run CNN into the ground so that they lose millions of dollars to keep themselves afloat. Thereby, another news agency of more credibility can move on into CNN's spot on that network. It all comes down to money and common sense. Let that be a lesson for other non-credible news sources.

## **Description**

Dear Mr. Chairman,

CNN has in the recent past generated numerous false statements during their broadcasts. Mr. Zucker and other executives at CNN have created a culture of mistrust and misstatements at CNN. This once creditable news organization has become the conveyor of lies, slander, and falsehoods as it relates to the character and performance of our President. Fake news should not be broadcast as factual news especially when their generators (CNN reporters) know what they are putting on the air is not factual. I hope you will consider the revoking the license of CNN and return the airways to factual news.

Thank you in advance for your consideration in this matter.

## **Description**

CNN as a News / Commentary organization has a responsibility to simply report legit / valid / verifiable events, issues and stop this never ceasing barrage of "FAKE NEWS". The American people are NOT stupid and CNN insult us by throwing this useless garbage at us and think we cannot see how desperate for rating they have become. Guess what? IT'S NOT WORKING!!! I will not watch the taxpayer-funded broadcast because CNN has no credibility as "fair and unbiased". I do not have time or energy to waist listening to vicious Liars spew destructive "Propaganda" for ratings and more obvious motive, the vendetta against the President of the United States, Donald Trump. The CNN news personalities with the support of CNN executives admitted to intentionally, willfully, falsifying (LIARS) the news to slander and attack President Trump and his administration. This loss of Public Trust is a Outrageous Abuse of power. The only solution is to "issue penalties for knowingly broadcasting FALSE information" is to revoke CNN's license, immediately! They have proved they DO NOT deserve the privilege to broadcast the news. Praying that someone with FCC is paying attention to the cries of the American people in complaint of these disgusting practices by CNN. This is your opportunity to do the "right thing".

## **Description**

I understand that the FCC cannot interfere with news and commentary, but it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Greetings Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you well know, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

Walter Cronkite was politically liberal. However, he was a true journalist. He always gave a true & accurate account of current events - And I understand he wrote his own copy. What has happened to accountability? We need to hold not only the talking head on camera accountable, the editor and the one who writes the copy into the prompter are also implicit.

We hope you will move quickly, if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

CNN has been and continues to broadcast false news stories about President Trump and others in his administration. It is well past time for this to stop and the perpetrators and their enablers to receive punishment. As the regulator of television and radio broadcasters, I respectfully request that you take any and all actions deemed by your commission to end this type of attack on our duly elected President and his appointees. The dissemination of this type of false accusations not only undermines our government, but also can cause things like the baseball practice shooting of Steve Scalise. These stories can and do have dire consequences. Please put a stop to this as soon as possible.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Project Veritas' newest video from the American Pravda: CNN series exposes Jimmy Carr, the Associate Producer for CNN's New Day attacking President Donald Trump and admitting that CNN has a left-leaning bias.

When asked by an undercover journalist if CNN is impartial, Carr plainly responded, "In theory. "

He then continued to talk about CNN's views on President Trump:

"On the inside, we all recognize he is a clown that he is hilariously unqualified for this. He's really bad at this and that he does not have America's best interests. We recognize he's just fucking crazy."

He continues to attack Trump personally, instead of focusing on his policy:

"He's not actually a Republican. He just adopted that because that was the party he thought he could win in. He doesn't believe anything that these people believe. The man is on his third wife. I

guarantee you he's paid for abortions. He doesn't give a shit about abortion. He doesn't care about gay marriage."

He also attacked Kellyanne Conway, stating that she "looks like she got hit with a shovel."

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

**Description**

Dear Mr. Chairman,

As a consumer I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast. Actually this is NOT limited to CNN, they all run their mouth with very few facts!

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration. For this kind of behavior I think they should receive more than just a fine!!

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

You need to add in the TV ISSUES a NO TV ISSUES and I am filing a STATION COMPLAINT  
!!!!!!!

## **Description**

CNN has knowingly broadcast information that they knew was false. They have worked to harm the conduct of government business and have personally attacked our President.

A news station is to report news; they are not authorized to issue fake news and distort the news. Our Country can continue to be the wonderful country that it is only when we have truly free speech but without the distortions and untruths that are so prevalent in the CNN broadcasts. This fake/distorted news should not be allowed the same as someone shouting "fire" in a building. Please sanction and fine CNN to put an end to this nonsense.

## **Description**

Recently CNN has degraded into a fake news organization that we just can't trust to present the truth about the issues it purports to be reporting on. Not only is a considerable amount of their data blatantly false, but the language used by reporters and news anchors is often abusive, derogatory and just plain mean. CNN is pulling our nation down from the high level of media coverage that used to exist. What is especially sad is that young people, who know nothing else, think this is normal. CNN deserves a severe reprimand.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear FCC, I am writing to formally register a complaint and to ask that serious consideration be given to revoking CNN's license to broadcast. I understand that while your organization cannot interfere with news and commentary, it does have the power to "issue penalties for knowingly broadcasting false information." As recent television coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were recently fired over a story that linked some of President Trump's associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with President Trump that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

United States citizens expect that broadcasters are public trustees and that they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. I sincerely hope that you will do the right thing and soon.

**Description**

I feel CNN needs to give a public apology to the American people regarding their false news on President Donald Trump and Russia.

They should have to broadcast on ALL channels on primetime in each time zone for one full week.

Example: 6pm in each time zone on all news stations

In my opinion, a fine no matter how large to the government is not punishment.

Fake news MUST BE STOPPED

---

**Description**

I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

The FCC has the power to issue penalties for knowingly broadcasting false information. CNN intentionally does this. For example:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been proven without merit or truth;
- CNN/Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Broadcasters are public trustees who have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

**Company Complaining About:** Cnn

---

## **Description**

We hereby formally register a complaint with the Federal Communication Commission and do ask that serious consideration be given to revoking CNN's license to broadcast. The FCC has the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. There are four recent factual examples and evidence to substantiate CNN's crimes which merit the above requested punishment/consequences.

Broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count a great deal in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack United States President, Donald Trump and his administration.

We hope you will move quickly to revoke CNN's license to broadcast its fake news on America's airwaves. CNN has grossly betrayed the public trust and politicized their broadcasting which may rise even to the level of impacting election results.

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

How much longer will you allow so called 'news' like CNN to continue spewing lies?

I personally was slandered by Jeffery Tobin after my appearance on Anderson Cooper. I presented a request for apology before taking Legal action. And of course, Mr. Tobin gives a small apology for calling me a Racist. But the damage is done. Apologies like that are similar to the newspaper mistakes on Headlines, and the correction is on page 3 in small type 2 weeks later. Not good enough!! But just enough to prevent Legal action.

I have seen Tobin continue to slander many people that do not align with his opinions....and later to apologize when I am sure he is threatened with Legal action. Again, how can you allow lies, slander and hate that is generated by this biased and agenda driven station to continue?

With AMAC, an organization representing more than 1.2 million American seniors, I wish to add to their voice. We wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast. While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Make the station be accountable!!

Respectfully,

(b) (6)

Physician

## **Description**

Dear Mr. Chairman,

I am close to LIVID with CNN's fake news.

I respectfully request the Federal Communications Commission REVOKE CNN's license to broadcast.

As I understand it, the FCC has the power, according to its charter, to "issue penalties for knowingly broadcasting false information."

As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I ask you to revoke CNN's license to broadcast its fake news on America's airwaves, and to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

What can you do to stop the bogus CNN stories regarding Russia. We the consumers are so sick of the media manipulation.

I understand that the FCC cannot interfere with news and commentary, you do have the power to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and by design. Examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings.

Broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

Please move quickly to revoke CNN's license to broadcast its fake news on America's airwaves, or to begin an investigation into whether CNN is abusing the public trust.

Thank you for your time.

## **Description**

I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

At a minimum they should have a disclaimer that it's not factual. Just like the ads on TV that say they are a paid Actor or portrayed by an Actor. This type of fake news is scaring a lot of people that are in their 80's & 90's!!! Something needs to be done!!!

Thank you for your time!

### **Description**

It is my understanding that the FCC has the power to penalize broadcasters who intentionally air stories they know to be false. CNN is the largest of the many "news" organizations that are guilty of this practice and a message should be sent that these violations will not be tolerated. CNN has no credibility and bringing ELMO onboard as a commentator makes the company even more of a laughing stock. If the FCC takes no action against these propagandists then perhaps the FCC needs to be overhauled as well.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

CNN is not a neutral network. CNN reports Fake News Stories in order to promote their political agenda. CNN omits reporting genuine news coming from the White House. CNN overwhelming reports negatively slanted news on President Trump versus positive, under the guise of being objective. By the above actions CNN has eroded the public trust in their network reporting. CNN should be reprimanded/fined and put on probation. The people responsible for creating this deceptive environment should be fired. If CNN continues to report in the above manner the FCC should pull their license.

## **Description**

Dear Mr. Chairman,

I wish to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully, as can be seen in the Russia "theory" that CNN relentlessly pursues.

Public trustees have a responsibility not to distort the news. The public interest in fair, balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thanks for your consideration.

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

---

**Description**

CNN has been caught blatantly lying to the public which is intentionally being done to harm the President of the U.S. along with many others who support the President.

Since this is a gross abuse of public trust, I request that their license be revoked. Your agency may issue penalties for knowingly broadcasting false information and the FCC has publicly stated that "broadcasters may not intentionally distort the news and that rigging or slanting the news is a most heinous act against the public interest."

Something must be done to stop this abuse.

Sincerely,

(b) (6)

## **Description**

According to FCC regulations, the agency "may issue penalties for knowingly broadcasting false information." "As public trustees," the FCC specifies, "broadcasters may not intentionally distort the news. The FCC has stated publicly that 'rigging or slanting the news is a most heinous act against the public interest.'"

I call on you with the preservation of truth and civil, democratic disclosure to join me and the rest of the Association of Mature American Citizens by filing your own complaint to the FCC.

Please feel free to use my letter below as an example for your complaint.

Regards,

Dan Weber, AMAC President

Sample Letter:

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

## **Description**

As a member of AMAC that represents more than 1.2 million American seniors, I wanted to formally register a complaint with the Federal Communications Commission and to ask that genuine consideration be given to revoking CNN's license to broadcast.

I understand that the FCC has the power, according to its charter, to "issue penalties for knowingly broadcasting false information." Recent coverage has revealed, Mr. Zucker and the executives at CNN do this willfully and repeatedly. Here are some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking of any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

Broadcasters are supposed to be public trustees and have a responsibility not to distort the news. CNN does not present fair and balanced and unbiased news to the public. It has been shown that CNN has presented news stories of which over 90 percent were biased against President Trump. They major on the negative instead of presenting fair and impartial reporting of the day's news.

I am asking you to move quickly to revoke CNN's license to broadcast its fake news on America's airwaves, and if not that, to begin an investigation into whether CNN is abusing the public trust.

## **Description**

I understand that the FCC cannot interfere with news and commentary. I also understand that the FCC has the power to "issue penalties for knowingly broadcasting false information."

I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

CNN has been knowingly broadcasting false information. As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To wit:

- There were three CNN employees fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- Van Jones, one of CNN's leading on-air personalities, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

In my opinion, broadcasters are public trustees and they have a responsibility to not distort the news. The public interest in fair and balanced and unbiased news demands accountability for CNN's blatant violation of broadcasting regulations in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I ask you to move quickly and revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust

## **Description**

I expect to see and hear factual information when I watch a news broadcast in this country. What I am seeing and hearing is what these networks WANT me to believe so that they can undermine and distort the efforts of a president that they don't like, but who is doing his best to straighten out the mess that former presidents have created, which in fact, does nothing more than line their already hefty wallets with American taxpayers dollars. America WAS a country based on truth and the hard work of its citizens, but NOW is a country based on lies and people sitting on their backsides and taking handout after handout from the people who do work. Americans deserve to know the TRUTH, whether it agrees with or does not agree with what the media wants. If I didn't know better, I'd say America is being brainwashed by the media - but maybe that is exactly what is happening. The media needs to return to their one and only job - report factual information to the American public with no slants or self-imposed feelings about it. And those groups who choose to do otherwise should be dealt with in a manner that is deserving of their liars and misrepresentations. Leave the president alone and let him do the job he was elected to do.

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Jake Tapper of CNN did a segment on his “The Lead” show about Joe Scarborough and Mika Brzezinski’s claim that Donald Trump tried to blackmail them with a hit piece in the National Enquirer. During the piece, it showed a cover from the tabloid, which seemed to be about a scandal involving GOP senator Ted Cruz and his wife, Heidi Cruz. The cover shown is — literally — fake news.

The cover — which has the headline “Heidi Cruz: Betrayed by Cheating Husband!” and promised details on a “sordid threesome, sleazy love letters and sensational photo proof — has never appeared on the National Enquirer, according to sources at the magazine.

It seems that there should be serious guidelines about reporting fake news on network television. This has got to stop.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing public trust.

## **Description**

CNN president Mr. Zucker and CNN executives repeatedly and willfully, knowingly broadcast false information. Examples:

1. Three CNN employees were fired over a story linking Trump associates to Russia that lacked any sources whatsoever;
2. CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
3. Van Jones, a CNN leading on-air personality, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

So, executives of CNN have admitted on camera they intentionally falsify the news to attack President Donald Trump and his administration.

To solve this problem, I ask you to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As a member of an organization representing more than 1.2 million American seniors, I want to formally register a complaint with the Federal Communications Commission and ask that serious consideration be given to revoking CNN's license to broadcast

While I understand that the FCC cannot interfere with the news and commentary, it does have the power, according to its charter, to issue penalties for knowingly broadcasting false information. It has been abundantly clear that CNN, as an organization, has knowingly been broadcasting false information for the past nine months or more. As recent coverage has revealed, MR. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- \* Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- \* CNN reported the existence of a dossier of than-candidate Trump, which has been debunked;
- \* One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- \* CNN's president, Jeff Zucker, is known to have a longstanding relationship with the president that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on American airwaves, then to begin an investigation into whether CNN is abusing the public trust

## **Description**

Journalism used to be a respected career and is protected by our constitution because of its importance to our freedom. However, you are corroding that value to freedom by your "anything goes as long as it furthers our goals" attitude. You should be ashamed of yourselves and of what you are doing to a once honorable career.

What would solve my problem? Fire "reporters" who are found to have knowingly falsified news stories. Put on serious notice, those who have mistakenly reported stories without first carefully checking for accuracy, and if it happens again, fire them. A line must be drawn, and quickly.

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

Recent investigations have brought to light that CNN is knowingly broadcasting fake news/information to its viewers in order to progress their political agenda against the current president. The FCC should not allow such behavior to continue. As a taxpayer, I am dismayed and disappointed that such acts are allowed to continue. Please take appropriate actions to prevent this behavior from continuing.

---

## **Description**

It is not ok that cnn spends 93% of their coverage negatively on the president. It has become clear that cnn, msnbc and nyt among others are inflicting lies and innuendo on the public for ratings. WE DEPEND ON NEWS BEING ACCURATE AND NEUTRAL. Please do something about this! Please!

We cannot "turn them off" when hundreds of other outlets reprint or rebroadcast their lies. It is further aggravated by cnn msnbc nyt editing out the truth. Please.

Cnn deliberately lies for ratings.

I put 7pm as time because this Internet form forces it. But it's frequent daily, many hours, non stop assault political and personal assaults.

there are plenty of viewers, consumers, who have no idea what is going on in this country. When they watch TV, they believe what they hear. They don't challenge it or look further into what caused it or how it happened. Thus, they are the uninformed; and they make poor choices in their life and what could affect the country.

Hold Your Reporters And Sources Accountable; give facts, not their own opinions or ideas based on their agenda. Don't lead the American public astray.

## **Description**

Producers and news readers at CNN have been shown to be lying to American public about Trump Russia controversy. Project Veritas video exposes them as complete lies. It's a disturbing situation where people are forced to watch them lie 24/7 at airports and other public places. Issues affecting most of the Americans are not covered enough. Recently fake news about Scaramucci has been retracted with no apology. It is general impression that they are trying to link President Trump and his team to Russia meddling in election without any credible proof. It appears all this is done in the name of ratings. Such journalism without minimum standards is dangerous to the integrity of the nation. They should be taken off the air and investigated thoroughly before letting them air again.

### **Description**

CNN continues to put it's own agenda first without any regards to accuracy, the truth, or facts. Allowing a so called "news" agency to do this is ridiculous. The Trump/Russian collusion story which has no evidence & was recently forced to be retracted id just another example of CNN doing whatever it wants regardless of facts. There needs to be punitive repercussions for this type of behavior. The news media is supposed to report the truth & be unbiased yet it is evident that CNN has it's own political agenda & will put forth any kind of story that furthers it's own narrative. In addition, their fake news is shaping thought of the American public & it is all based on untruths. They need to be held accountable & punished

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

As a citizen of the USA and having lived through many presidencies, I am appalled at the political coverage from mainstream media, and especially CNN. They have knowingly broadcasted false information in order to further their own views. They have undermined the trust of the viewers and have insulted viewers by lying in order to further their own views. I cite the following examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

In addition, they rarely refer to the President as President Trump, but merely refer to him as "Trump". If you look back over the passed 8 years, they referred to "President Obama" at nearly every turn. They are setting an example of disrespect to that office and that is not fair and balanced reporting. It is meant to influence the public.

As a result of these offenses, I believe that you should revoke their license, or at the very least begin an investigation into CNN's abuse of the public trust.

I respectfully file this complaint with the FCC and hereby encourage you to exercise your chartered duty to combat the broadcasting of demonstrably false information as has been clearly exposed by the Project Vertias videos of various CNN employees. There needs to be a penalty for knowingly reporting fake news and this madness must stop. CNN et al must be punished and respect for POTUS and the rights of the US citizens who duly elected him must be upheld. This attempted coup d'etat against a lawfully elected President must be stopped and righteousness must once again reign in the name of our Lord and Saviour Jesus Christ. God bless.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Why for God Sakes are you letting CNN, MSNBC, and AP news agencies get away with so much false news reporting? If the FCC was compliant enforcing established broadcasting Federal Laws you would of already acted on this.

The truth is right there in front of your face -- CNN, has even admitted at least some of their fake news malfeasance and fired compelled to resign three longtime CNN 'journalism' staffers -- and still you blame President Trump for "inventing the idea of fake news".

