THE SECRETARY OF STATE

SUBJECT: Possible Israeli-South African
Nuclear Connection

The President has seen Ambassador Lewis' cable on the above subject (Tel Aviv 6833). In response, the President stated that it is obvious that past cooperation is excluded, and that we shouldn't push it any more for now.

PJ7 -
does
this mean
that pres.
believes
there has
been past
cooperation?

I read it as saying
that, while the future is not
covered (and we won't push
on that for now) the past
is covered. PJ7
