MEMORANDUM FOR THE RECORD

SUBJECT: Need for Synchronous Satellite

1. The existence and success of Syncom II represents a significant intelligence collection opportunity in the following areas:

NRO  
25X1

2. Items a, b, and c are present and significant intelligence community requirements. Item d is required in the extension of basic intelligence and arms control. As defensive experience is gained, the Synchronous Satellite may also prove an effective photo-data link platform.
