thought "What's the use of waking them. There's probably a perfectly logical explanation for it - moon, airplane, helicopter." I must add that being a licensed pilot, I had got to run across an aircraft like this one. Then, when the red disc appeared. I tried to make a joke of it to myself, "Now encounters of the third kind - very funny ha-ha, you know you don't believe in those things!" Then, horror. I had the feeling that the red disc could see me. With its blue center it looked like an eye. I wanted to wake some one up but couldn't. Cold sweat, heart racing etc. I don't think I have ever felt so frightened by anything. It was a very, very feeling. The entire distance from the highway to town probably took about 3 minutes or less & seemed like hours. When I got to the church corner it appeared to be about at 60° angle in relation to 90° straight up so I was obviously getting closer to it and it was quite near the shoreline, maybe 200-500 feet altitude (a very rough estimate). Then I asked Davis to wake up & look at this, quick, having gotten a hold of myself somewhat. In order for her to see it she had to lean over the seat and look up through the windshield, while she was doing that, it vanished. Just disappeared.

2.

There was some fog in the sky but very scattered. There were stars and a few northern lights. At this point, one begins to try to deduct what this is. I had concluded that it wasn't the moon because of the light. I had to drive very slowly because of the ice. Then the light stopped moving. The moon-shaped (D) object grew into a full-moon shaped round light not really shining, but quite a bit like the moon - yellowish white. Then moving out from behind it came a red glowing disc with a blue glowing center. So now we have a lighted wisp of ~~lighted~~ fog, a moon-like disc, and a red, blue-centered disc. Then the whole issue moved forward away & stopped. It moved very rapidly in a westerly direction. Then the red disc shifted forward, in a slow-motion type of way, back behind or into the moon disc and the moon-like one went back the way it had been when I first saw it. The discs had caught up to the definite-shaped fog wisp. There also, at this time, appeared to be some kind of exhaust trail behind it. Then it performed the entire process over again twice.

Now, my reaction to this went through quite a series of changes. First of all, all the other occupants of the car were sleeping. At first I

DEC 13, 1978.

5:50 am.

Clear sky.

This time I had gotten up from bed to let the cats out the kitchen door. Directly in my line of vision, probably slightly north of east over my father-in-law's hay shed, but behind it over the lake at about 20° vertical (or more) was a large white light~~ing~~, shining, like a star, but bigger. It was triangular Δ and seemed to pulsate. There were red-type sparks or beams coming off the top point. The triangle would flare out, then go roundish. It appeared to be settling down in a swinging type of motion like a sheet of paper that has been released in the air. It was lowering. Then I started back to go tell my husband, ~~but~~ then turned back again to look and make sure I wasn't seeing things. It was still there. When I told him, he said if it was still there at 6:00 am when the alarm rang that he would see it. (He doesn't like to be waked up for anything!) So I went back to bed and got up at 6:00 and it then ~~looked~~ looked like just a very bright star but had moved about 45° around the sky and was much higher in the sky. My husband saw it then & agreed that it couldn't possibly be a star as it looked big and close & very bright.

It kept rising higher into the sky and getting smaller and seemed to have a fog or haze around it. We looked at it through binoculars and it was a definite object. (this was about 7:30am) The light through the binoculars was glaring, like molten steel, and very white. We watched it until 8:45. It was there longer than the stars. At 9:00 a.m. it had disappeared because of cloud cover.

DEC 14.

Same one as above. Since we got up a little later we saw it at about the * in previous description and also followed the same pattern as the day before.