Right now many Americans see the FCC has just another agency just sucking tax dollars, and never doing what their actual job requires them to do. Start doing your Dam Job enforcing the Federal Laws you are trusted to enforce? The Lies and False reporting that is broadcasted on CNN, MSNBC, and AP is despicable!

I expect the Federal Communications Commission (FCC) to do have bi-partisan agency to investigate and remove the license for CNN, MSNBC, and AP for there continue violation of FCC regulations against knowingly broadcasting false information (False News).

I do hope you understand the FCC can be sued for not doing your job.

About time the FCC needs to justify it's existence.

### **Description**

CNN personnel are violating FCC rules by knowingly broadcasting false information. It is the FCC's chartered duty to prevent broadcasters from knowingly airing false information, and that's why I am filing a formal complaint with the agency. It happens several times a day, including the false Comey story, the discredited dossier hit job, the retracted collusion story, or any of the other thinly sourced and overhyped collusion stories, all of these problems are similar. The journalists are getting bad information from anonymous sources, not being transparent about what has gone wrong when sourcing fails, and generally being too credulous with anonymous and unverified sources.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

CNN is knowingly. Road casting fake news. My 84 year old father sits and watches the news on CNN as if we're real news. Direct tv Chanel is on Chanel number 202. I ask him to flip around to other news Chanels, but the rest of the news Chanels are at the 300's Chanel's. This is difficult to do at his age, so he continues to watch only CNN 202 and believes everything as real news. Maybe if all the news were lined up together, one could flip around more easily for people of all ages. Also if news were labeled as opinion shows not news shows. My father relies solely on tv for his news. He deserves the chance to form his own opinion and not that of fake news.

## **Description**

Dear Mr. Chairman,

I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I am a full supporter of the First amendment, there are times when a broadcaster steps way past accepted and guaranteed practices and uses it's powers to specifically ruin one individual. I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

It is well documented that CNN has actually staged performers to falsely act as individuals in the act of protesting political action made by Donald Trump to protect this nation to mislead the public.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

### **Description**

I am concerned about the ever present sabotaging of our president by such news organizations as CNN, MSNBC, and a whole host of other "mainstream media." It has gotten so bad that I refuse to watch ANY national news networks. That also goes for online news media, although I'm not sure that is covered by the FCC.

I am already doing what I can to solve this problem by boycotting the sponsors of these organizations, and I believe the FCC should look into this with great concern.

Thank You

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Additionally-CNN recently was forced to pull one of its Russia-Trump conspiracy stories that "did not meet CNN's editorial standards." The discredited story was based on a single anonymous source who connected Anthony Scaramucci, a prominent ally of President Trump, to a Russian investment fund managed by a Kremlin-controlled bank.

Thomas Frank, Eric Lichtblau, and Lex Harris, three of the highly awarded journalists responsible for it, resigned.

**City/State/Zip:** Freedom, Wisconsin 54913

---

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

---

**Description**

Dear Mr. Chairman,

As a citizen, a senior and a retired member of the U.S. Army, I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast because of their knowingly broadcasting false information about the now president Trump's associates involvement with Russian officials.

The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they have and did intentionally falsify the news to attack President Donald Trump and his administration.

I fully understand that the FCC does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information."

I hope that you will move quickly, if not to revoke CNN's license to broadcast its phony or unrealistic/fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust. The FCC has the power under the Fairness Doctrine of 1949 to maintain that newsworthy info be "honest, equitable, and balanced."

I cannot believe that within the past year that your office and staff did not contact CNN and its leadership about what they were broadcasting. There is now evidence showing that CNN was in fact, abusing that part of the Fairness Doctrine and was "doing so in a manner that was — in the Commission's view — honest, equitable, and balanced."

I sincerely hope that the letter of the law, i.e., FCC law/regulations is applied to the fullest and that politics not be involved.

Also, the TV ISSUES should have a broader list to cover properly this type of complaint..

CNN, MSNBC, CBS news, ABC news, Foxnews you know fake news since or before when our president took the Oath of office on Feb 7th. You must have seen it or heard of it them all making stuff up for rating and profit? How about them threatening the president of the united states, calling for a coup of the government to oust a president that has not committed a crime and is our legally elected President of the united states!!!

I think the FCC should be looking into this? I do not think it would be hard to prove, would it? I mean with the videos of CNN producers that project veritas releases and obtaining video of the shows since it should be easy?!

I mean it is not like it was done in private, in the dark like most roach's that want to destroy a nation no these traitors committed their Treason under the bright lights of a TV studio right in front of a camera broadcasting it to the world so you should not have any problems finding evidence then again you are a government agency???

**Date:** 7/2/2017 11:32:45 PM

**City/State/Zip:** Troy, Illinois 62294

---

## **Description**

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN and other broadcasters knowingly perpetuating stories while acknowledging they have no proof or merit to them for the purpose of increased ratings.

STOP this kind of CRAP now while there is still a small shred of credibility left to the news media. Broadcast "news" should be objective and factual without intentional fabrication or spin. Sources should be verified and stories required to have multiple credible sources. Fake News has really taken a toll on the fabric of our country and is helping to further increase the divisions that have become more and more apparent.

I am really unhappy with the current media. This is not a local or cable related complaint, but rather, a more broad issue that requires high level investigation and action.

### **Description**

CNN should not be able to call its self a NEWS ORGANIZATION as it makes up FAKE NEWS to make money. Is is not a Cable News Network. It is a propaganda organization that is only interested in causing upheaval and spreading what it knows to be lies. CNN is fanning the fire of untruths to enrich its bottom line. Its a shame there are not laws to prevent FAKE news stories from being broadcast over and over to make people believe their lies. Because retraction of a story really has no impact on the organization so they do it over and over trying to create WHICH hunt. They re no better then those who whipped up stories to incite violence and even calling for or suggesting then assignation of a sitting president. They are despicable and should be removed from the air waves.

## **Description**

All America is alarmed by the proliferation of omissions of the whole story, lies about top officials, and proven fake news willfully and intentionally broadcast over CNN to not only the American public but the entire globe with international impact - at taxpayer expense.

The FCC in your charter is authorized to penalize those who prove offensive to the historically high standard to broadcast truthfully, without slanting or omitting essential truths, or adulterating the news with deliberate lies. The FCC has ample proof that CNN has repeatedly failed to perform in these regards:

1. CNN's on-air presenter Van Jones was allegedly caught on tape admitting CNN's coverage of Trump-Russia collusion was a "nothing burger".
2. CNN's president, Jeff Zucker, who has long historical animosity against Trump, appears to be exerting his power to air his vendetta against the Trump administration at a time the American public want to see his government succeed.
3. As you know, broadcasters are public trustees responsible not to distort, but broadcast fair, balanced, unbiased, complete truths, which cannot be said of CNN in the past 9 months.
4. America has an ethical crises, exacerbated by government officials disregarding law. As a government agency responsible for accurate news streaming from the supposedly wisest, most honest country in the world, the FCC cannot allow such contempt for truth as promoted by CNN to go unpunished. I'm not an expert, but I believe losing their license will hit CNN where it hurts by depriving them of profiting from fake news and fooling the people of the world by their unconscionable acts.
5. Since CNN just fired 3 CNN reporters found to be leaking the story aired linking Trump associates to Russia, even a fool can recognize an executive effort to offset the natural revoking of license, in a blatant effort to blame the false news on lower individuals, when the full responsibility lies with the malicious intentions of the President of CNN.

I write to alert you that failure to remove CNN's license supports and encourages other broadcasters to publish fake news when it suits their political views. Failure to take severe action against CNN raises doubts as to whether the FCC can carry out its chartered responsibilities. Further, it sets the FCC up as leading the national-wide epidemic of unethical practices attacking our historically law-abiding standards. Move quickly, boldly, in accordance to your charter knowing the American public want to see action now. Perhaps CNN can only learn this lesson by losing the thing they should have protected and loved most - their license to comply with law in order to broadcast.

Very truly yours,

---

## **Description**

Dear Mr. Chairman,

As a member of an organization representing more than 1.2 million American seniors, I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thank you for your attention.

### **Description**

1. CNN pushed the Trump/Russia debunked Dossier as fact
2. CNN pushed the MLK bust being removed from Oval Office when it clearly was not
3. CNN Top editor on Tape saying Trump Russian Collusion is BS but it is ratings maker

CNN should have they broadcast license revoked. They have been irresponsible in their reporting. They had to fire employees for pushing fake news like the Anthony Scaramucci story that had to be retracted. Hiding behind anonymous sources is an excuse. They are not verifying their sources only using them as cover while they push false information across the airwaves.

The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Respectfully,

(b) (6)

---

## **Description**

Dear Mr. Chairman,

I would like to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, I believe it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully to interfere with the operation of our duly elected government.

To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Is it not true that broadcasters are public trustees and they have a responsibility not to distort the news. The public interest to get the truth must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration. This has been going on since before the election and continues to this day, your required fields do not address this ongoing problem so I dated and timed this on the day of the inauguration.

We hope you will move quickly to revoke CNN's license to broadcast its fake news on America's airwaves, because CNN is abusing the public trust.

## **Description**

Dear Mr. Chairman,

I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it can however, according to FCC regulations, the agency "may issue penalties for knowingly broadcasting false information." "As public trustees," the FCC specifies, "broadcasters may not intentionally distort the news. The FCC has stated publicly that 'rigging or slanting the news is a most heinous act against the public interest.'"

Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Broadcasters are public trustees and they have a responsibility NOT to distort the news. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We, the viewers and voters, require that you will move quickly to revoke CNN's license to broadcast its fake news on America's airwaves. CNN is abusing the public trust. They are deliberately and illegally trying to undermine the President of the United States, his administration and most importantly the American people.

## **Description**

If you haven't heard about it already, Trump recently Tweeted a gif featuring himself at a Wrestlemania match from yeas ago. However, in this Trump gif, a Reddit user, who goes by the username of HanAssholeSolo, modified the footage and put the CNN logo over the face of the person Trump (fake) bodyslammed onto the floor.

CNN hunted down the creator on the r/The\_Donald subreddit, threatened to out all of his personal information unless he publicly apologized and deleted not only his account, but all of his messages.

Now the CNN personnel responsible are sweating on Twitter, because Assange pointed out to them that they had violated SS135.60 of the NY code on coercion.

You can't backpedal on other crimes. Why should CNN be allowed to be knee-breakers when they are supposedly, under FCC filings, "news"?

And while we are at it, James O'Keefe of Project Veritas has THREE of CNN's major contributors ON FILM admitting that they have been sticking with the "Muh Russia" story for the last 7 months because it brings them ratings, even when they admit on camera that they have NO EVIDENCE AT ALL that this ever happened. And they go on to point directly at Zucker for their continued coverage.

Not only does this border on treason, they are not even close to being a news organization. They are not even fake news. They are a purely fictional outlet.

How can you continue to allow them to file as a "news network", when they have admitted on film that they are making it all up?

Let them refile as an "entertainment" show. But they are not news, even by their own admissions.

### **Description**

CNN is deliberately publishing false and fake news. They have abandoned journalistic ethics and are damaging the political atmosphere and poisoning the public with an agenda that is rife with personal attacks and short on truth and accuracy in reporting. Our free Republic depends upon an honest media, CNN has consistently been abusing its privilege as a member of the press. Frankly CNN is abusing the privilege of its FCC license and must be sanctioned. I believe this is a very serious matter, and the FCC must punish CNN in order to stem the widespread abuse of the truth in the media. If the FCC declines to take action against CNN, it will demonstrate the FCC is abandoning its duty, that the FCC is feckless and that the FCC condones the media abusing its license obligations.

**Date:** 7/5/2017 1:10:21 AM

**City/State/Zip:** Boca Raton, Florida 33433

---

## **Description**

I guess it's ok for a national news agency to Blackmail a private citizen? How this atrocious agency still has a license to broadcast is beyond me. Between blatantly false news, and now, blackmailing a private citizen over a goddamn internet meme, how can CNN still be allowed to operate in this country? It's disheartening to know that the anonymity of the internet is no longer sacrosanct, because a fake news network feels "hurt" and "triggered" by a goddamn meme image. A piece of satire. To the point that they can threaten to identify a private citizen and put him in harm's way. The only solution at this point is to revoke any relevant licensing and authorization CNN has to operate in any capacity within this country. You can not Blackmail and threaten private citizens, or compromise their safety or right to anonymity.

on June 24th CNN retracted a story they said was fake news. I am deeply upset that the news station is reporting propaganda to brainwash us. I feel as a "news" station this should not be allowed and violates the law. Why are they trying to brainwash my kids by running fake news and pretending it's real?

## **Description**

Dear Mr. Chairman,

As a member of an organization comprised of more than 1.2 million American seniors (A.M.A.C.), I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

It is clear that Cable News Network (CNN) personnel are violating FCC rules by repeatedly and knowingly broadcasting false information. It is the FCC's chartered duty to prevent broadcasters from knowingly airing false information, and that is, in part, why I am filing a formal complaint with the FCC.

Further, CNN personnel have recently threatened and blackmailed the Reddit user "HanAssholeSolo" for the Trump Body Slam video satire, an egregious and vindictive violation of his first amendment rights. This was a criminal act. The weak, lame and discordant denial tweets by CNN personnel, disproved by timeline and content, exposed CNN, yet again, as a fake "news" organization.

CNN's complete and total disregard for broadcasting factual news rather than their biased and misleading fake news, coupled with the vindictive harassment of an internet satirist require a full censure of CNN for violation of FCC policies and violation of the first amendment.

## **Description**

There have been instances of intentional fake or misleading news by: CNN, MSNBC, New York Times, Washington Post since Trump was in office including:

1. NYT saying that Sarah Palin encouraged the Gabby Giffords shooter where the paper had previously written that she hadn't...
2. That Trump was being investigated when they knew for 3 months he wasn't...
4. Articles where the headline and most of the body of an article was false then only at the end it was clarified - most people don't read entire article thus they were misled.
5. Having false story then retracting quietly - people are already misled.
6. The Russia investigation where there is no evidence after 10+ months thus misleading the public..

Media should be fully investigated for intentional reporting of fake news. They should be fined the maximum allowed. They should present a statement before any news article for up to two years: "This news outlet has deliberately delivered false news for political purposes."

## **Description**

Dear Mr. Chairman,

I wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

**Date:** 7/10/2017 10:14:11 AM

**City/State/Zip:** Dunwoody, Georgia 30338

---

## **Description**

Dear Mr. Chairman,

As a taxpayer and a private citizen, I want to register a formal complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

It is a given that the FCC cannot interfere with news and commentary. Nevertheless according to its charter it possesses and can exercise the power to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, in a continuing and ongoing pattern of aberrant behavior Mr. Zucker and the executives at CNN have willfully done this repeatedly and continue to do so as of today's date.

To cite four examples:

1. Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
2. CNN reported the existence of a dossier of then-candidate Trump, which has been shown to be a falsehood.
3. One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
4. CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you well aware, broadcasters are public trustees and they have a responsibility not to distort the news. In this case, the public interest in fair and balanced and unbiased news must count for something.

At what was once a proud and fair network, CNN executives have recently admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

I hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Thank you for your attention to this matter, and I will be watching to learn of the results of your efforts to rectify the situation I have outlined above.

## **Description**

Complaint regarding CNN admittedly reporting false/fake news. I would like you to revoke CNN's license for purposely making up stories regarding our President and fueling the publics anger against our President! As citizens of this great country we count on news broadcasters to report TRUE stories. Not false stories that would cause us to be upset without reason. I've seen the damage protesters can do when they get upset over these false stories. I would like to add these examples that have been brought to my attention.

\*Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

\*CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

\*One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

\*CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

Thank you very much for this consideration.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

## **Description**

CNN appears to be broadcasting opinion as factual news stories as well as entirely fake or false news in support of boosting their ratings.

If any news media shifts away from broadcasting the factual news and substitutes opinion and false statement as if they are facts representing an event or person then the broadcasting entity violates the public trust. This violation of responsible fair and balanced reporting of news should at least warrant some penalties against the organization and its owners or in extreme cases the revoking of their license to broadcast.

1. Fake calls from TMobile ATT US Bank Wells Fargo  
For purpose of obtaining personal info due to business dispute
2. Monitoring software placed on phone for purpose of tracking me
3. Exploites holes in Apple software and hardware to obtain photos, emails, contact lists, to advance business and legislative goals
4. Sent fake texts impersonating others? Posted fake jobs on sites like craigs list, sent fake newsletters to my email impersonating those I normally receive to discredit me
5. Sent me faked emails from friends in my email and phone contacts
6. Recorded my calls
7. Hid apps on my phone and obtained info from the apps I did use
8. Sent faked texts with ver codes for Yahoo Gmail and Apple
9. Obtained voice mails and messages from an old vonage account and Verizon
10. Faked web pages with account info for ATT & TMobile (locked out of TMO app and online account ongoing
11. Repeatedly accessed my backups, voicemails, to hinder job search and ability to communicate
12. Accessed my social media platforms--Facebook, Google, Twitter. Saw emails sent AS me to reporters in Gmail; saw messages sent as me to those in my Fb friends list asking for contact info so others could use it.
13. I believe my phones I turned in to TMobile were used by others to possibly communicate as me. An ipad was stolen for this very purpose, I believe.
14. Vision Wireless, a Dearborn, MI based TMobile retail site operator in 13 states, purposefully gave me a faulty android replacement phone in 2015. Their employees I believe gave me faulty information about billing at direction of those handling their PR to block me and manipulate me.

While all of these providers have been victims of hacking, that news only masks fact I was manipulated and targeted for years in a pattern of hacking stalking

**City/State/Zip:** Houston, Texas 77210

---

## **Description**

Sean Hannity actively spreads disinformation.

He preys on the audience with lies, half-truths, alternate facts and omissions. Hannity uses shameless propaganda disguised as news on Fox News. Lately Hannity has started slandering Special Counsel Robert Mueller by starting rumors and calling them fact; in doing so, Hannity is spreading fake news to the masses. Can disinformation and fake news be stopped from hurting people and obscuring facts?

Fox News and pseudo news shows such as Hannity should have to make - public disclaimer - that the information they are peddling to the public as news are just un-sourced opinions. Also, Fox News and Hannity should be fined for calling fake news real news.

