MEMORANDUM

TO: FOR THE RECORD

FROM: Richard M. Moose *RM*

SUBJECT: Current Nuke Event Actions

Opplinger (NSC) gave R. Moose green light (12:55 p.m.) to inform France and Germany as proposed. (CRV at Quadripartite dinner, French in advance.) The uncertainty and sensitivity of the data must be stressed. Hare will inform Seitz that DDN should use talking points which have been sent to N.P. and brief French official (deLousse?) who will accompany Quad dinner in advance of dinner. RVK should inform John Robinson (UK Embassy) that French and Germans will be informed.

Opplinger earlier gave Moose go-ahead for first phase of approach to Australians (i.e. to ask if their seismic station was operating during the period in question -- without revealing why we are interested). Before proceeding to step two -- asking for data -- we must check again with NSC. Bowdler informed and will so advise CIA.
