## STATEMENT OF WORK for FY 1989

#### **Objectives:**

A. Maintain scientific credibility by providing access to all aspects of the research to a Scientific Oversight Committee (SOC).\*

Task 1	
Description:	Provide statistical and basic research design protocols in advance of any formal experiments.
Deliverables:	1st Quarter FY 1989 (A report including the experimental protocols for FY 89, and detailing the approvals and the review process by the SOC.)
Task 2	
Description:	Provide continuing access to on-going experiments to SOC members.
Deliverables:	None
Task 3	
Description:	Provide final reports for inspection and critical review to the SOC.
Deliverables:	4th Quarter FY 1989; A final technical report including the experimental results for FY 1989, and detailing the SOC's review comments.

SGFOIA2 Cost:

<sup>\*</sup> The time-lines for all tasks during FY 1989 are the same: Start on 1-Oct-1988 and end on 30-Sep-1989. The costing is computed on an objective-by-objective basis, and the contractor is is SRI International, except where noted differently.

Costing is shown for each objective. The total percent of project is also shown as (Operational/Research) percentages.

### B. Applications of Remote Viewing Technology.

Task 1	
Description:	Target viewers against special sites supplied by and under con- trol of the sponsor.
Deliverables:	A report on each site that includes the analysis of the re- sponses, a summary of the best estimate of the target site, and the raw data as an appendix. The report must be completed before another site can be targeted.
Task 2	
Description:	In support of Task 1, using a sponsor-supplied target element list, develop a quantitative analytical technique for remote viewing analysis when the target material is generally un- known.
Deliverables:	4th Quarter FY 1989; A detailed description of the proce- dure and a summary of its performance in Task 1.

SGFOIA2 Cost:

C. Determine a physiological indicator of psychoenergetic functioning.	С.	Determine a	physiological	indicator of	psychoenergetic	functioning.
--	----	-------------	---------------	--------------	-----------------	--------------

Task	1
------	---

Description:	Determine the degree to which magnetic visual evoked poten- tials can be observed under psychoenergetic conditions.
Subcontractor:	Los Alamos National Laboratory
Deliverables:	4th Quarter FY 1989; A report detailing the techniques and results of the experiment.

SGFOIA2

Cost

D. Provide a technical review of psychoenergetic research at SRI International.

### Task 1

Description:	Using meta-analytical techniques, assess, where possible, the experimental results of the research since 1973. This should include the following:
	<ul><li>a. An analysis of remote viewing and remote action.</li><li>b. Retrospective analysis of Pat Price data.</li></ul>
Deliverables:	4nd Quarter FY 1989; A report detailing the methods and results of the meta-analysis and including:
	<ul> <li>a. The state-of-the-art of psychoenergetic research.</li> <li>b. Confidence levels on the constituent parts of above.</li> <li>c. What technology is available.</li> <li>d. Short statement of what experiments are needed for progress.</li> <li>e. Contributions by other research organizations.</li> </ul>

f. Contributions of psychoenergetic research to more traditional research areas.

SGFOIA2 Cost:

E. Screen large populations for high quality remote viewers.

### Task 1

Description:	Using a multi-level screening procedure, identify high-quality remote viewers and individuals with an ability to locate items by psychoenergetic means.
Deliverables:	4nd Quarter FY 1989; A report detailing the methods and results of the screening.

SGFOIA2 Cost:

Approved For Release 2001/03/07 : CIA-RDP96-00788R001500170003-6

F. Determine parameters of RV.

	Task 1	
	Description:	Expand upon the hypnosis concepts developed during FY 1988.
	Deliverables:	4th Quarter FY 1989; A report detailing the experimental protocol, the method of approach, and results.
	Task 2	
	Description:	For new viewers, determine best viewer-dependent collection environment for remote viewing.
	Deliverables:	4th Quarter FY 1989; A report detailing the experimental protocol, the method of approach, and results.
	Task 3	
	Description:	Improve the analysis of RV data by determining the optimum parameters for the set definitions.
	Deliverables:	4th Quarter FY 1989; A report detailing the method of approach, and results.
	Task 4	
	Description:	Determine the source of "mental noise" in binary psychoenergetic tasks.
	Deliverables:	4th Quarter FY 1989; A report detailing the experimental protocol, the method of approach, and results.

6.0. (S/NF) SPECIFIC TASKS:

6.1. (S/NF) Basic Research:

Objectively 6.1.1. (S/NF) Reassess previous research and conduct new research to identify parameters and procedures that are responsible for remote viewing occurrence and for enhancing performance.

6.1.2. (S/NF) Identify optimum statistical evaluation methods and procedures and prepare appropriate handbooks.

ObjectiveC 6.1.3. (S/NF) Determine if select physiological parameters can ObjectiveC is set of psychoenergetic phenomena. 6.1.3. (S/NF) Determine if select physiological parameters can be

6.1.4. - (S/NF) Perform various investigations that assist in identifying fundamental aspects of the phenomena.

6.2. (S/NF) Applications Research: 3

6.2.1. (S/NF) Develop quantification and evaluation techniques for a variety of operational types of targets.

6.2.2. (S/NF) Conduct multi-series remote viewing projects for special operational targets to determine levels of accuracy as a function of operational conditions such as distance, shielding, timing, other factors.

e L+V 6.2.3. (S/NF) Review and analyze all operational related projects to identify possible operational limits or qualifiers.

E. 6.2.4. (S/NF) Conduct screening of large candidate groups to identify people with high quality remote viewing and related (i.e., search) ability.

(S/NF) Initiate development of new application capability 6.2.5. (i.e., search).

6.3. (U) Support:

6.3.1. (U) Project management

**6.3.2.** (U) Support for Science Oversight Committee (SOC)

6.3.3. (U) Support for Human Use Review Board