## **Description**

Again, I am moved to file a General complaint against all of the large mainstream media outlets, and express in the strongest terms, that it is the Right of every citizen- NOT the BIG "news" corporations to "Free Speech." These nasty, sleazy propaganda attacks on one branch of our government are detrimental to us all, and it is the FCCs responsibility to ensure that the airwaves are free of VNRs, Hate Speech and Propaganda/Weaponized "News" as has been reported your office ceaselessly, repeatedly, every day, by those fed up with your inaction and the rampant "war" against the duly elected executive branch of the US Government. Do your job. Rein in these outlets on the grounds that "opinions" are not news and their bogus unsourced reporting is doing harm to the citizens of this nation; literally "programming"- fomenting and enabling personal hatred and escalating real acts of violence. There are laws against this sort of "fake news" and virtual reporting, enforce them, NOW. I have personally had a half dozen specific reports go nowhere because your office is apparently rife with Hillary supporters, and Trump haters, liberals and other Anti-American legions. Take this seriously, and act appropriately. Your office must end the propaganda war. NOW. This example from CNN is just ONE of hundreds EVERY DAY; PEOPLE are sick and tired of this; my family; friends; coworkers; churchgoers; others in our community. WE are not going to have a nation left if the FCC continues to let this crap continue! You apparently have MOLES in Your Agency, too, and your delay and inaction ensures victory for THEIR JIHAD against our Executive Branch, OUR Nation, and the Right of every US Citizen to Domestic Tranquility, Prosperity, and "real" Free Speech.

## **Description**

Dear Mr. Chairman,

As an organization representing more than 1.2 million American seniors, we wanted to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While we understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully.

To cite some examples:

Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;

CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;

One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;

CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

FCC--I was under the impression you had a job to do. I will research your by-laws but when a Television station-CNN-has a broadcasting license granted by you and they FREELY ADMIT to publishing and promoting FAKE NEWS..What type of Journalism and what type of KNOWN TV STATION IS THIS. You allow them to Lie openly and create decent. Yes you DO! You have the Power and the Responsibility to intervene and PULL THEIR LICENSE FOR PROMOTING FRAUD with their FAKE NEWS. There is no doubt of the fact when they themselves admit. You are a Govt agency so NO BIAS should STAND WITHIN your WALLS. IF it does, there will be the next complaint. I hope you act as appropriate care takers of the Airwaves should. Thank you

### **Description**

Fox News Cable commentator Hannity tonight (8/24/2017) informed the public that a list of news articles by other networks were fake news and lies. Please review that long list and let me know if they were in fact fake. Many appeared to be accurate reporting by other cable, television, and print media. Is this Fox News deceiving the public? Is that legal to lie to people that are unfortunate enough to believe the FCC has approved this media? What can be done about this fraudulent material being promoted as Fox News? Who protects the public?

## **Description**

Dear Mr. Chairman,

I want to formally register a complaint with the Federal Communications Commission and to ask that serious consideration be given to revoking CNN's license to broadcast.

While I understand that the FCC cannot interfere with news and commentary, it does have the power, according to its charter, to "issue penalties for knowingly broadcasting false information." As recent coverage has revealed, Mr. Zucker and the executives at CNN do this repeatedly and willfully. To cite some examples:

- Three CNN employees were fired over a story linking Trump associates to Russia that was subsequently found to be lacking any sources;
- CNN reported the existence of a dossier of then-candidate Trump, which has been debunked;
- One of CNN's leading on-air personalities, Van Jones, was allegedly caught on tape admitting that CNN's coverage of Russia is a "nothing burger" motivated by ratings;
- CNN's president, Jeff Zucker, is known to have a longstanding relationship with the President that appears to have turned into a personal vendetta on taxpayer-funded airwaves.

As you know well, broadcasters are public trustees and they have a responsibility not to distort the news. The public interest in fair and balanced and unbiased news must count for something in this case. CNN executives have admitted on camera that they intentionally falsify the news to attack President Donald Trump and his administration.

We hope you will move quickly if not to revoke CNN's license to broadcast its fake news on America's airwaves, then to begin an investigation into whether CNN is abusing the public trust.

Just report the news and stop attacking President Trump. Please try to help him succeed, as our nation depends on it.

I have repeatedly asked them not to post personal information about me - first offense was about a patent I have pending I do not even have the liberties to announce - they now attack me that I am (b) (6) " "I have ellucit children who are dopers -meth heads" "I have been arrested when I was not" "That I violate my disability by working as a DJ which I do for "free" " they call me names - call my children names such as "dopers" "problem to society" they post people that are high on drugs with our names under them - they post pictures of people on meth with our names under them - they post information that is not true - they have cost my one son to lose his employment - they have caused us public shame and embarassment - and it is repeated over and over like some sick thrill they get out of it - it is done on FACEBOOK - and they SELL THIS TO THE PUBLIC in the form of weekly newspaper ! They profit from publicly humiliating , slandering , and defamating our names and charactures - it is against the law to defamate someone and they do it CONSTANTLY -after I have asked them not to - even sharing it to his personal page under the name of JACK HOWSER - this is Cyber bullying and harassment - they post comments that are inappropriate , humiliating and discriminating -rascist calling my nephew "Senor Santiago" when he is not hispanic ! This has gone too far - I have reported it to local police -White Co Sheriff and the White Co States Attorney Denton Aud - to which , it continues ! One of my children were involved in a serious incident that could of cost him his life - I was not there as it was reported by the police they added me in on the story and continued to call us meth-heads and dopers as to why this incident occurred which is what cost my son his job - IT IS ALL FALSE at done at their humor and entertainment - PLEASE SHUT THEM DOWN !!! MAKE THEM STOP - this is a menace to society for it outrages so many people - they take stories from the "police public records" and add their own twist to it and make fun of people by their little quirks and comments - this is not MEDIA - these people work out of their homes and are not even journalist !!!! Fake news reporters using Facebook to profit - I have reported to Facebook many times it is against their "Community Standards" but yet there is nothing done -so I am stepping up in hopes you have more authority over people like this - please please reprimand them for their out of control printing to destroy people's lives publically !!!!! Their slogan reads "If you are not outraged you soon will be " WHAT !!!! Please take them down PLEASE !!!! They are publically destroying the public people ! GO TO THEIR PUBLICATION ON FACEBOOK DATED 8/26 8/28/ 8/30 and READ - "White/Wabash High Speed Chase " then look how they continued to slander my family in print there after !!! UNLAWFUL !!!!! PLEASE TAKE THEM DOWN - do not allow them to publish and profit off of people's misfortune - - - - Thank You (b) (6)

**Ticket: # 1907876 - Rush Limbaugh Radio Shoe**

**Date:** 9/6/2017 10:18:59 PM

**City/State/Zip:** Long Island City, New York 11106

---

## **Description**

Apparently this Radio Host is telling people via his radio show distribution that Hurricane Irma is fake news and for people not to evacuate! Not to purchase supplies, etc.

By telling people these lies he is putting his avid followers in danger of their lives!

If these people listen to him and don't evacuate and get killed that is tantamount to murder!

According to the broadcasting licensing these radio stations get they are not allowed to lie to people that put people in danger.

Its the same as telling people to jump off a roof.

And there are people that don't have reasoning skills to know fact from fiction.

Please protect these people and have Rush Limbaugh retract these statements and tell people to listen to local Officials and evacuated!

Thank you!

## **Description**

TWTMC (Written Complaint regarding CohanRadioGroup Broadcaster/Talk Radio Barry Foster of WWTk 730am talk radio Mon-Thurs. 8:00am - 10:00am both sister stations in same building. with Peter being the director of station and tonight Barry was co-hosting on 99.1fm WWOJ in Sebring, Florida 33870 on Saturday 09/09/2017 last evening on country music broadcast WWOJ. DETAILS: FIRST: Seen here on your chart of 2017 names is "IRENE" storm/hurricane/cyclone and has been named "IRMA" and current named hurricane in Florida Keys location heading on a slow N.W track COUNTER-CLOCKWISE... BUT ALAN ARCHER our local weatherman on CohanRadioGroup described "IRMA as being CLOCKWISE in his 11:00pm update of Hurricane "IRMA / IRENE" by form chart here on CWC???. SECOND: I have no issue at all of using or consuming alcohol on occasions such as a hurricane which is a ideal occasion for that for some do as overheard on tonight's 99.1 WWOJ FM broadcast where Barry Foster from WWTk730am morning talk show daily from 8:00am - 10:00am Mon. - Thurs. working two shifts it seems and on tonight's sister station 99.1 WWOJ in-house across the hall where Barry Foster had implied some alcohol use or at a bar drinking on the job as a bar if broadcast is retrieved and replayed, I found it to be a bit of satire at first as Barry is liberal with his admittance of being a big wine drinker on his morning talk show, until Alan Archers weather update at 11:00pm and IMO from hearing Alan for years masterfully do spectacular weather reports and has a great radio voice and personality too. MY CONCERN IS THAT SOMETHING LIKE THE ROTATION DIRECTION OF A CAT-5 TO CAT-3 ATLANTIC/KEYS HURRICANE IS A BASIC FACT AND WOULD NOT NORMALLY BE DESCRIBED IN ERROR BY ALAN EVER! HE IS TOO SMART TO GET THAT BASIC FACT WRONG! I AM NOT ONE TO TELL TALE ON A BROTHERS IN MEDIA EVER, BUT FOR SUCH A DETAIL IN URGENT CRISIS DATA SUCH AS IRMA IS, AND FLORIDA IS UNDER THE GOVERNORS "STATE OF EMERGENCY" CRITERIA WHICH SUPPORTS MY CLAIM HEREIN: THERE SHOULD BE NO INCINUATIONS OF ALCOHOL CONSUMPTION 'ON AIR" LIVE BROADCAST AND OR ASSOCIATED WITH A OUR NATIONS LARGEST EVER HURRICANE AND AFFECTING MY LIFE AND ALL FLORIDIANS BEING FUCKING SERIOUS!!!!, AND BROADCASTERS PUTTING AN IMAGE IN RADIO LISTENERS THOUGHTS THAT ALCOHOL IS CURBING THE SERIOUSNESS AND OR ACCURACY OF CITIZENS RIGHT TO FAIR AND ACCURATE WEATHER REPORTING PISSES ME RIGHT THE FUCK OFF, SORRY PLEASE EXCUSE ME HERE BUT I HAVE A BAD TEMPER AT IGNORANCE AND OR FOOLISHNESS BY SUPPOSED MEDIA PROS AS BARRY IS, ESPECIALLY WHEN PEOPLE ARE EVACUATING AND MAKING CRITICAL LIFE OR DEATH DECISIONS AND THE ROTATION DIRECTION DOES HAVE MINIMAL BUT INTEGRAL PART OF A LISTENERS DECISION MAKING AS TO WHERE THE STORM WILL HEAD AND IF THE PERSON, FAMILY OR COUNTY SHOULD FLEE FOR ESCAPE TO SAFETY. IF THIS HAS TO BE MADE AS A COMPLAINT THEN SO BE IT, I WANT BARRY FOSTER AND HIS MERLOT OUT OF MY SEVERE WEATHER REPORTING BROADCASTS PERIOD YOU GOT IT? TYPICAL OF AN OLD SENATOR FOR EXAMPLE: THAT FEELS HE OR SHE HAS A LIFETIME CHECK OR PENSION AND ACT CAREFREE SO MUCH TENURE AND OR POWER IN THEIR FIELD THAT THEY CAN ACT OR SAY ANY OL THING AND IT WILL BE TOLERATED BECAUSE PEOPLE ARE JUST SUPPOSED

TO UNDERSTAND OR GO ALONG WITH. NOT THIS FUCKING TIME, NOW FIX IT PLEASE. ALAN ARCHER MUST BE GIVEN THE UTMOST RESPECT AND LEEWAY AS FOR HIS MASTERY AND EXPERIENCE AS A TRUE PROFESSIONAL, WHEREAS BARRY FOSTER PLAYS AS GOOF OFF, AND CAN MANIPULATE A BROADCAST TO HIS LIKING AS I HAVE GROWN TO KNOW HIM FROM JUST LISTENING FOR YEARS, AND MERLOT IS A FREQUENT TOPIC IN HIS ON AIR BLASTS. IF BARRY HAS A ALCOHOL PROBLEM AND IT AFFECTS MY WEATHER REPORT I WANT HIS ASS FIRED ASAP! I WILL WITHHOLD A COPIES TO NOT BE SENT TO FCC AND BBB OUT OF RESPECT I DO HAVE FOR THESE BROADCASTERS, AND WILL WAIT FOR THE WEATHER REPORT WITHOUT A PROFESSIONAL WHINO INVOLVED. Sincerely,

## **Description**

I have recorded MSNBC on my TV as well as I try to watch it in the morning off my computer. On the TV I receive no interruptions on the communication however, when trying to watch the programming on the computer. I am constantly interrupted by commercials on MSNBC that are repeating every 20 seconds. I didn't think much of it except, annoying commercials however, two weeks ago, the program off the computer, MSNBC. Rachel Maddow's program was interrupted by a man claiming to be Robert Gibbons a person that is competing for a Senator's job against Senator Sherrod Brown here in Ohio.

It was ironic as the program from Rachel Maddow was discussing the involvement of members of the Trump organization in Russia. The commercial went on to say that "Mr. Gibbons" wanted to drain the swamp in Washington and that he needed to stop fake news.

I wish I had the sense at the time to record this commercial.

For the last three weeks, I have had my computer checked by Apple, have malware on it, secured all connections but have had issues with this particular program, MSNBC.com and know that it must be to prevent me from watching the program.

I will contact our Attorney General here in Ohio per the advise your representative suggested, however, I feel that if this is happening to me, it has to be happening to others.

## **Description**

While Fox News might have registered themselves as "entertainment" to have a loophole around distributing misinformation, I strongly believe they are still in violation of the FCC's regulations on broadcasting false information.

<https://www.fcc.gov/consumers/guides/broadcasting-false-information>

This is a daily occurrence, but I will point to one example specifically for this claim. About 7 months ago, Fox News broadcasted about a missile launch in Iran, which the President of the United States then tweeted about.

<http://www.foxnews.com/politics/2017/09/25/irans-supposed-missile-launch-was-fake-us-officials-say.html>

They knew the information was false at the time and proceeded to broadcast it. The false information had some very real consequences in further exacerbating already strained relations with another nuclear power, an unstable one at that.

You have a duty and a responsibility to the American people to ensure fake news is quelled. I humbly ask that you take strong and swift actions against Fox News for further agitating international relations via POTUS tweets.

All of humanity is depending on those in power to do the right thing. Please act with integrity and call Fox News on their egregious behavior.

News outlets like CNN, MSNBC, CBS, The Washington Times, Huff Post, and the list goes on, need to be penalized, reprimanded, or shut down, for continuously broadcasting and printing FAKE NEWS.

These media outlets have proven time and again their bias, lies and hate mongering. The media has continuously supported and promoted the division of our country since before the 2008 elections.

Tue "news" is not the news anymore. It has been hijacked by hateful and biased corporations intent on brainwashing the American people for their own greedy and misguided purposes.

I demand that the FCC do its job and ensure that actual "news" reach the American people, and not the slanted, hateful, divisional lies that the Mainstream Media circulates 24/7/365 days per year.

Do something before it's too late.

Promote Peace

One Race. The Human Race.

Peace Begins With You.

Love Your Neighbor.

United We Stand. Divided We Fall.

Be the change you want to see in others.

Thank you,

(b) (6)

of our country since the 2008 election.c

## **Description**

Progressive fake news, preventing both sides to be heard, truth suppressed in order to denigrate and destroy the President of the United States. They are part of the globalism push by both Democrat and Republican establishment who have deceived the citizens of the United States since the Kennedy assassination and even before. They also are on the same wave length as George Soros who has pushed for Antifa and Saul Alinksy tactics to divide and destroy democracy and the Republic. It's time to call these news departments on the carpet because the internet is much more honest than these broadcast channels owned by those who don't want the swamp drained in D.C. and their attitude: the hell with the people as they violate the Constitution of the United States. They are disingenuous which also means liars from the word go. How can they sleep at night? God help them. Investigate and see for yourselves how we are being duped by the fake news out to destroy peace and freedom. Now they are covering up the Vegas shooting with the MGM erasing all memory of Paddock. Something is rotten in Denmark and Vegas as well. Now we hear about gun control again, but that equals another Nazi Germany and Soviet Russia where they confiscated all guns. We need to defend the people, not liberal ideologies that destroy more. Hardly any word on Chicago killings of black on blacks or the millions and millions who are murdered in the womb through the sin of abortion. Time for the truth or they will answer to God and it will not go well. It's time to save souls, not endanger souls with deceit and lies.

## **Description**

Dear FCC Commissioners Clyburn, O'Rielly, Carr, and Rosenworcel,  
and Homeland Security Office of Intelligence and Analysis Private Sector Partnership Program:

Thank you for your service. I am writing because many of us are alarmed that a Russian propaganda outlet, Sputnik Radio, has taken over a radio station (105.5 FM) in Washington, DC. This is of great concern because "Russia Today" and "Sputnik Radio" are widely known as anti-American public relations firms financed and managed by the Russian leadership.

I work as a managing editor at GWU's Elliott School of Foreign Affairs since 2010. We have many policy workshops and papers about the intent and tactics of Russia's anti-American, anti-democracy activities and propaganda. As we all know, the Kremlin has been taking active measures to harm the United States. I have discussed this radio issue with many experts, both from the East and West, and 100% they see "Russia Today" and "Sputnik" as threats to our information space and our fabric of life.

Vladimir Putin Inc. is bent on harming our country - in their view, they are at war with the United States - and as we saw in last year's election, they are active in our country spreading fake news and lies, and tampering with our actual election processes.

My humble request is for your agencies to address this issue with the leadership of DC and move quickly to ban Sputnik from operating in Washington, DC.

Thank you kindly for your time and attention to this important matter.

(b) (6)

(b) (6) Washington, DC.

**Description**

I am so sick and tired of the media namely NBC, ABC, MSNBC and others, broadcasting lies. These people are supposed to be informing the citizenry of current events not engaging in politics. Please investigate what these networks have said and have possibly put us all in danger by broadcasting U.S. intentions and other issues as well. The President is right about one thing for sure and that is fake news should be addressed and made illegal. Thank you for your time.