BON90 REPORT OF U.F.O. SIGHTING IN CATALINA, TRINITY BAY, NFLD. AT 00 05 78-10-31. SKY AT THE TIME WAS VERY CLEAR. THE SIGHTING WAS OBSERVED BY MRS. IRENE LODGE, MR. JOHN JEANS, MR. DAVID LODGE AND MR. ALBERT HAYNES, ALL OF CATALINA. OBSERVERS WERE LOCATED ON THE SHORE ROAD IN CATALINA. DESCRIPTION OF SIGHTING IS AS FOLLOWS: OVAL SHAPED WITH FLASHING LIGHTS - RED, BLUE AND PURPLE. ALTITUDE ESTIMATED AT APPROX. 2000 FT. ABOVE THE HARBOUR IN CATALINA. OBSERVATION WAS FOR APPROX. 15 MINUTES. WHEN IT DISAPPEARED IT JUST WENT STRAIGHT UP INTO THE SKY. IT IS FELT THAT THIS MAY HAVE SOME CONNECTION WITH THE RECENT SIGHTING ON RANDOM ISLAND NEAR CLARENVILLE, TRINITY BAY, NFLD. WITNESSES WERE INTERVIEWED SHORTLY AFTER SIGHTING. NO INDICATION OF ALCOHOL OR ANYTHING ELSE THAT MAY HAVE INFLUENCED THE SIGHTING.

RE: OBJET:	Eldred Absalom MESHER (DOB: 50 APR 30) U. F. O. Sightings Happy Valley/Goose Bay, Labrador 1978 NOV 06		

Further to our priority Telex No: GB 565 dated 78 NOV 06, an additional investigation has been conducted. The four observers were contacted and statements obtained.

2. These four statements are attached as:

- APPENDIX "A" - Statement of Eldred MESHER
- APPENDIX "B" - Statement of Pauline MESHER
- APPENDIX "C" - Statement of James BROWN
- APPENDIX "D" - Statement of Jacquelyn MATTHEWS.

3. During the time of this sighting, a number of sightings had taken place in the Clarenville, Nfld., area. There was a great deal of publicity; as a result of which, people were seeing all sorts of objects which were later identified as stars.

4. One of these objects was pointed out to myself and viewed. The object was stationary and was seen in the same spot for several nights during the observation period. It did appear to have white, red and blue lights on it. Several of these objects were seen by the writer and by other people. They were in different locations and all were stationary. At the time of this particular sighting, the members of the Detachment on patrol did not sight the reported object.

5. The four witnesses are not known as to their reliability. They all appeared knowledgeable and gave basically the same story. BROWN has problems with his eyesight - he has trouble distinguishing colors. MATTHEWS did not really take a long look at the object, as she stated she was afraid and, therefore, just looked at it once in a while. There were no confirmations of this sighting from anyone else in the area.

6. In view of the foregoing, no further action will be taken at this point unless requested.

"CONCLUDED HERE."

APPENDIX "A"

"There was me, my wife Chickie, Jim BROWN and his girlfriend Jackie MATTHEWS, just out riding around. We turned up on Corte Real. That's when Chickie looked up and said 'What's that?'. I kept going ahead to get clear of a street light and then I pulled off onto the side of the road. I saw two bright blue lights flashing. They seemed to be on the bottom. It seemed to be heading in a North West direction. Then I chased it towards the Centennial Centre. When on the back road, the object stopped and then I stopped. I started to flash the car lights and the object did the same. The blue lights were flashing. It seemed to have a string of yellowish lights right around it. There was a red light on the top but it wasn't blinking very fast. Where it had stopped, it seemed to turn around and started to come towards the car. It started to come down lower, from an altitude of approximately 500 ft. to about 200 ft. It was roughly 1000 yards away. I knew it was not an aircraft because I could not hear any noise coming from it. The car was still running but it is very quiet when idling. When it came towards us, it stopped for a few seconds and then moved off to the left. It headed towards Spruce Park and then off towards the Docks. When it left, it turned off all of its' lights except for one bright flashing blue light and the red one.

When it went towards the Dock, I lost it in the lights. I don't know if it went up or down. The object travelled at various speeds. I did see an aircraft going towards the Base before I saw that object.

The sky had a slight overcast. This was about quarter to two in the morning. I was not drinking before, during, or after the sighting. The two women were nervous with what they saw. The object flashed its' lights at the same speed as I flashed the car lights."

