[REDACTED] and [REDACTED]

1. A book published in [REDACTED] by [REDACTED] Inc., en-
titled [REDACTED] by [REDACTED] with [REDACTED]
on page [REDACTED] contains the following:

"Today every [REDACTED] military doctor and [REDACTED] nurse is trained in
hypnotism. The [REDACTED] have used hypnotism to an amazing extent in
healing amnesia cases. Their psychologists use it for traumatic cases.
Hypnosis has indeed become the [REDACTED] paramount weapon in the treat-
ment of war neuroses."

Will you please advise whether [REDACTED] has any interest in our find-
ing out what facts, if any, the authors have to support the statements
contained in the above quotation? Such an investigation would undoubt-
edly be time-consuming and we do not wish to embark upon it unless we
have some assurance that the results might be of value to CIA.

2. This book on pages [REDACTED] and [REDACTED] also contains the following
statements which may be of interest to [REDACTED] as well as [REDACTED]

G

[REDACTED] a successful author of books on [REDACTED] and the
[REDACTED] went
one step further. He has declared:

H

"I can hypnotize a man--without his knowledge or consent--into commit-
ting treason against the United States. If I can do it, so could psy-
chologists of other nations in the event of another war."

[REDACTED] is absolutely right. I, too, could produce hyp-
notic secret agents and so could hundreds of others trained in the science
of hypnotic suggestion. I would be surprised if many secret services are
not now actually employing hypnotic methods for some of their underground
activities.

"Soon after World War II had started, [REDACTED] was called to [REDACTED]
[REDACTED]. He was asked by intelligence officers about the possibility
that [REDACTED], [REDACTED] and [REDACTED] secret services might be planning to
use hypnotism to obtain information.

[REDACTED] then made a most provocative and controversial statement when he told United States Intelligence officers:

H

"Two hundred trained [REDACTED] operators, trained in the United States, could develop a unique, dangerous army of hypnotically controlled agents."