## **Description**

Greetings,

I was just commended here by a government administrative representative of Austin city for my work exposing fake news (false reportage) and defective propaganda. I of course reside locally in the Los Angeles county area. I recently returned from Egypt about 2 months ago. I want to add here my point of law in this; Reservation territories have been designated for the documented indigenous people and their nations. They have been granted a separate government, but now it is clear they have encroached on our separate independent nation of people and government, which is a violation of sovereignty... Therefore they have opened the door for counter encroachment. For the record, all Western parties who financed the expositions which led to the western discovery of the Americas, all acknowledge and record that Columbus is credited correctly for the discovery. All territories subsequently cartographed including the continental Americas are all inclusive; it is all America. The people who read this have no other explanation for their presence here. The indigenous people also migrated to the Americas, but this occurred earlier and by other means and they were defeated. We did allow them to have their own independent tribal government to avoid problems such as this; the indigenous have trespassed on our separate independent government operations for our separate nation

Attachments9:22 AM (3 hours ago)

to Van

Then aljazeera published a false report (fake news) and google promoted it exactly as they are being accused in the media. Although Facebook is worse because they take it further by using their own fake profiles to harass people and spread disinformation. I think I received this report via facebook in fact. Take a quick snapshot to be a witness that google is in fact involved in spreading fake news reports (check the URL):

<https://www.google.com/amp/www.aljazeera.com/amp/indepth/features/2017/10/cities-change-columbus-day-indigenous-peoples-day-171009093458383.html>

Thanks,

(b) (6)

P.S. I did enjoy Columbus day, but I would rather spend it in Italy. I will see about sending this to the governor, FCC and possibly FTC because to my knowledge they are involved with regulating these sites

On Oct 11, 2017 07:29, "Van Arnam, Catherine"  
<Catherine.VanArnam@austintexas.gov> wrote:  
Good morning (b) (6),

I hope you had a wonderful Columbus Day. As you may know, Councilmember Troxclair's lone "no" vote on the proposal to supplant Columbus Day with Indigenous Peoples Day within the City of Austin was not enough to keep the item from passing.

After extensive discussions with other offices prior to the Council meeting, Councilmember Troxclair offered & supported amendments to have the proposed holiday fall on another day, or even to maintain the holidays as side-by-side celebrations on the same day. She also offered language that was more respectful and inclusive, which was also not accepted by the balance of Council. You'll be able to view the exchange on the dais on Item 32 by clicking "Archive" button on this link: <https://austintexas.gov/page/watch-atxn-live>. Her request to have the City of Austin Law Department comment on the fact that Columbus Day is a federal holiday, which will continue, was met with rare silence. Our gratitude to Councilmember Alter, who worked closely with Councilmember Troxclair in these efforts and abstained from the vote.

We hope that you nonetheless enjoyed a wonderful Columbus Day. An adventurer and man of faith, Christopher Columbus brought two worlds together, in an epic age of exploration that eventually led to the founding of our country. Columbus Day is about boldness and bravery, our drive to face fear and the unknown, to face uncharted waters, to not be subjugated by nature, to make a positive mark on the world, and on history. Columbus Day isn't about the known shortcomings of the age, it is about the human spirit – and about what is at the core of our shared American spirit. Today we join with you, and the majority of our fellow Americans, in celebration.

We are grateful for your civic involvement. Please, keep it up (<http://austintexas.gov/email/all-council-members> ).

Sincerely,

Catherine Van Arnam, PT District Coordinator  
Councilmember Ellen Troxclair, District 8

## **Description**

Dear Commissioners and Chairman,

I write this letter to urge you to take up some serious policy changes regarding what is commonly known as the Fake News Media. I am a 47 year old American citizen who is purely disgusted by the way the Main Stream media outlets have been able to twist, lie, and whip the entire public into chaos, rage and destructive division. The mainstream media used to be a source for unbiased news, but has now become a wild and relentless trash machine that functions like the worst tabloids and yellow journalism this world has ever seen. What used to be objective reporting has devolved into partisan political pundits using broadcast media outlets as bull horns to destroy the reputations and characters of anyone who does not fit their concrete ideological stranglehold. When the only recourse against this outlandish behavior is the purchase of a civil docket number and years of bankrupting legal fees, something has to change.

There is virtually no accountability whatsoever on broadcast news stations, whose megaphone is worldwide 24/7. The time for action is now.

Content:

Dear Commissioner Clyburn,

I am a 56 year old disabled man in Nevada. I have a lot of free time to watch the news. And even before Trump was elected, I have watched every channel on TV lie. Not only do they lie they bring on dozens of guests who spin and lie and create fake news....

This has to stop because critically important news must be reliable and credible news.

Please do something to get CNN and others to cease and desist the blatant lies.....pull their licenses or fine them. Something has to be done....it is so important.

Thank you

**Description**

\_Dear Mignon\_

\_The American people are so sick of fake news and we demand FCC to stop being a pussy and shut down 100 local stations across 50 states and 3 US territories NOW, because it is against the public interest to use the public airwaves to spread lies, omissions, and propaganda. Trump's 100% right because evil j should not be allowed to broadcast fake news or killing real news in America!\_ After seeing numerous fake news stories reported by NBC News, who also killed the Harvey Weinstein story, we demand their broadcast license to be revoked NOW, and FCC must censor content or lack of content like they do in China because we the people are sick of LGBT scenes, black-on-white sex or race mixing, anti-family, anti-Christian, satanic, and gun violence ironically from the same j who oppose OUR gun rights..

This sparked all sorts of anger from the fake news media with countless articles claiming that Trump is against the First Amendment, free speech etc.. There's even been phony pieces inferring that it was unlikely FCC would revoke NBC's license. Politico penned one where they quote some kike lawyer with the last name Schwartzman. This was not just any kike lawyer, it was a highly credible kike lawyer! Trump responded to this nonsense by again calling for the fake news media to have their licenses challenged and revoked. Trump is 100% right on this. These fake news operations are not engaging in legitimate journalism. They're engaging in anti-American subversion of the highest order.

FCC does have the power to revoke broadcast licenses because there's actually a precedent for broadcast licenses being revoked on character grounds. In 1989, the FCC revoked the broadcast license of a radio station because they believed the station discriminated against a nigger. Discriminating against a nigger is a far less important matter than making up fake stories designed to undermine and subvert the federal government. There's much more of a justification for FCC to revoke the broadcast licenses granted to these big j run propaganda operations like CNN and NBC than that radio station. These organizations have a documented track record of broadcasting all sorts of false information designed to poison the minds of the American people.

This is about silencing a subversive enemy that hates America, and not about the First Amendment or free speech. The Constitution does not apply to a subversive tribal group of kikes who are hell bent on bringing this country down with their hate filled propoganda and lies. FCC must immediately revoke the broadcast licenses for all of these evil j run entities NOW to make America great again. If FCC refuses to do this, then it has proven itself to be captured, bribed or blackmailed by the j. Ajit, the j hate dark skinned people like you and see you as mere cattle or useful idiots, so why are you serving them by doing nothing?

i understand the free speech aspects however cnn stands for cable news network they do the equivalent of fire in a crowded theatre by 1 using crisis actors to fake news..... And tell blatant lies....advertisers put in large letters "this is advertising" cnn is not all news just enough real to trick people into thinking ALL is real but some stories are made up! Also the collusion during the 2016 president debates must violate federal law. Please look into these matters they should be required to state they are opinion not true news. Paper state clearly "editorial" as example. This also applies to NBC a broadcast on channel 4 local

**Date:** 10/27/2017 2:01:57 PM

**City/State/Zip:** Floyds Knobs, Indiana 47119

---

## **Description**

We have had to listen to over a year of a major HOAX, slander, smears & lies against a sitting President of the USA by CNN, MSNBC, NBC, CBS, ABC. We have watched them televise propaganda blaming Trump for election hacking & all the time it was false. We have watch these same outlets endorse ANTIFA, BLM, & other Terrorist group, to the point of inciting Riots that have caused the Deaths of more than 1 person. The hoax about our President being a White Supremacist could easily be the reason for the VEGAS shooting and others. At what point do you intervene when these hoax's are pushed under those purporting to be news casters? These are not all opinion shows, but supposed factual news organizations that are causing people to watch the news, believing it as true, and commit violence in return. Seems to me the law is clear on that as it not being allowed to occur in America. We have a President under attack, who we swore to protect as he runs the country from acts of sedition and other harmful acts so that those that elect their President get the full benefit of him being protected. I understand you might be hesitant to get involved, especially since the left are great at making the right thing to do, feel & seem wrong, but it is not wrong, it is right and no talking points or attempt to change that should work on law abiding Americans! We have a duty to protect our country and when news is used to lie, incite riots, and as propaganda to distort the truth it should not be done under our tax \$ or without a serious restriction by our laws. I think Trump meant just this, if they are licensed to be factual and news, then they are mis-licensed because all they do is peddle Antifa/Communistic garbage using their networks to brainwash America because their chosen party lost. Doesn't seem legal to do when they use lies and hoax's to do so. I Appreciate anything you can do based on the law I read about hoax being illegal. I can't sit silent knowing we have people dying and believing these fake stories about a wonder wonderful President Trump. It's beyond accidental mistakes and is instead an intentional campaign to brainwash America to hate our President. Stating a disclaimer has become rare for mistakes, and worse, they expect no penalty because to date they have gotten by with it. Something never allowed in history. It is time to use all the tools in the shed to put those pushing lies & hoax stories in their place, who think they dictate fake stories causing massive mis-information about racism in spite of them losing an election. There is not one racist bone in our Presidents body, and his supporters are tolerant loving multi-ethnic and multi-cultural law abiding citizens that are being harmed by these fake stories. Our safety is in jeopardy in public because of the Main Strem News medias lies and hoax stories. Please do not be intimidated by those that make you question whether an apple is a banana. The add put out against our President for impeachment is also ridiculous since he has not been nor can that occur without a crime, yet it plays even on channels we try to escape that tell factual news, like Fox. Even Comey admitted the Presidential power to fire the FBI director can be for any reason, or no reason at all. They just want him to be questioned and made uncomfortable doing what America hired him to do, run the country & drain the swamp. My complaint is not with Direct Tv, it is with those pretending to be news journalist but instead work for the Democrat/Soro's/Antifa party, and lie about being factual unbiased news. Many of these people were paid by the very people they cover up news for, the DNC. Thank you! You have serious work to do to save America from more violence pushed by fake news on these hoax channels. Let me pray too, that by reporting this, I don't become a target like Obama's IRS did to innocent Americans. I did not see a place to select Hoax versus indecency. It is the hoax

item-outlawing the ability to promote a hoax under FCC law, that I read that made me write this to begin with.

**Ticket: # 2046184 - Russia pushing fake news using public airways**

**Date:** 11/14/2017 12:25:21 PM

**City/State/Zip:** Bozeman, Montana 59715

---

## **Description**

I have filed multiple complaints with FCC re false news reports on our local am radio 1450 station in Bozeman, however I have not received any specific response other than auto replies with #'s assigned.

Today I am writing because new evidence links Russia to the fake news being reported by Info Wars host and others.

I am concerned that the FCC is failing in its duty to "serve the public interest and foster public understanding" as per its mission to the AMERICAN people.

I am concerned that Putin and white natiotionalists aligned with him have been allowed by the FCC to undermine our democracy and infect the minds and hearts of ordinary people with hate, fear and mistrust to further their nefarious/treasonous objectives.

I believe while their is no longer a fairness doctrine, the FCC is still obligated to ensure public airwaves serve the purpose for which they were intended. Please, respond with specific information as to your analysis re my concerns.

Thank you,

Status:SUBMITTED

Name(s) of Filer(s)Express, Internet, Net Neutrality, Freedom, Unbiased, FOIA, complaint, Discrimination, ADA, facebook, Google, Standard Filing

Primary Contact Email (b) (6)

Brief:THIS IS WHY WE NEED TO RESTORE INTERNET FREEDOM I AM CURRENTLY BLOCKED FROM POSTING IN FACEBOOK BECAUSE THEY ARE CALLING MY POSTS SPAM...TODAY IS THE DAY BEFORE THANKSGIVING AND I POSTED A FAMILY EATING THANKSGIVING DINNER AND FACEBOOK PULLED IT BECAUSE THEY ACCUSE ME OF POSTING SPAM.....??!!

What exactly are they objecting to? the Family sitting together at the dinner table? I em requesting for RESTORATION OF INTERNET FREEDOM.

I POSTED A BOB MARLEY SONG, ONE LOVE...FACEBOOK PULLED IT BECAUSE THEY SAID IT'S SPAM....??!!

Since when is posting a Bob Marley song considered SPAM?

On the other hand, FACEBOOK IS ALLOWING THE POSTING OF PICTURES AND STORIES OF FETUSES' BODY PARTS AND DNA FOUND IN THE MEAT OF FAST FOOD CHAINS ALL ACROSS THE COUNTRY...

How is that okay to post but not okay to post a Bob Marley SONG. And it's not okay to post a picture of a family eating dinner at Thanksgiving.

IT SEEMS THAT NO MATTER WHAT I POST IT IS NOT ACCEPTABLE TO FACEBOOK ..It is imperative that user's rights be reinstated on the internet. Could it be that it's because i am a legally blind person and FACEBOOK is discriminating against disabled americans? Or could it be that FACEBOOK is discriminating against me because i am a conservative PRO TRUMP SUPPORTER? FACEBOOK IS IMPLYING that i am too retarded to know the difference between spam and an acceptable post? THEY ARE DISCRIMINATING AGAINST ME!! A disabled CHRISTIAN CONSERVATIVE woman! THIS IS CLEARLY DISCRIMINATION!!

FACEBOOK IS CALLING CONSTITUTIONAL MATTERS AND ISSUES SPAM! That is what this is all about! i post infringements of our Constitution such as the CONSTITUTIONAL ISSUES where THE FBI is CRIMINALIZING PEOPLES' ACTIONS WHEN THEIR ACTIONS are clearly WITHIN THE LEGAL DEFINITION pf our rights that are PROTECTED BY THE U.S. CONSTITUTION. THERE IS NOTHING SPAM ABOUT MY POSTS.

I SUBMIT TO the Federal Communications Commision that FACEBOOK and GOOGLE are violating my right to the freedom of speech and the freedom of expression. They are actively allowing THE CIA MOCKINGBIRD OPERATION "OPERATIVES" to BLOCK, DENY ACCESS AND CONTROL what i can say AND what i can post based on my political beliefs and views.

PRESIDENT TRUMP' AND HIS LEGAL STAFF, NAMELY, ATTORNEY GENERAL, JEFF SESSIONS HAVE IN THEIR POSSESSION OVER 2000 INDICTMENTS FOR MULTIPLE CRIMES COMMITTED BY THESE "OPERATIVES" AND traitors throughout the country. U.S. MARINES FORCES seized documentation from the CIA HEADQUARTERS in Langley, VA. and have EVIDENTIARY PROOF OF THEIR TREASONOUS CRIMES. THE CIA WILL BE R PROSECUTED TO THE FULLEST EXTENT OF THE LAW....

IN ADDITION TO THAT, ENTITIES CONTROLLED BY THE CIA ARE TO CEASE ALL ACTIVE CENSORING, BLOCKING COMMUNICATIONS AND THE CONSTANT MIND NUMBING FEEDS OF MISINFORMATION TO THE PUBLIC.

CLEARLY FACEBOOK AND GOOGLE KNOW THIS TO BE FACTUAL AND THAT IS WHY THEY ARE CONTINUING THEIR AGREGIOUS ACTS.

BUT I WONDER IF THEY REALIZE THAT THEIR COMPLACENCY TO ALLOW THESE PRACTICES TO CONTINUE IS GOING TO COME BACK TO BITE THEM IN THE END BECAUSE OF PRIOR KNOWLEDGE TO ALLOW THE FALSE NARRATIVES WITHOUT INTERVENTION MAKES THEM ACCESSORIES AFTER THE FACT...THE CRIMES THAT THEY WILL BE ACCESSORIES TO MAY INCLUDE THE FOLLOWING

1. AIDING AND ABETTING THE WELL KNOWN COMMUNIST-DICTATOR-OBAMA AND HIS TERRORIST ORGANIZATIONS; THE OFA, ANTIFA, BLM, HIS MILITARY COUP TO SABOTAGE OPERATIONS WITHIN OUR GOVERNMENT FOR THE PURPOSE OF OVERTHROWING AN ELECTED PRESIDENT....
2. PROFITING FOR PERSONAL GAINS WHILE BREAKING FEDERAL LAWS AND DISREGARDING THE AUTHORITY TO WHICH THEY ARE BOUND BY.
3. VIOLATIONS OF THE UNITED STATES TREASON ACT, SEDITION, BY NOT REPORTING THESE INCIDENTS TO THE PROPER AUTHORITIES...
4. AIDING AND ABETTING AND ACCESSORIES TO HEINOUS CRIMES OF CHILD RAPE, CHILD SEX TRAFFICKING, HUMAN SACRIFICES, MURDER, FRAUD, AMONG MANY MANY MORE VIOLATIONS AND THESE ARE FELONIES...

5. IMPEDING AN ONGOING FEDERAL INVESTIGATION THAT BEGAN IN APRIL OF 2016. AND OBSTRUCTING JUSTICE BY NOT REPORTING THESE CRIMES AS THEY WERE BEING COMMITTED

6. PURPOSELY "FEEDING" THE PUBLIC FALSE NARRATIVES AND FAKE NEWS AND KEEPING THE REAL STORIES HIDDEN FROM THE PUBLIC THAT FURTHER INCITE VIOLENT RIOTS, MURDER, MASS SHOOTINGS, ASSAULTS, ATTEMPTED MURDERS, TO THE STAGGERING INCREASE OF VIOLENCE 65% HIGHER THAN LAST YEAR, CLEARLY CAUSING TENSIONS OF DIVISION AMONG THE AMERICAN PEOPLE OVER RACIAL ECONOMIC AND SOCIAL DIFFERENCES THAT WERE NOT THERE BEFORE ....

7. THE ATTEMPT TO ASSASSINATE THE DULY ELECTED PRESIDENT OF THE UNITED STATES,

8. FRAUD, BLACKMAIL, EXTORTION, CRIMES AGAINST POLICE OFFICERS,

9. KNOWLEDGE OF THEIR INTENTIONS TO CREATE SOCIAL CHAOS AND FAILURE TO REPORT THEM ARE PUNISHABLE BY LAW....

10. ACCESSORIES TO CRIMES AGAINST HUMANITY FOR CRIMES COMMITTED ABROAD AS A DIRECT EFFECT OF FAKE NEWS AND FALSE NARRATIVES,

WE THE PEOPLE AS USERS OF THE INTERNET ARE TO EXERCISE OUR DUTY AS AMERICANS TO REFUSE INVASION OF OUTSIDE AND FOREIGN FORCES LIKE COMMUNIST OBAMA AND THE SALE OF 20% OF AMERICAN URANIUM TO NORTH KOREA VIA THE RUSSIANS....

WE DEMAND THE FREEDOM STANDARDS OF THIS COUNTRY SPELLED OUT TO THE MINUTE DETAIL WITHIN THE CONSTITUTION OF THE U.S.

FREEDOM TO SPEAK FREEDOM TO COMMUNICATE PEACEFULLY, FREEDOM TO MEET PEACEFULLY FREEDOM TO EXPRESS OURSELVES PEACEFULLY, FREEDOM TO BEAR ARMS FREEDOM OF RELIGION, FREEDOM TO SAY WHATEVER THE HELL WE WANT TO SAY AS LONG AS IT ISN'T FOLLOWED BY PHYSICALLY ASSAULTING ANYONE...WE HAVE RIGHTS DAMMIT....

WE DEMAND THAT FACEBOOK STOP BLOCKING POSTS AND STOP CENSORING INFORMATION AND STOP WITH THE FALSE NARRATIVES AND FOR GOD'S SAKE ...STOP THE POLITICAL CORRECTNESS!!

FACEBOOK IS IN DIRECT VIOLATION OF MY DISABILITY RIGHTS UNDER THE AMERICANS WITH DISABILITIES ACT AND RACIAL DISCRIMINATION UNDER THE RACIAL..ACT

LIKEWISE GOOGLE IS IN VIOLATION OF DENYING MY ACCESS TO MY ACCOUNTS BASED PURELY ON "SUSPICIOUS ACTIVITY" WHEN THE TRUTH IS THEY DON'T LIKE HEARING THE TRUTH...

RESTORE INTERNET FREEDOM. KEEP UNBIASED AND NEUTRALITY ON THE INTERNET FOR THE SAKE OF SAVING AMERICA'S CONSTITUTION AND HER SOVEREIGNTY....

[Ticket: # 2083622 - Brian Ross fake news broadcast on Friday Dec 1 that dropped the stock market 350 points](#)

**Date:** 12/3/2017 11:38:45 AM

**City/State/Zip:** Festus, Missouri 63028

---

### **Description**

On Friday December 1st, 2017, Brian Ross and ABC news interrupted regular broadcasting to report that General Michael Flynn would testify against President Trump and his family. This report was fake news and caused the stock market to drop 350 points which in turn caused my 401k to take a hit, drop. I believe ABC needs to pay a fine and so does Brian Ross.

**Ticket: # 2093107 - Television "News"**

**Date:** 12/7/2017 6:29:08 PM

**City/State/Zip:** Nixa, Missouri 65714

---

## **Description**

I've watched TV as long as I can remember. One day, about 9 years ago I woke up to the fact that I never got a vote on who serves us our "news" on the big TV networks. These talking heads at NBC, ABC, CNN and the likes are NOT News, but propaganda machines which constantly lie to us! How low do their ratings have to go, before you revoke their licenses? I actually had to question whether Austrailia even exists, because I've never seen it, but have only been told about it, by the propaganda machines. If there were a class action suit against them for the lies they've told us over the years, I would definitely be on board. When is something going to be done about the big fake news networks? Some of these more humble radio and internet news sources would serve us alot better.

---

[Ticket: # 2093559 - Fox News has gone too far discrediting our justice system and spreading constant fake news, conspiracies and lies!](#)

**Date:** 12/8/2017 1:20:46 AM

**City/State/Zip:** Daisytown, Pennsylvania 15427

---

### **Description**

The channel has devoted all of their time in the past year slamming anyone who opposes Donald Trump, discrediting our justice system and comparing our honorable FBI to the KGB. Their shows are full of falsehoods, and biased discriminatory propaganda. They are not a news agency they are a propaganda network and should be shut down!

---

**Ticket: # 2100787 - Keep Net Neutrality**

**Date:** 12/12/2017 1:06:18 PM

**City/State/Zip:** Springfield, Virginia 22152

**Company Complaining About:** Cox

---

## **Description**

A free and open internet for all websites is a right of the consumer. The FCC should not go through with the repeal of the Net Neutrality laws established in 2015. Want to stagnate innovation from no-name websites? Want to lessen the voice of those not on mainstream sites? Then go through with the tragedy that is repealing net neutrality. I am extremely against this current FCC proposal to repeal it. Maintain Net Neutrality and listen to both the people and the businesses making their voices heard throughout the U.S.

This isn't fake news Ajit Pai....wake up and smell the consumer outrage at what you are proposing.

---

### Description

\*\*Gangs of America Streets of America (check out iheart podcast)\*\*

There is a large group or cult, Deerfield, area i believe is the "main". They also have one at (b) (6) Westwood. Also using old sewer lines bunkers, and fallout shelters to protect themselves from the potential effects of the "data over power lines" .... H5 data center and other data center sites in Cincy and Cbus (BLUEMILE) and throughout the US that are listed as being used by the major carriers of telecommunications, data over power lines (ISP providers for example) including the new "airgig" project that has gone nationwide for AT&T used by all the major carriers have been breached and the telecommunications network is 100% fully compromised.

They have told me they have stolen military technology that they used to pretty much subliminal message, brainwash, mind control, also able to use the visionary and auditory cortexes to control and "drone out" the individual. Hypnotize and illegal drugs seems to be a key factor in these terrorists to gain control or conquer their "prey, hostage, slave, POW, human-drone.. As well as hack into and penetrate every computer, electrical and network anywhere. Google API and other satellites and elos etc have been utilized also.

Numerous times they have also forced out that they are holding hostages for what they've called prisoners of War they have multiple facilities and they have access to the federal penitentiary and United States jamming system via the Internet they have set up an established on their servers Witcher connected to Union Supply Flex spas city of Columbus City of Cincinnati also government agencies including V. Gov email system and voicemail systems. There's a home at (b) (6) Nelsonville Ohio and a property that (b) (6) Elida Ohio that they have manipulated the title in the owners to the home and for what reason they have given me to figure out is that a lot of the properties have been foreclosed and owned by the US government and they have access to go login to the county auditor's web sites in each state and each County and take the properties over without anybody noticing. There seems to be a trend of this going in the Westwood area between Knorr Avenue Harrison Avenue and Queen City Avenue there doing the sewer project. They have black if they have confirmed more than once.

May have gained the ability to manipulates the news media and responsible for numerous numerous fake news stories which are mostly true stories but locations and names have been changed but it's actually seems to be their system actually telling on them which is a good thing that their system is telling on them because they are a bunch of liars for example the union Supply website when I was on there ordering product for a friend and centipede in a www. Website address or IP address on the website I was actually in the database itself and it was in excess catalog I was not on the internet I was on the intranet. Possible is connected to a 10. IP address or there are a couple other options as well they gain access people's home Wi-Fi connections and internet connections and cell phone connections and Corruption manipulate the dots is files in the config files and when your computer boots up it out of Mexican next to their internet and not your own, and it's on the huge loopback Network.

They have also told me that they have access through their Union Supply and loopback network and their internet they have manipulated the internet system and the networks they have access to the judicial records Penitentiary records Jalen records for certain prisons in certain locations in the United States of America and they have access to go in there and remove prisoners and have it set up where it looks like they're prisoners being transported to another location or to a court thing and prisoners disappear because they've sells men's human trafficking aura something else. Well I hope this is is not a true statement of something that somebody actually does here in America I had to lead on to my shadow of doubt that I think that it is actually occurring in the things they prove to me and think they've shown me and the fact they told me about it a couple times pretty much walking through the whole program and everything they do to everybody everywhere and and there seem to be cleaning up any loose ends and getting rid of anybody who knows of this or doesn't know this and was involved in it that possibly might be able to connect them to it as well.

They have hacked into Uber and other apps on cell phones and have made it possible to use Wifi through a serval mesh which is created here in America using the power lines infrastructure underground utilities people's home utilities without them knowing it and cell phone connections they are stealing data from everybody as well as information changing medical records police reports have access to the voicemail for all utilities and all people everywhere they have hacked all major cell phone carriers and telecommunications companies

They think they are invincible from the gay societies at Columbus Toledo Cleveland and even some here in Cincinnati in Kentucky gay males mostly but non-stop threats against my life and friends and family if I do not listen to them and let them "own" me. nd will not stop and have attempted to have me commit suicide multiple times

Mark Mallett, if I understand correctly is currently being investigated by the Columbus Police Department first similar activities with spine and drone use around subdivisions as well as Internet theft. Invasion of privacy, drone flying peering in Windows, using peoples home television sets and computers and cell phones and what's not to actually record inside people's homes I guess the television set is a reverse camera as a government stated years ago that it was but they was possibility just like on smart TVs. They have also seem to make a magnetic field out of this power data over power lines thing which is creating havoc on electronics I'm also give them control over the counter as well as like a huge mind field and Minefield as well just aging people rapper the quickly deteriorating people places and things.

Below where the grammatical errors and sentence structure isn't the greatest shows manipulation to the voice recording system and the voice to text features on cell phones that they've manipulated corrupted both their voices coming across the same time mine is as well as moving the decimal and the algorithm himself essentially it seems like and I'm not 100% sure because I am not a computer genius but they are socially a man in the middle of everybody in the world and what they're not in the middle of their to make themselves first inline it gives a new meaning to cyber terrorist attack.

....I think they're also recording it and broadcasting it on Kodi or other there's internet Outlets from some lady named Susan from California I want that b\*\*\*\* in prison they also made a game out of it crimes against humanity Cards Against Humanity gangs of America streets of America something I'm not sure but Anthony Kennedy Corey Williams Michael Kahn Unistaff Raquel Casey Nina Virginia local staff I'm sorry level staff Brent Murphy other people song Kaufman Chris Schroeder Paul Schroeder and Schroeder David Horseman chris yoder scott hainer zack fouch. Dan Deluna Richard

Cruz Johnny Dangerous Eddie Smith CC Garrison some people were blackmailed into this some people just doing this cuz I find it fun they are doing some more people than just me and are multiple districts that they have started it in as well

Do you have anybody that you can get a hold of to let them know that they are gaining access to every Government website and every computer system everywhere due to data over power both through the air Wireless a transmitted as well as the power cords from the wall it's a matter of National Security it's a whistle Point event they change

---

[Ticket: # 2162974 - CNN, MSNBC, Fake News and fines](#)

**Ticket: # 2163575 - Fox News**

**Date:** 1/12/2018 1:18:27 PM

**City/State/Zip:** New York, New York 10031

---

## **Description**

I believe that this show (and really this entire network) promotes racism, sexism & general xenophobia. Consistently, different hosts/TV personalities on this network condone or defend comments made by the current President of the United States that are offensive or lies or just to appeal to him in the event that he sends positive Tweets about them. Fox News is a detriment to our society because it plays on the emotions of our citizens in a way that is clearly biased and intended to generate ratings. It is unethical for this network to call themselves news, because they are deceiving the American public. Never before have I seen such a shit-hole network.

Examples:

Here's an article to start:

[https://www.huffingtonpost.com/entry/fox-news-most-ridiculous-moments\\_us\\_5613f517e4b022a4ce5f9310](https://www.huffingtonpost.com/entry/fox-news-most-ridiculous-moments_us_5613f517e4b022a4ce5f9310)

On the Politifact website (link below), Fox News has a scorecard averaging the amount of truth in all statements made on the network (not including politicians/paid spokespeople). 60% of statements made on the network are either completely false or "mostly false". 18% are only "half true". While the remaining 22% considered true or "mostly true".

<http://www.politifact.com/punditfact/tv/fox/>

Also, things like this:

<https://www.npr.org/2017/08/01/540783715/lawsuit-alleges-fox-news-and-trump-supporter-created-fake-news-story>

Now, the biggest problem comes along because the president of the united states is telling the country that all other news networks are fake news and that Fox News does an "excellent" job, which based on the information above is clearly false.

---

**Ticket: # 2165185 - CNN said "Shithole" over 10 times based on false reporting**

**Date:** 1/12/2018 7:23:55 PM

**City/State/Zip:** Hendersonville, North Carolina 28792

---

## **Description**

The president was accused of saying that Haiti was a 'shithole'

It turns out that this reportage is FALSE and that he did not say that, certainly not today and that this reportage was a conflation and possible fabrication, according to Jake Tapper, one of his accusers  
<https://archive.is/dT42J>

Many broadcasters have picked up on this 'shithole countries' comment--that is likely fake news--and in their outrage, they said the word 'shithole' (not bleeped) not less than 10 times, possibly over 100 times

<https://www.youtube.com/watch?v=fkkKzKAa7-w>

I am very offended that our media has to repeat shithole over and over today. I feel like it's some kind of mental assault. In fact, hearing it over and over feels like the broadcasters are calling ME a 'shithole' because of their hysteria and histrionic backbiting and hatred.

I'd really like FCC to consider fining them millions upon millions of dollars for today, and that goes not just for CNN (main offender) but to all TV news as well as Washington Post print and other print journalism for the same reasons stated

I believe FCC has to make an example out of CNN, so that they know this behavior is NOT ok. Even if Trump had said that, it still would not be ok for these "news" stations to say the word "shithole" all day long

Think of all the children at airports where CNN is playing at full volume all day long who have to be assaulted by this word said over and over. They have no choice but to hear it.

Think of the example this is setting if FCC does nothing!

## **Description**

During the Presidential Election 2016. First This, I grew up with my Father being the Mayor of Stockton, CA, (b) (6), he also ran the (R)California Governor's campaign for the Central Valley 1950s. Eldest brother (b) (6), a Democrat, ran CA GOV Jerry Brown's campaigns. Back to the Complaint, we will start with Facebook. During the election I posted to the Facebook pages of Bernie Sanders, Hillary Clinton, Trump's, CNN, MSNBC, ABC, or we thought (friends were looking on-line at the same time I was posting) I was posting comments because they showed on my end, on my computer using my sign-in to Facebook that I was posting Comments, but in fact the Comments were not posted. None of US on other computers around the USA could ever find MY Comments. I was against Drug Use, specifically heroin, fentanyl, meth, prescriptive opioids that are illegally sold. I had met individuals that had developed Obama as a candidate in 2003 at Brooks Lake Lodge in Wyoming, they were the Pritzkers, Penny. I had known the individuals that set up Jerry Brown's campaigns which in the 1970s used Linda Ronstadt to act as Brown's girlfriend when in reality he is a Homosexual. My brother was the one who did the cover for Brown and he ran Brown's campaigns, which is documented and he was Brown's Commissioner at Caltrans. I had met deal makers in the White Water Real Estate Scam with the Clintons, and a young man who had worked for me Marcus Healey watched in March & April of 2000 from corporate trading windows at the Headquarters of Merrill Lynch, the executives and portfolio managers at Goldman-Sachs and Charles Schwab defraud their small and mid-cap investors, telling them to buy tech stocks, while top executives at both companies were actually selling out of tech, defrauding their own investors, the way in which it was done is called "Getting out from the Top" Documented we forward the information to then NY State Attorney General Eliot Spitzer who did nothing (article appeared shortly after stating the single largest contributor to Spitzer's campaigns from Wall Street was Goldman-Sachs "WSJ") and we forward the investor fraud information to the SEC and its Chairman at the time Arthur Levitt. Neither Government Official did anything. Clinton the President at the time never prosecuted Goldman-Sachs, CEO Henry Paulson or Charles Schwab but we made sure he had the information as well. Their meetings, the Clintons in Jackson HOLE Wyoming, the meetings of 1996 with the Bush Factions, and Penny Pritzker's meeting with the same in 2003 were known in detail to me because I was either there when the Deals took place or close friends were. Same with aspects of the Opioid Crisis under Obama, the CEO of Vertol Systems Inc. Destin FL, Portland OR, a New Zealand by the name of (b) (6), told me in a 2 hr conversation that his company was distributing heroin, globally and into the USA with President Obama's knowledge. And the drug money was being laundered by HSBC. Vertol is a contractor to the Obama CIA at the time. Vertol operates 100s of planes and 100s of helicopters world wide, including for the Barrick Gold Mines in Papua New Guinea as (b) (6) so stated in 2013. Montgomerie owns a condo at (b) (6) Ketchum Idaho 83340, this is where the conversation took place, between Boise ID and his condo in Ketchum. There is more to details but for now that is enough. So during the Election the points listed above and others and their full details were as I-We thought being posted through my Comments to Hillary Clinton's Facebook, Bernie Sanders Facebook, MSNBC Facebook, CNN

Facebook, the Washington Post comment ability, the NY Times comment ability, Trump's Facebook page, etc. Then they began to not be actually posted. Facebook at my end was making it look like I was posting details on the deals and corruption of Obama and Clinton, but Facebook was not posting them. Facebook was defrauding me of my Constitution Right to Free Speech. Digus join in and ABC News and would not allow me to Comment which was using their forms of commenting for the public to their sites on-line. Meaning I was being Black Listed. On MSNBC Facebook, Facebook got sloppy with the way they were deceiving me and would show my Comments at the top of say Andrea Mitchell's Facebook page at MSNBC, it would remain at the top of that page the Comment staying there for over a week without there being any Likes or other Comments coming before mine, which a major news company never keeps the same story at a top commentator's site for a week. When this was taking place friends around the USA could not see those Comments by Me on those Facebook pages-accounts, nor could they see the news article I had commented on either - or thought I had commented on. Meaning Facebook was deliberately Censoring the news via communications fraud and deception. When I thought I was posting to Trump's Campaign Facebook pages the same fraud happened after a while. This took increasing efforts by Digus, Facebook, Twitter, ABC News, etc. to stop my comments on details I have listed above and details relating to other forms of Clinton and Obama Government Administration corruption. Now Facebook is doing it again on Fox News - on-line! I - We would like to file a Communications, Consumer Complaint against Facebook and Mark Zuckerberg. As this was happening during the last Presidential Election we took photos of what I thought I was posting but Facebook never posted. And sworn statements from my friends around the USA to the fact those comments were never seen, posted. Censoring allows for continued corruption and will allow the corruption to grow exponentially. The statements the last few days by Zuckerberg were meant to cover what he was really doing by Censoring individuals he did not agree with. And individuals that had facts against the candidates Zuckerberg wanted to win the Presidential Election, which is election fraud through U.S. communications. There is more on details, individuals that witnessed this and the deception Facebook took. Now its just not allowing Me and others to have their Right to Freedom of Speech. Zuckerberg calls this eliminating fake news. When in reality he knows he is Censoring the Truth. My contact information is as follows: (b) (6)

(b) (6) TEXT OR CALLS NO VOICE MAILS, email addresses currently because I do change them are: (b) (6). NOTE: My Father when he ran for mayor of Stockton CA. ran on a platform to stop public corruption, which involved public officials taking bribes, and during his time in office as Mayor, Vice Mayor and City Councilman, those bribes stopped. Communications Corruption has grown exponentially! (b) (6) 2/1/2018 at 7:12AM

## **Description**

What can be legally done about Fox news using their platform as a misinformation and propaganda station? What they are doing in this nation is a disgrace and is wreaking havoc on personal and work relationships around the country. Every person who watches other news channels has a similar take on the politics of Washington but those who watch Fox have a polar opposite view because they are being fed misinformation. Their daily headlines are not factual and instead are based only on a right wing opinion with distorted facts and omissions of truth. They imply to their viewers that they are being given truth when they are instead being intentionally misinformed to the fox line of thinking only. The viewers of fox are told to listen "only to fox" because of the "fake news" everywhere else. Their trusting viewers then disregard all other news outlets as "fake" and disregard all other information that proves fox is lying. Fox is no longer a news station and instead is cult following propaganda station committing heinous acts against our nation and the people in it with their lies. What can be done to stop them so we can begin to right our nation once again with truth in journalism only. You are the FCC. There has to be something we can legally do to stop this.

## **Description**

I had been made aware that a fake news story was circulating about myself on line. I googled 'Memphis police officer (my name). The 4th entry down appeared to be a news story about me getting arrested for indecent exposure and aggravated sexual assault. It appeared to give a local news station url. When you click on the link it brings you to a site called "Create a Prank". It contained a photo of me and the fake news story. It gave an option to request the information be removed, that link takes you to a page titled "Prank Social" and it is there they say the article can be removed but only if you pay a \$99.99 processing fee. The context of this fake news article is detrimental to both of my professions as a police officer and military member of the Air National Guard. I am requesting your assistance in this matter. I have attached the link.

**Ticket: # 2233601 - American media companies acting as a the propaganda arm for North Korea**

**Date:** 2/12/2018 8:12:26 PM

**City/State/Zip:** Houston, Texas 77056

---

## **Description**

This past weekend, many American media outlets reported on Kim Yo Jong visiting South Korea as a envoy from North Korea. Their stories were hyped up with positive coverage/adulation of various sorts based on their own opinions and not any actual evidence. Again, the stories were absent of any polling, empirical data or actual evidence. It was driven by their opinions/feelings and thus, they were not reporting the news but making news based on their own hype. That goes beyond the usual "bias news" to outright "fake news". Reporting not backed up with any evidence, and especially one that helps support an adversarial rogue nation like North Korea cannot be allowed to continue serving as a DPRK propaganda arm. <https://www.cnn.com/2018/02/10/asia/kim-sister-olympics/index.html>

**Ticket: # 2300020 - Suspicious phone calls**

**Date:** 3/13/2018 3:24:55 PM

**City/State/Zip:** Santa Rosa, California 95404

**Company Complaining About:** Meyers Flat, Ca

---

**Description**

I have received several phone calls over the last week from the location of "Meyers Flat, CA". The caller does not leave a message.

The most recent call from the same city was from phone number (b) (6)

I searched Google for this phone number and found it be registered to (b) (6) " who lives in Miranda, CA - which is close to Meyers Flat, CA. The link for the information I found is this

[\(b\) \(6\)](http://usphonecheck.com/whos-phone/(b) (6))

I searched Facebook and found that there is a man named (b) (6) who is from Santa Rosa, CA - which is where I live - and his Facebook page seems to be filled with anti-gun policy, anti-police, pro-Trump and hate speech links, meme's and share's from sites known to cater to fake news, including a linked "News video" from RT - A known propagandist website owned and operated by the Russian Government.

I suspect that the person "(b) (6)" from Santa Rosa, CA is either a real person who's information has been stolen and is being used for spam and spoof phone calls and Facebook presence, or he is a fake persona created to be used in spreading hate and misinformation in a concerted effort to sow division among Americans.

I suggest that this issue be brought to an investigative body that is already investigating the dissemination of fake news and misinformation by foreign powers.

Thank you.

**Ticket: # 2301526 - SAT and Cable Companies STEALING and MISUSING Consumers' money**

**Date:** 3/14/2018 9:45:26 AM

**City/State/Zip:** Sarasota, Florida 34243-4226

**Company Complaining About:** AT&T

---

**Description**

SAT and CBL companies only offer "packages" of channels. Usually 4 levels, the Highest cost before any usable viewing. Money is, therefore, STOLEN, from consumers because channels I NEVER watch, nor would watch, such as CNN, NBC, CBS, ABC and other FAKE NEWS gets a PORTION of my {and all other unwitting consumers}BILL to subsidize their existence! The FCC MUST impose a Regulation that allows BASIC channel subscription on airwaves/channels OWNED BY THE AMERICAN PEOPLE! These Companies act like they OWN them. I would make them offer: a 30 Channels/\$60.00 a month for CONSUMER CHOSEN Basic usage. On their part: Premium Channels, Special Events , Sports packages CHARGE WHATEVER because the Citizenry DOES NOT have to BUY them. This is a FAIR MARKET ADJUSTMENT! VIEWERSHIP must PAY ONLY for that VIEWED! i.e. Let CNN sink or swim on its VIEWERSHIP numbers, Not Subsidized by STEALING {taking MY money and all others, giving some of it to bolster them up!!} I believe PRESIDENT TRUMP should be made AWARE of this situation by FCC. If I don't hear this being discussed in news SOON, I will WRITE HIM and inform him that I CONTACTED the FCC, who should be protecting Consumers from this FRAUD and THEFT, and I am being dismissed. Millions of dollars are involved in this Conspiracy and must be stopped.

---

## **Description**

TV STATION PROFILE

WSTM-TV SYRACUSE, NY and WTVH

Virtual Channel 3 RF Channel 19 Facility ID 21252

Since these channels were taken over by Sinclair, I noticed a definitive slant to the conservative political ideology. With “ specials “ news lacked as TERRORISM REPORT and a recent commentary by the late news team about fake news.

I read that Sinclair has sent their stations pre made “fake news” commentary about national news sources that they require to play under news, not commentary labeling.

Also their commentators are not representative of a variety of political slants.

**Ticket: # 2342997 - News Reporting on Social Media**

**Date:** 4/1/2018 9:26:56 PM

**City/State/Zip:** Castaic, California 91384

**Company Complaining About:** Facebook, Twitter

---

### **Description**

“Fake news” is usually a harsh phrase, the proper term should be unbalanced news. If tv stations are required to be held to such standards of unbiased reporting, as per their station licenses, the mass communication medium of social media should be held to the same scrutiny. If they want news, fine. But that also means they can't, and shouldn't, be able to censor. They can have one or the other, not both as they currently do. Social media largely reaches a bigger audience than broadcast or cable news in the age of chord cutting. I reccomend equal regulation. I reccomend

---

**Ticket: # 2344267 - Sinclair Broadcasting forcing its local stations to promote propoganda**

**Date:** 4/2/2018 9:57:57 AM

**City/State/Zip:** Summit, New Jersey 07901

**Company Complaining About:** Verizon Wireless

---

## **Description**

I am extremely concerned about Sinclair Broadcasting forcing its anchors to recite propoganda stating that other stations are promoting fake news while they are not. Americans trust their local stations - if they want to watch biased news they can watch Fox or MSNBC. This video shows how Sinclair is having their affiliates read verbatim comments, calling other stations fake news but theirs is the real news. <https://www.motherjones.com/politics/2018/03/this-amazing-video-shows-how-local-tv-stations-across-america-are-parroting-pro-trump-propaganda/> The FCC has charged Sinclair with not clearly stating “ the following is the opinion of Sinclair broadcasting and is not the opinion of the anchor or the newscasters”. They need to be charged with this for each of their affiliates and told to cease and desist otherwise their license should be taken away. I personally saw the anchors on WLOS in Asheville make these comments and it was chilling. Was not surprised when I googled who owned WLOS to find out it was Sinclair Broadcasting. PLEASE TAKE IMMEDIATE ACTION ON SINCLAIR'S ILLEGAL BROADCASTS!!

---

**Ticket: # 2346109 - Sinclair Broadcasting**

**Date:** 4/2/2018 4:40:58 PM

**City/State/Zip:** Midway, Georgia 31320

---

## **Description**

I am astonished by the video circulating right now showing local Sinclair broadcasting stations enlisting their journalists to wage Trump's war on the "Fake News." That they spewed, word for word, exactly the same, biased narrative regarding the media, purporting it to be an institution that is intentionally sharing and producing false news, is disturbing. This is a frightening assault on our democracy in and of itself, and to see a company with this much influence over local markets is beyond the pale. The merger with Sinclair and Tribune should NOT be allowed to happen, as it gives Sinclair a disproportionate share of the local markets, in which more than likely, they will abuse with their propaganda, as evidenced by what we are seeing right now. You should have no problems finding this on the internet right now, just about anywhere. This is not good, and I have also let my congressman know my opinion regarding this disturbing issue.

I feel better that I sent it tho...have a nice day.

---

**Ticket: # 2347045 - False Election Reporting by Mike Mahoney. 2nd offence by this station. Slanting elections.**

**Date:** 4/3/2018 12:40:15 AM

**City/State/Zip:** Independence, Missouri 64057-1329

---

## **Description**

Channel 9 KMBC, Kansas City, MO has for a second time falsely reported the news to slant the vote against our elections by reporting 'fake news'. This stations news reporters are bought and paid for by an Independence, MO millionaire trial lawyer. I didn't file a report with the FCC in 2000 against Kris Ketz when he falsely reported against me and never contacted me prior to attending the city council meeting where false allegations were made against me. But tonight when Mike Mahoney falsely reported who was on the ballot was over the top. There are four candidates on the Independence, MO ballot and Mike Mahoney deliberately left off the second candidate Brice Stewart to favor the write-in candidate Matt Medley. He also failed to mention my name as write-in for Mayor but said that Eileen Weir is running unopposed. If Matt's name was not on the ballot, how did he obtain that information but fail to mention someone that was on the ballot second. Mahoney mentioned Deluccie, Huff and Medley (write-in) and that Weir was running unopposed. How did Mahoney report one write-in and not the other one, me? Slanted reporting once again by this station and their license needs to be pulled.

I have attached a link to the Jackson County Election Board that lists the candidates clearly. Please note that Matt Medley and my name are not mentioned as we are both write-ins. The 2000 election Kris Ketz came in to slant the election against me. Both Matt Medley and then candidate (2000) Jason White were supported by the same millionaire and I can provide campaign finance reports to prove it. With all the fake news that is on television, political information has become laughable. This channel's reporters are influencing our elections unfairly and slanting the voters. Mahoney needs to be fired for knowingly falsely reporting the ballot language with not mentioning Brice Stewart and including his name in the graphics too. This was purposely done - blatantly obvious as Channel Nine had been reporting on Huff's police reports, provided by the CEL political group here in town sponsored by the same millionaire. Please investigate my claims and you will see I am telling the truth about Channel Nine slanting elections in Independence, and falsely reporting done by Mike Mahoney who needs to be taken off the air.

He also reports politics on PBS "Week in Review" for Kansas City so I know he is family with our Election Board and how to pull up ballot language. He is in the pocket of the rich guy and reports to help slant the election in Independence, MO . <https://www.jcebmo.org/wp-content/uploads/INDEPENDENCE-LEGAL-04-03-2018.pdf>

Please contact me for further information. Mahoney's report was on the KMBC Channel 9's 9:00 news 4/2/18. Please do something to prevent this from happening again. This is unfair reporting and only you can stop it or pull their license.

---

**Ticket: # 2347242 - "Fake News" reporting/Sinclair Stations**

**Date:** 4/3/2018 8:52:30 AM

**City/State/Zip:** Niles, Michigan 49120-3953

**Company Complaining About:** Sinclair

---

## **Description**

Local news stations (and broadcasters, themselves) were recently required to all present the same blurb about fake news. This was obviously scripted and seriously affects the neutrality of local news stations.

Although local stations are losing ground to the Internet as far as being a source of news, they are seen by many as a valid source of political news. To turn the anchors into puppets of the right-wing media is a travesty of the purpose of news reporting.

Sinclair should not be allowed to force its local stations to use scripted or unscripted messages to promote its agenda and to curry favor with our current President. To be allowed to continue this practice undermines democracy and is a portent of a future where the few control the many, much like Russia or other non-democratic societies.

Although I don't have much faith that my voice will count, knowing that this will be part of the public record and that I have taken a stand against this move away from free speech will have to suffice.

---

**Ticket: # 2347252 - Lying on news casts**

**Date:** 4/3/2018 9:00:32 AM

**City/State/Zip:** Palm Beach Gardens, Florida 33410

---

## **Description**

Good morning.

I am increasingly concerned the FCC has not taken action against FOX television for lying about events affecting our nation. As I understand your agency's rules: lying about real events on news broadcasts is not allowed yet FOX channels continue to mislead the public on events that affect our nation's well being.

In addition, Sinclair Broadcasting continues to force local channels, upon which the elderly are so dependent, to broadcast propaganda from an individual known as "Boris Esphteyn". In addition, Sinclair is forcing local news persons to read a script that casts doubt on main stream news, referring to it as "fake news".

Our elderly are vulnerable and become frightened when subjected to lies about our country on a regular basis.

I am asking the FCC to enforce rules against lying and propaganda on our nations' airwaves; to wit, please open an investigation into "news" channels that lie on substantive issues every day.

Thank you.

(b) (6)

**Ticket: # 2347279 - Corruption of local news**

**Date:** 4/3/2018 9:29:54 AM

**City/State/Zip:** Royal Palm Beach, Florida 33411

---

## **Description**

This is my email to our local Sinclair Broadcasting affiliate:

Remember back in the 80's when John Matthews kept insisting the hurricane would pass over West Palm Beach while the other two local stations were predicting Jupiter? And the eye passed over Jupiter? That's when I stopped watching the "1 2 turn 2."

On February 8th I turned to your News at 11 because Channel 5 was broadcasting a football game. You played a pre-recorded piece introduced by local newscasters about Comey and the Steele dossier and FISA warrants discrediting the Special Prosecutor investigation. Shame on you! Not only is this propaganda but also the fake news you and your Sinclair ilk warned us about two days ago.

I feel Sinclair Broadcasting is destroying the sanctity of journalism. And this station is not representing the audience it broadcasts to; this part of Florida is fairly liberal and Democratic.

---

**City/State/Zip:** Tacoma, Washington 98444

---

### **Description**

The FCC exists to prevent any one entity from controlling our media. A free media is vital to our democracy and Sinclair has control over too much. The message they forced their television stations to read on air accusing other outlets of "FAKE NEWS" is White House propaganda. It's as if my news anchors supported the president's tweets. This is dangerous! Not only to our democracy but to our country. Please stop this from happening ever again.

---

**Ticket: # 2349106 - Fake news-EPA**

**Date:** 4/3/2018 3:46:29 PM

**City/State/Zip:** Lake Forest Park, Washington 98155

---

**Description**

At 12:15, PDST, KIRO 7 news described the EPA decision to roll back MPG standards and displayed emotional and misleading film clips of a smoking exhaust, a smog covered landscape, and a smoking chimney. These were misleading in that the MPG standard would only directly impact CO2 production which is alleged to affect the future climate.

---

**Ticket: # 2353298 - Misuse of News Programming**

**Date:** 4/4/2018 7:16:27 PM

**City/State/Zip:** Jamesville, New York 13078

**Company Complaining About:** Sinclair Broadcasting Group, Inc.

---

### **Description**

Sinclair Broadcasting Group, Inc. is misusing and perverting the expected unbiased nature of local news by requiring local news anchors to parrot corporate messages that further and reinforce the disturbing spread of misinformation and attacks concerning the general media's so-called fake news. In addition, the required substitution of select national news items (for whatever reasons) for local news upon which our communities rely is a misuse of the airwaves and their licenses. Therefore, I would recommend that Sinclair NOT be allowed to acquire Tribune Media.

---

**Ticket: # 2354323 - Sinclair-owned stations' scripted corporate comments**

**Date:** 4/5/2018 11:42:17 AM

**City/State/Zip:** Des Moines, Iowa 50310

---

## **Description**

Sinclair-owned stations' scripted corporate comments regarding so-called "fake news" are reprehensible and show no regard for journalistic integrity. The only way they could be considered accurate is if you stated: "some media outlets, LIKE FOX NEWS, publish these same fake stories...without checking their facts first," and "... some members of the media, LIKE FOX NEWS, use their platforms to push their own personal bias and agendas to control exactly what people think."

Sinclair stations do viewers a great disservice in cooperating with this corporate Orwellian takeover of news broadcasts.

[Ticket: # 2364262 - Sinclair/tribune merger](#)

**Date:** 4/9/2018 6:46:40 PM

**City/State/Zip:** Portland, Oregon 97202

**Company Complaining About:** None

---

### **Description**

I am calling to oppose the merger of Sinclair & Tribune. This merger would result in turning 72% of local news around the country into editorial content with a right wing bias. "Trump TV" is harmful for a democracy. I have come to expect local news reporting to remain unbiased reporting with no editorial content. Also, manipulating a population with fake accusations of fake news is harming basic trust in journalism. This is how dictators operate and we in America are supposed to be a democracy. I am upset that I even have to remind the FCC of this.

Please do better!

**Date:** 4/11/2018 12:36:52 PM

**City/State/Zip:** Kirksville, Missouri 63501

**Company Complaining About:** Cable One

---

## **Description**

I am writing about my concerns about the current set of channels and news we receive in a very small geographical area in northern Missouri.

Recently the local anchors or two of our local channels that are located in the same building ABC and CBS. The NBC station is located 60 miles away.

The main anchors, Marlene Speas and John Garlock, created an on-air promotion inviting people to contact them with their concerns. They assured viewers they would receive a reply. No such reply has been forthcoming. Other people who wrote them said the same - no acknowledgement or reply. Much of what they said in the promotion was Sinclair Broadcasting prescribed patter.

Here is the email I wrote to them:

We have been Cableone customers and KTVO viewers for almost four decades. We have watched both of these anchors-among many others-provide the news. In the past, the reason we refused to cancel Cableone was other viewing options did not (until very recently) include our local station.

Currently, before and after the national news broadcasts, all we get is local news on every major station: ABC, CBS, and now - NBC. Most information/news stories are repeated over-and-over during each local broadcast. While this was tolerable when Cableone included other statewide stations, now it is not.

Last year we noticed a distinct change in the approach and content of KTVO news coverage. Even before that, we observed that KTVO provided little to no statewide news and, specifically, information concerning Jefferson City. While it is clear it is a local station and as such would be expected to spend the majority of air time covering this area, one would anticipate at least a nod to the rest of the State of Missouri.

In the past we had alternatives for additional information with Quincy, Illinois and Kansas City, Missouri stations in the Cableone lineup. Last year our final statewide station (KSHB Kansas City) was removed from our cable and NBC became part of a local package. The consequence of this change is Kirksville and Ottumwa now provides all three traditional broadcast television networks in the United States: ABC, NBC, and CBS. Therefore, they have the corner on the market audience located within a very small, rural geographical area.

Among other things in their promotion, Marlene and John refer to false/fake news and claims to provide fair and balanced views. What? How can that be possible? What little news provided outside that of the "heartland" is canned, prerecorded, and conservative. This "news" includes such items as the Terrorism Desk, Full Measure with Sharyl Attkisson, and the conservative editorial commentary of Boris Epshteyn and Mark Hyman. Fair and balanced? Another Sinclair employee, Kristine Frazao, is

introduced by the news anchor here as "our" national correspondent. Yet another example of news clips manufactured by Sinclair Broadcast Group. Fair and balanced? No.

These issues and others are causing us to seriously reconsider our viewing habits. After 38+ years we are now investigating alternatives to Cableone.

**Ticket: # 2371296 - Mergers**

**Date:** 4/11/2018 11:34:31 PM

**City/State/Zip:** Seattle, Washington 98116

**Company Complaining About:** Comcast

---

### **Description**

I do not support any mergers that have the potential or in practice deliver directed propaganda across many news media sites. It is clear Sinclair has a political intention and mandatory policies for many stations to publish the exact same news clips without choice of each station to make an independent decision of whether or not to broadcast it. I beleive all news should be as truthful as possible..there is no place in our democracy for propaganda/fake news! Thank you.

**Date:** 5/24/2018 12:41:41 AM

**City/State/Zip:** Carpinteria, California 93013

---

## **Description**

Fox "News" should not be allowed to call themselves "news" it's a propaganda machine of the Republican party often misleading the public which is criminal. For example, they have been misleading the public for years discrediting science on global warming and now they are spreading the conspiracy theory of the FBI spying on Donald Trump in an effort to distract from focusing on Donald Trump's collusion, obstruction of justice, money laundering and other shady business dealings. It's a disgrace what this President and Fox News is doing to our great nation! Fox News should (have been a long time ago already) stripped from allowing to call themselves News and they SHOULD BE FINED AND IMPRISONED FOR INTENTIONALLY MISLEADING THE AMERICAN PEOPLE! This sort of propaganda machine enabled the rise of Hitler and is toxic to our democracy. They are the real fake news Donald Trump claims to be the only true one! It's a shame that this could happen in our country. Who can hold them accountable if not the FCC?

**Date:** 6/11/2018 2:39:11 PM

**City/State/Zip:** Lexington, South Carolina 29073

---

## **Description**

Biggest Scandal In American History = SOLVED SMOKING GUN

Hillary Echochamber of Enslavement = start / Fake Mainstream Bad News > in > echo-chamber = Fake Social Media (truth confirmation) > Opposite truth ...

Last night I was chanting, saying I was Master as Trump ... and I stopped, even expressed how it'd be too tempting to use for evil purposes ... any questions ... SOLVED!

\*\*\*\*\* Pavlovs dog: bell > saliva

Echochamber: (hear) fact ck > (thought) who's lying now? > (feeling) uncertainty [opposite of confident] > (action) look to phone for social confirmation [this is human nature and easiest, I'm just as lazy, more so!] > have our slaves be confirmed of our truth!

In real life, we look to other people to see if something in 'question' is true or not ... Social Media with Mainstream Media ... you rule it all ... you create every days news cycle ... it is because Master says so ...

The evil genius is social media hi-jacks our natural instinct to look to other people for confirmation when we're alone, and by default naturally, everyone would look to their phone to 'alleviate' the uncertainty feeling and if you're phone is showing you FAKE STATE SPONSORED SOCIAL MEDIA ... and if the beginning of the echo begins with STATE SPONSORED FAKE NEWS ...

Beg of chamber FAKE NEWS > echo chamber > Fake Social Media > End of chamber = FACT checked ...

It uses human nature so phenomenally ... this is amazing! I figured out how Hillary and Obama tried to steal our country with 5 days of effort ... how else do we explain this insanity ... if it's not Hillary's bitterness!

We saw what she did ... she ruined lives! Tell me this doesn't make PERFECT SENSE? And still who do we tell? I don't trust anyone other than Trump directly and himself!

\*\* It's all on FB profile much more ...

## **Description**

I'm wondering if the Feds really do want equal justice for one and all. If they can force Facebook into policing the content of users, then shouldn't T.V. stations be forced into policing the contents of what they broadcast? It seems to me T.V. stations have much more control over what hits the airwaves than what Facebook does over the WiFi signal.

Now I ain't no pundit, but it did occur to me while trying to find a T.V. station, so as that I could watch the news. But every one of the 7 stations that my T.V. set gets, was showing an infomercial.

Now, can someone explain to me the difference between unregulated fake news, and unregulated fake get rich, get thin, get beautiful, or get lucky infomercials?

If the Feds want to make certain the only news its citizens get is on the up and up, well it outta check into the infomercial market too. Just sayin'.

**City/State/Zip:** Bozeman, Montana 59715

---

## **Description**

This is a follow-up to your previous request #2046184 "Russia pushing fake news us..."

just FYI, have not heard what action FCC has initiated to ensure those granted licenses on public airways are in compliance with licensing regulations and their duty to provide a public good and serve the public interest.

I am concerned that at least some public airways are now used to promote and disperse information and opinions which cannot be supported by data or factual evidence, &/or a political agenda counter to the public good.

I realize the FCC may now be governed by those who have been part of the co-opting of our democracy through their ties to Verizon, Koch industries, the Mercers and the "right's" desire to amass power through divide and conquer politics, however, I hope for the sake of your children's' future or whatever is best in you, that you might consider how we might go the way of Rwanda or the third reich if hate based lies are allowed to continue on PUBLIC airways.

The public is generally misled because MOST still believe the Fairness Doctrine is in force and so if that is all they hear on their rural station it must be true!

Naive yes, but predicated on past regulations that gave them the precedent to trust their radios!

**Date:** 8/2/2018 10:43:55 AM

**City/State/Zip:** Brentwood, Tennessee 37027

**Company Complaining About:** Comcast

---

## **Description**

Hello , I am writing this complaint because Comcast as my TV provider has now taken away the BBC network channel 95 from my basic cable tv listing. Holding it hostage for 9\$ more each month. The fake news media has never liked the BBC because its an outside global news source that is very important to the understanding we as American have unalienable rights when it comes to the press and free speech, with Amendment rights. Blocking an outside America News source really makes and unfair advantage to all the other news agency that are still available for our channel line up. You should block all news from the line up, if you are taking it away to be fair, Take for instance the War in Syria, American News hardly covered any of it, Like what War haven't heard of whats going on because its being kept out of the eyes of the American News. Where as the BBC covered it most intensely and was a true news source covering events that are not filtered from our News broadcasts till now. After calling comcast and speaking with an customer support they said it was the higher ups decision to revoke from basic line up channels and there hands were tied to help me regain it. As I have been a loyal customer for 5 years, and had gotten this channel each month till now. I feel like I have been robbed of a constitutional right to have proper access to Press and freedoms of information Act. Please reconsider this mistake we as free people require news information that is unadulterated by fake News.

**Ticket: # 2692962 - Television Indecency Complaint**

**Date:** 8/8/2018 2:57:36 PM

**City/State/Zip:** Madison, Alabama 35758

---

**Description**

To whom it may concern,

Since the beginning of the 24 hour news cycle, I have seen a steady decline in the actual news being reported commensurate with an increase in the amount of opinions being solicited. While the Freedom of the Press is guaranteed in our Constitution, as is Freedom of Speech, media sites and outlets appear to be reducing the differences between Press and Opinion.

What is the FCC's role in regulating the news and Press?

Is it possible for the FCC to enact regulation or place restrictions on news outlets from providing opinion over factual-based news? For example, could the FCC enact rules which prevent media outlets from using the term "News" to describe networks or broadcasts that do not actually provide a percentage of programming and information (95% or more) of factual news? Could the FCC restrict media outlets, programs, networks, publications from calling themselves "news" sources and press if the content of the programming or publication is more than 5% opinion or advertising?

The intent behind such prohibition on the use of "News" is to establish the difference between media that is used to inform the public of what is actually going on in the country and the world and differentiate it from those outlets that provide more interpretation and opinion of what is going on in the country or world. I think making this distinction will help root out the base of "fake news" as well as satire and similar comedic relief against outlets that are actually providing a public service to provide information.

Thank you,

(b)

Radio station WOKV published on its website [www.wokv.com](http://www.wokv.com) libelous information, where my character is being attacked. My representative and me contacted WOKV and asked to have the article removed many times. WOKV refusal to comply despite knowing its fake news, clearly is a violation of my rights and defamation of my character. The article containing false defamatory information is active via this link:

<https://www.wokv.com/news/local/jacksonville-doctor-license-restricted-over-sexual-misconduct-complaint/EuEDG5inqrvmX6VkXsETJ/>

The spreading of false information and slanderous article on WOKV website causes irreparable harm to my good name, reputation and business that I have been building for years.

I am seeking for WOKV to cease and to desist their unlawful defamation by removing all and any articles on website, affiliate RSS feeds, news print, blogs and syndications for the pain and suffering WOKV has forced me to endure since publishing the false accusations.

## **Description**

There are more conferences other than the SEC if they want to down all other conferences then they should air SEC games all the time. That is for all the channels they are affiliated with. They will not be around long. Then we will get more real sports networks that are not trying to control university with fake news and trying to make new recruiters think about leaving before a decision was made. How would they even know the out come of a head coach that was still being paid by the university until the hearing. I believe that THE OHIO STATE UNIVERSITY needs to donate his fine to domestic violence programs around central Ohio.

---

## **Description**

A company purporting to be the help line for Optimum, Verizon, AOL and several other companies was very quickly revealed to be what sounded like a sophisticated scam using google search optimization to acquire its business. I told him I was looking for Optimum. "I can help you with that." Then I told him I was looking to lower my Verizon bill. "I can help you with that." When I hung up, they call right back, via other toll free numbers (see below). When I told him he was running a scam, he laughed, and made fun of FCC for being fake news! Please do not share ANY of my personal information (obviously) with the unknown party, probably foreign-based, that I am trying to serve with some justice. In addition to the 800 596 2947 that I suggest you google, they called me back from 833-899-6555 and 888-276-5255.

## **Description**

I was on the Internet recently and found a plant that has the scientific name of *Hatiora Salicornioides*. The common name for the plant is Spice Cactus. I also found a reference to the plant as "Drunkard's Dream" and "Dancing Bones."

I find these other names for the plant facetious. Will you please remove any reference to this plant as drunkard's dream and dancing bones or any other facetious name.

My issue does not have anything to do with an Internet provider or billing, but I don't know of any other way to change what is on the Internet other than to write to you. You should add other categories under Internet Issues. The other categories could be  
Indecent and profane-remove or re-categorize,  
fake news,  
facetious,  
restricted or classified not suitable for the general public.

If you are not the people that I should report these issues to, then please let me know where to report them.

Updating the information for the Spice Cactus would make me feel so much better!

## **Description**

I am filing ANOTHER complaint against ATT - YAHOO NEWS and internet - email provider/service -

[https://start.att.net/news/read/category/news/article/marie\\_claire-why\\_this\\_photo\\_of\\_alysa\\_milano\\_and\\_brett\\_kavanaugh-hearst](https://start.att.net/news/read/category/news/article/marie_claire-why_this_photo_of_alysa_milano_and_brett_kavanaugh-hearst) SAYING " Why This Photo of Alyssa Milano and Brett Kavanaugh Is Going Viral " this is FAKE NEWS !! there is no photo of them shown together as the article capture would like its readers to believe !!! WHEN IS THE LIBERAL MEDIA GOING TO START BEING SITED AND EXPOSED BY THE FCC FOR ALL THE LIES AND DECEIT AND DIBILITATING INFO THEY STIR UP AND DISTRIBUTE ?? ! THEY SHOULD BE SUED FOR PERJURY AND SLANDER OR LIBEL I DONT KNOW WHY ITS NOT BEING DONE THEY EVEN THREATEN PRESIDENT TRUMPS LIFE AND GET AWAY WITH SUCH DISPICABLE VICIOUS REMARKS AND COMMENTS AND SAY HORRIBLE THINGS ABOUT HIM ON LATE NITE TV I CANNOT BELIEVE THE HYPOCRACY AND BIAS FROM THE LEFT YOUR AGENCY IS PART OF WHAT THE FIRST AMENDMENT IS ABOUT WHY ARENT YOU DOING YOUR JOBS ? I THOUGHT IS WAS CRIMINAL TO THREATEN THE LIFE OF A U.S. PRESIDENT ?? GOD FORBID IF A REPUBLICAN DARE SAY ANYTHING BAD ABOUT OBAMA OR ANY OF THOSE DIRTBAGS AND THATS BEING NICE ! NOT TO MENTION DIANE FIENSTIEN EMPLOYED A CHINESE SPY FOR OVER 20 YRS AND HAS HOLLYWOOD CRONIES ANTI TRUMP SUPPORTERS GAIN ACCESS TO A FEDERAL HEARING AND THEN ATTEMPT TO RECORD IT WITH HER CELL PHONE FOR WHAT IS CONSIDERED A FEDERAL CRIME CONTEMPT OF COURT AND NOT GET ARRESTED BECUASE SHE CONSIDERED TO BE PART OF THE ESTABLISHMENT OF EXCEPTIONAL PERSONS OF INTEREST WHO ARE ENTITLED TO HAVING THEIR WAY ISNT THAT WHY SHE DEMANDED KAVANUAGH TO NOT BE NOMINATED FOR SCOTUS IN 2018 ? BECUASE THIS EXCEPTIONAL ESTABLISHMENT KNOWS THAT IF HE WAS TO BE NOMINATED HE IS GOING TO STIR THE POT AND MESS UP THEIR HOPES AND DREAMS OF DESTROYING AMERICA COMPLETELY !! LIBS HAVE ALREADY MESSED UP CA SO BAD IT WILL BE A MIRACLE SHOULD A REP GOVERNOR ONCE MORE BE ELECTED !! I LIKE TYPING WITH UPPER CAPS SORRY IF I'M NOT BEING PC -

Alyssa Milano recording the hearing on her cell phone in the court room isn't that against the law >?? and then to post in on twitter and its get put on other leftist webpages >? why wasn't she arrested ? because she a holly wood - celebrity ?

[https://mashable.com/article/alyssa-milano-kavanaugh-hearing/#lSdB\\_eigiqB](https://mashable.com/article/alyssa-milano-kavanaugh-hearing/#lSdB_eigiqB)

The article reads "WHY THIS PHOTO OF ALYSSA MILANO "AND BRETT KAVANAUGH " IS GOING VIRAL " this is a total lie !! there is no photo of them both together in this article and how ( i know exactly why it was posted because the liberal social media and hollywood are all khoots ! This is disgraceful !! the FCC should be doing something about ALL OF THIS AND IF NOT WE NEED THE DEPT OF DEFENSE to get involved there is censorship against AMERICANS taking place to silence the people who support the FIRST AMENDMENT !! your agency is suppose to be incharge on licensing and proper transmissions and regulations but i am beginning to think the FCC is no better

than the ones doing this to millions and millions of American TRUMP supporters !!! this is unconstitutional and illegal ! you should know that !! why I am having to preach to your agency is beyond me. Whoever posted this article posted their twitter acct information at the bottom of article and I told them exactly what I am telling you - and then there was a comment about persons like myself commenting on the site and i commented right back THEN YOU SHOULDNT BE POSTING YOUR B.S. ON WEBPAGES WHERE REAL AMERICANS LIKE MYSELF WONT SEE YOUR LYING CRAP !!

WE ARE FED UP WITH ALL OF THIS AND THE CORRUPT DEEP STATE FEDERAL GOVT WHO IS ALLOWING THE CAREER AND LIVIHOOD OF A CREDITABLE AND DECENT WHITE AMERICAN "MALE" AND ALLOWING VETERANS AND FORMER GOVT EMPLOYEES LIKE MYSELF BACKGROUNDS CHECKS ALL 21.5 MILLION TO BE COMPROMISED UNDER THE OBAMA ADMIN. IN 2015 WHEN HE APPT AJAI PAI TO BE CHAIRMAN AND AMERICANS HAVENT HEARD A WORD ABOUT WHAT HE PLANS ON DOING ABOUT THE ATTACK ON THE FIRST AMENDMENT ! SHAME ON YOU !!! SHAME ON YOU FOR ALLOWING THIS TO TAKE PLACE IN THE GREATEST NATION IN THE WORLD ! PERHAPS YOU DONT CHARISE YOUR FREEDOM OR THE PEOPLE THAT HAVE SACRIFICED THEIR LIVES TO PROTECT IT FOR THE PEOPLE WHO LIVE AND THRIVE IN IT !! WE PAY YOUR PAYCHECKS !!! I USED TO WORK FOR THE GOVT I KNOW !!! IN FACT I WORKED FOR THE INS PRIOR TO 9 11

<https://www.youtube.com/watch?v=1B4W7F2-WtA> SAYING BRETT KAVANUAGH WAS YELLING DURING HIS TESTIMONY ! REALLY !! HE'S WAS GENIUNELY PISSED AND RIGHTFULLY SO !! WHY ARE YOU ALLOWING ALL THESE SCUMBAGS TO GET AWAY WITH ALL THEIR LIES AND DECEPTION ?? DONT YOU HAVE A CONSCIENCE ?? I AM BEGINNING TO WONDER I REALLY APPRECIATE CHINA AND GOD KNOW WHO ELSE HAVING ACCESS TO OUR BACKGROUND CHECKS THEY MOST LIKELY WANT TO DO HARM TO AMERICANS SO THANK YOU VERY MUCH FOR JUMPING ON THAT NATIONAL DISASTER WE ALL KNOW HOW MUCH YOU CARE ! AS LONG AS ITS NOT EFFECTING YOU AND YOUR FAMILIES ITS NO PROBLEM RIGHT >?? TYPICAL LIBERAL DEMOCRATIC POLITICAL THINKING !!! AJAI PAI HAS SAID NOTHING ABOUT IT !! IT ALL GETS SHOVED UNDER THE MUSLIM RUG THAT ONCE WAS IN THE WHITE HOUSE ! I DONT CARE IF HE DECLARES HIMSELF A REPUBLICAN TO ME HE'S A LIAR AND A FAKE AND EVEN MORE SO BECUASE HE WAS APPOINTED BY OBAMA AND CLINTON WHO IS ALOT TO BLAME FOR THE ENTIRE INCIDENT ! <https://yournewswire.com/youngest-leader-george-soros/> THE PROPAGANDA AND DISINFORMATION ACT SIGNED BY OBOMA BEFORE HE LEFT OFFICE WHATS UP WITH THAT >?? ! SO NOW WITH DOCUMENT FRAUD ON THE UPRISE DUE TO OPEN BORDERS THANKS TO MR OBAMA AND THE CLINTONS AND THE BUSH ADMIN THIS JUST PLACES MORE AMERICANS ESPECIALLY PEOPLE LIKE MYSELF EFFECTED BY THE OPM BREACH IN 2015 IN HARMS WAYS AND IT WASNT EVEN MENTIONED ON LIBERAL SOCIAL MEDIA ! GO FIGURE ! MAKING MORE RISKS FOR DOCUMENT FRAUD AND POSSIBLE TERRORIST ATTACK(S) NO WONDER THE OATH OF OFFICE WAS TAKEN OUT BY OBOMBA GOD FORBID HIS NAME IS MENTIONED THE PLEDGE OF ALLEGIANCE FROM THE SCHOOLS BY BILL CLINTON THE LIBERAL SOCIAL SECURITY HEARING JUDGE DIDNT SEEM THINK IT WAS NECESSARY TO SAY IT EITHER AT MY HEARING IN SAN JOSE CA OF COURSE I WAS DENIED MY OWN BENEFITS BECUASE THE GOVT NEEDS ALL THE HARD WORKING MIDDLE CLASS TAX PAYERS TO PAY FOR ALL THE CRIMINAL ILLEGAL ALIENS AND ASSISMIALATION GRANTS FOR ALL THE CRIMINAL REFUGEES COMING HERE. I DONT TRUST PEOPLE THAT WONT MENTION GOD THATS EXACTLY WHATS WRONG IN THE COUNTRY TODAY "TOGETHER WE STAND DIVIDED WE FALL" BECAUSE OF THE LIBERAL LEFT AGENDA 21 AND TO APPEASE MUSLIMS AND AS IF ITS NOT BAD ENOUGH OUR BRAVE SOLDIERS THAT FOUGHT FOR 13 HOURS DURING

BENGHAZI TOLD THEIR LIARS AND NEVER APOLOGIZED TO THIS IS DISPICABLE !! THE FEDERAL GOVT AGENCIES AND FEDERAL EMPLOYEES ARE DISPICABLE !

<https://www.infowars.com/shock-video-democrats-literally-boo-america-physically-attack-alex-jones-at-austin-event/> All these domestic terrorists should all be deported along with the rest of all the

ILLEGAL ALIENS AND REFUGEES that's half the problem with the country right now ! Nazi sympathizer George Soros should of been deported along with Jakiw Palij

<https://www.nytimes.com/2018/08/21/world/europe/nazi-guard-deported.html> after 15 YRS he was finally deported !!! I CANT STAND THE HYPOCRACY AND BIAS LIES AND STORIES THEY SAY ABOUT A MAN THATS DONE MORE FOR THIS COUNTRY IN THE LAST TWO YEARS THAN THAT DIRTBAG OBAMA DID IN THE EIGHT YEARS HE SPENT TO DESTROY AMERICA !! HOW MANY VACATIONS HAS TRUMP TAKEN >?? HE"S NOT GOLFING IN HAWAII THATS FOR SURE !! EVEN THOUGH HE DESERVES TO BE !!! I hope the FCC will do something about the issue I mentioned about posting lies on the ATT - YAHOO NEWS Thank you

## **Description**

On countless nights now cnn has stoked flames in this nation with fake news and blatantly fake information. That was one thing. Now its another. Now its blatant racism and hatred against an entire group of people. Its an incitement of violence against a race of people. On at least 2 occasions now, Don Lemon, on his show has said " the biggest terror threat in this country is white men". This is completely unacceptable and illegal under the current law. This is blatant racism. This is blatant hate speech. This type of rhetoric would not be allowed if you replaced the word white with black or muslim or any other group. With any other group, this type of rhetoric would be called hate speech, would be banned by law, would be considered incitement to violence. With how far cnn has gone, with how they have so blatantly violated law, and common decency, it is now time that I and everyone else demand cnn be removed from our airwaves. They are now bordering on treasonous behavior on top of their blatantly illegal and racist acts.

**City/State/Zip:** Garden Grove, California 92842

---

## **Description**

CNN continually, willfully, knowingly & maliciously & to the detriment of our nation & its populace broadcasts fake, misconstrued, only partially reported, inaccurate & cunningly crafted fabricated stories unworthy to be referred to as NEWS. Most of these are directly related to Pres Trump, but a good many relate to other Republicans in office or who are candidates, other networks' broadcasters, sponsors or supporters of the Pres & current legislative or court actions. Often NO sources are sited, verified or even exist, which should be considered for what it is, a fraud in reporting news. All fraud against providing the public with information should immed stop or fines levied & ultimately, their FCC license should be revoked. This is an ongoing problem which began at least as early as the outcome of the Presidential election & permeates throughout their various news programming.

## **Description**

I take offense at MSNBC, CNN, FOX, cable networks operating as talk shows in an official guise of news (as granted by the FCC) where executives are allowed political discretion to intentionally slant news. This 100% programming consists of individual "talking heads" that claim themselves as "journalists" but are "entertainers" making money through talk and gossip.

The FCC should BAN the use of visual aids, such as banners and indicators of "news" and "breaking news," and running continuous text as "news from the wire," or use a desk or other props in a set to make the "entertainer" look like a legitimate "news" person, and implement the INCLUSION of visual aids, such as banners and indicators of "talk," "this is not news," or "this is opinion," in an Arial text, bold, highlighted or continuous flashing, to ensure a viewer that they are in fact watching a "talk" show like Dr. Phil, Oprah, Ellen, etc..

"Fake News" is the appearance of talk as news, and the FCC needs to protect Americans from biased political opinions of a media intent on operating clearly as a Communistic State Run regime.

## **Description**

Complaint about how the centralized ownership of local TV stations by Sinclair Group Network across the US is used to promote political and ideological propaganda.

Here is the letter I sent to the Network:

Earlier this month, KUTV broadcast a special program titled "Inside Socialism" and narrated by Sebastian Gorka. After viewing it, I must deplore this type of programming as a false documentary anchored in inappropriate political and ideological propaganda.

It appears that KUTV's and Sinclair Network's goal is to spread fear and support a hidden political agenda, instead of reporting facts and perspectives using objectivity and journalistic standards.

Sadly, this is not the first time that KUTV and Sinclair broadcasting affiliates have aired bias programs and messages. Earlier this year, scripted promos about "fake news and social media" was another example of ideological manipulation that only contributed to the problem and is, ironically, an overall disservice to democracy.

I implore all KUTV staff members and all of Sinclair's local stations to stand up for objective journalism without the interference of a centralized political agenda imposed by a few people that have only their own financial and political interest in mind. Until this trend is reversed, our family will ignore all programs and messages from KUTV and the Sinclair network. Furthermore, we will make sure not to buy/support any product advertised on your network.

Regards,

---

## **Description**

Last week, my boyfriend stole an ambulance from our local hospital & got over 40min down the road before being stopped..He is suffering from severe mental illness & had a psychotic breakdown.The news was very quick to jump on this story & the news reporter mocked him on live tv..This was on Dec 10th on the news.What wasn't said to the public,was that Rory Guidry was a mental patient at the hospital at that time & that no cop or guard was monitoring outside of his door & that he freely walked out the ER doors while still in the custody of the hospital.They did not notice he was missing until 30min later then didn't notice the ambulance was missing either.The news reporter made fun of Rory Guidry's excuse to the authorities as to why he took the ambulance & that he was planning to go to the airport & sneak on a plane to Japan.The news totally reported fake news & didn't tell the truth in it's entirety,then the news reporter saying, '& get this' when he was telling the story as to why Rory was taking the ambulance.The supervisor of the ambulance dept called me, saying that not one drug was tampered or missing in that ambulance.The judge has taken Mr.Guidry out of jail & put him into a mental facility,where he can get the proper treatment he needs.Not one illegal drug was found in his system..We would appreciate a re-cant of the story, that it be told in it's entirety,w/out Mr.Guidry being made a joke of on live television.

## **Description**

On 13 Feb. 2018, Maze Jackson notified WVON listening audience to call the Mayor of Chicago and the President of the Chicago Park District and tell them that a pedophile was working for the Chicago Park District by the name of "KEVIN GLOVER"(myself) of a crime that allegedly happened over 30 years ago. This action by Maze Jackson and WVON forced me to resign from my position as Supervisor of Chicago Park District Security. I have tried to get a copy or transcript of The WVON morning show for 13 February 2018. But no-one seems to be able to find it, which I find strange also. WVON and Maze Jackson know that they have committed violations and crimes against myself and family. More than likely destroyed the recording or transcripts to protect themselves from the harm they cause me and my family by reporting issues that are not true.

## **Description**

I stopped watching KUSI in San Diego, this FAKE NEWS years ago! Their obvious right wing tendencies do not offer a fair or balanced look at what is happening in our world today! They may as well call themselves "FOX FAKES" because of their refusal to share the truth about the clown in the White House is obvious. I guess they are ok with the clown's disdain for a free press because they have chosen to hide the real truths from their sycophant viewers.

John Coleman's idiocy about climate change did it for me! I once turned to their "station" for local news coverage but began to realize I couldn't take it anymore! KUSI is as reprehensible as the idiots in the House and Senate who have decided to bury their heads in the sand and allow this FAKE PRESIDENT to ruin the country I love.

**Ticket: # 3225853 - Aspen Dental abuse of public internet platforms**

**Date:** 5/1/2019 12:20:39 PM

**City/State/Zip:** Port Charlotte, Florida 33948

**Company Complaining About:** Aspen Dental

---

## **Description**

Aspen Dental uses both the Facebook and Google platforms to solicit feedback from patients via a 5-star review format. These reviews are faithfully reproduced on both platforms; however, when these reviews are accessed from the Aspen business site, all of the 1 and 2 star reviews seem to be deleted. Since a very substantial number of these negative reviews exist, the Aspen version of their patient base feedback is grossly distorted. Both the Facebook and Google brand names are used as links when used on the Aspen business site to access these reviews. I do not know the Facebook and Google policies concerning this situation, but I consider it an abusive marketing technique. Both Facebook and Google have tremendous marketing power and enjoy a certain degree of public trust. In my opinion, it is in their long term benefit to prohibit this abuse of their brand names. If it is not a policy violation of these companies, it should be. I also suggest that it is the responsibility of the FCC to police this distortion of public opinion on the internet. This deception is not "puffery", but deliberate deceit. It is an obvious example of "fake news". Aspen may feel no obligation at all to truthfully reproduce the entirety of their patient feedback; however, Facebook and Google seem to be complicit in this gross deception. In my opinion, Aspen uses the full range of these reviews to determine employee compensation as based on their "profit sharing" business model. If Aspen also chooses to reproduce these reviews on their business site, they should show all of them or none of them. In addition, since Aspen Dental is a branded national franchise of Aspen Dental Management, Inc. (ADMI), the Interstate Commerce Commission should also look into this abuse of the internet and since ADMI is controlled and managed by a U.S. private equity company and other Wall Street interests, the U.S. Congressional Finance Committees should investigate this abuse of public opinion data.

## **Description**

I think it's important that I inform a public official of this matter, but I'm not sure there's anything your office can do about it.

The FCC is interested in studying fake broadcast news?

**\*\*Source: Reuters\*\***

May 11, 2019

# U.S. states accuse Teva, other drugmakers, of price-fixing: lawsuit  
December 16, 2016

# U.S. states sue Mylan, Teva, others for fixing drug prices

The articles are almost exactly the same. The names of politicians have changed.  
Is this fake news? A drug fixing AARP magazine was delivered to our home today.  
I don't know how long this has been going on but I have documented a lot of examples of it.

Perhaps, promoting freedom of the press and privacy rights might help.

Thanks again for the work of your office.

Best regards,

(b) (6)

**Ticket: # 3274990 - Cable tv misrepresentation**

**Date:** 5/17/2019 10:17:44 PM

**City/State/Zip:** Anna, Illinois 62906

**Company Complaining About:** Cnn And Msnbc

---

## **Description**

I wish to file a complaint against MSNBC and CNN news networks for misrepresentation of "NEWS" but is actually political commentary. Many older and younger people have been under the believe that everything said by these two networks is the truth. Ffrankly they are owned by DEMOCRATIC ACTIVISTS who have reported up to 94% NEGATIVE Stories on their channels in concert with the Democratic National Commitee to take down a legitimately elected Prersident by rreporting FALSE reports about this President for the past 2 year in an attempt to remove him from office. Here is the problem. What viewers perceive as FACTUAL NEWS IS NOT! It is their Democratic liberal owners who make the stories and the stories have been filled with lies and false stories in an attempt to undermine the President and sway voters against him and the Republican candidates. I ask, rather demand, that any program where programming is 60% or higher negative against the President have a "WARNING LABEL" as follows: This Program is Polical Commentary and is opion based and is not a NEWS NETWORK. It should appear after each commercial break. I believe in freedom of the press, but significant abuse has taken place over past 2 years and viewers need to know that all they hear is not the facts nor the actual truth of the matter as it has a history of fake news. Please confirm receipt of my complaint. Thank you, (b) (6), Anna, Illinois 62906

## **Description**

Thaddeus Matthews who has a broadcast with the SVP Network, located at 3765 Premier Cove, Memphis, TN 38118 on Comcast Channel 31, on or about Friday, June 27, 2019; aired the Thaddeus Matthews Show. During this broadcast which airs Monday through Friday from 7:00PM to 9:00PM, Mr. Matthews during his broadcast used my full name and picture WITHOUT my permission. He stated that I was lying about my getting raped on or about Sunday, June 23, 2019. He shamed and defamed me, being a victim of rape. The rape investigation is on-going and he presented information that was allegedly leaked to him by the Memphis Police Department, The Fraternal Order of Police, and allegedly by the lawyer of the assailant. Mr. Matthews violated my privacy and has made my life difficult as a citizen of Memphis, TN. Mr. Matthews broadcast reaches allegedly over 300,000 homes. I feel unsafe as a result of this man violating my privacy, defaming my character, and slandering my name using circumstantial evidence allegedly "leaked" to him when the evidence has not been substantiated as being valid regarding the case at hand by law enforcement. Mr. Matthews allegedly has a reputation of this type of indecent behavior here in the City of Memphis and has had numerous complaints regarding indecent, non-factual journalism (fake news). Please Help!

---

## **Description**

The Cantonese morning news has fake news. It reported the protest in Hong Kong on 7/21 with untruthful statements. It misled the audiences to the conclusion that the protestors was violent mobs, while many video clips in social media showing the opposite. On the other way, it reported the riot in the other place in the same time with a very short air time. It avoided reporting any facts that would be against the Hong Kong government and its Police. The news selection and air time were really in bias.

**Ticket: # 3430168 - No audio on Spectrum TV app on Fox News only.**

**Date:** 7/31/2019 9:03:32 AM

**City/State/Zip:** San Antonio, Texas 78209

**Company Complaining About:** Spectrum

---

## **Description**

Last night between 6:30p and 7:45p Central Time, there was no audio when watching Fox News on the Spectrum App on ROKU. I scrolled up/down over 75 other channels and all of them were working fine except for Fox News on the evening of the Dems' debate on fake news CNN. This is an outrage. FCC needs to do something about this issue or we will all be watching State Run TV in the future. I am formally filing a complaint against Spectrum TV and more people need to do the same about their service providers. I went on Twitter and noticed about 20 people tweeting about the same thing, no sound on Fox News only. Ask\_Spectrum on Twitter did respond to my tweet about the incident and said there did seem to be a problem and they were trying to fix it. I called Spectrum customer service and the agent was very nice but had no answers for the issue. Someone needs to reel in these liberal companies and their corrupt habits when providing internet, TV services to the public.

[Ticket: # 3449771 - Yahoo is displaying truly fake news.](#)

**Date:** 8/7/2019 8:29:07 PM

**City/State/Zip:** Lubbock, Texas 79416

**Company Complaining About:** Verizon

---

## **Description**

First of all I am a stockholder of Verizon, the owner of Yahoo, so it pains me to write this complaint but its Yahoo website is displaying so called news articles that just are not true, terrifically slanted and anti-US.

What motivated me to write this complaint was an article on the apparently wonderful president of Venezuela who is so badly mistreated by the mean old US. The article goes on to discuss how so many countries support this regime including China, which we all know is a perfectly friendly nation with everyone (I'm kidding.). This story originated from AFP, a French "news" organization.

This is a serious, blatant case of fake news and if your offices have any people looking into these things, Yahoo and AFP need to be investigated.

I also wrote a negative comment about the article when it was posted but I no longer can find it on line.

Please note that I have seen that others have complained about Yahoo news so I think that your people need to look into this problem.

## **Description**

Ever since President Trump made it in the 2016 election, CNN has pushed hard to televise ever lie, made up lies and propaganda to hurt President Trumps agenda. They are there lowest ratings than ever. This proves the trash talk this station has done. They falsely invite conservatives on their shows just to try and embrass their quests. They ask question to their quests over and over in different formats trying to to get the guess to say something juicy so they can use a bite of the guess' responds and blow it completely out of context. They have even change to commercials if their guess tells the truth so the audience can't hear the truth. There is a different fake news daily. CNN journalists should lose their licences and never be able to work as a journalist again. CNN should lose their air time and broadcasting syndication license better yet taken off the air