1978 NOV 14

APPENDIX "B"

"I was in a car with James BROWN, my sister Jackie MATTHEWS and Eldred MESHER. We were just driving around and we turned up Corte Real and were up by the Pentecostal Church. I looked up and said, 'I suppose that's a U.F.O.' At that time, when I first looked up and seen it, it was just a light. Everyone else saw it and we decided to follow it. The object went up towards the Centennial Centre so we followed it. At that time, Eldred was driving the car. He started blinking the car headlights on and off, high beam and low/beam. The object stopped before we got to the Centennial Centre. We stopped as well. As Eldred flashed the car lights, the object flashed its lights at the same speed. Then, it seemed like the object turned around and came towards us. It had all its lights turned off except for one which seemed like a bright blue light. The object dropped and then came towards us. It came so close and stopped again. We were blinking lights and it was blinking lights at the same speed. That's when I told Eldred to shut off his lights because I didn't want it to come any closer. When the lights were off, it left. It went up towards Spruce Park. It was about two minutes before it disappeared. We watched the object for about ten minutes. When it left, it had a bright, red light on and flashing blue lights. The two blue lights were on the bottom. A red light was on the top. The dirty white lights were around it. The object seemed to be shaped like a plate on a plate. I am quite sure that it was not a plane. I don't drink. I was a little nervous with what I saw."

1978 NOV 14

APPENDIX "C"

"I was driving around in my car with Eldred MESHER, Jackie MATTHEWS and Chickey MESHER. Eldred MESHER was driving. This was about quarter to two in the morning. We were just past the Pentecostal Church on Corte Real. I saw something up in the sky. It was shaped round or sphere like. It was all lights at first. The object started to move towards the Centennial Centre. It was moving slow. We decided to follow it. Eldred was flashing the car lights on and off and the object flashed its lights too.

When the object flashed its lights, it seemed to have only two lights on at the time. We drove so far and the thing just stopped all of a sudden. Then we stopped. The object turned around in one spot and came towards us very slow. When it stopped, it seemed like it turned. As it came towards the car, it seemed to be getting lower. Then it stopped again directly ahead of the car and was blinking one light. It was about 200 yards up by this time. It stopped there for about a minute or two and then it left. It was still going slow. When it went on the outside of Spruce Park, it seemed to disappear quite fast.

I could not hear any noise at all. It was a bit overcast that night. That object was not a plane. I am certain of that. I hadn't been drinking at the time - either before or after what I saw. I do have problems making out colors but my eyesite is good with my glasses. I was wearing my glasses at the time."

1. On above noted date, c/n advised our office that his daughter, while visiting at a friend's residence, had seen what appeared to be a U.F.O. His daughter, Michele GINGERA, was at her friend's residence, Lori KIRCHHOFER, when during the evening, the lights fluctuated two or three times. Mrs. KIRCHHOFER jokingly stated that the reason for this was probably a U.F.O. Someone in the house went outside, came running back in stating that there was a U.F.O. above the house. Lori KIRCHHOFER, Linda KIRCHHOFER, and Michele GINGERA observed something above the house. This object with lights moved south-westerly over the town of Jasper.
2. The captionally noted advised this office that a Mr. Ken SWITALA had reported a similar incident on 78NOV05 and reported same to this office with regards to a U.F.O. Ken SWITALA's residence is 711 Maligne Avenue, Jasper, Alberta, 852-3854.
3. As per our Operational Manual 1.3.E.22.A., the following information was taken from the three persons at the KIRCHHOFER residence who saw the alleged U.F.O. Attached as per Appendix "A" is a data sheet on three subjects' observations of the alleged U.F.O.
4. No further sightings of U.F.O. have been reported to this office as of this date. Should you require additional information, addresses and phone numbers are on the attached data sheets. No further action taken by this office.

U.F.O.NAME: Michele GINGERAADDRESS: Box 388, Jasper, AlbertaTELEPHONE: 852-3536 DOB: 18AUG65

Please complete the following questions in longhand.

1. Date and time of sighting (include time zone).

78 NOVEMBER 07, 8:25 p.m.

2. Condition of sky (clear, cloudy, hazy).

The sky was very cloudy and it was raining hard.

3. Identity of observer.

Michele GINGERA

4. Location of observer at time of sighting.

We were on Geikie Street, right across from the church.

5. Identity of other persons who saw U.F.O.'s.

Linda KIRCHHOFER & Lori KIRCHHOFER

6. Description of sighting (shape, colour, altitude, movement, number of objects).

The shape was round, colour was green and red, movement - vertical and horizontal, alot higher than town, but lower than Signal Mtn.

7. Duration of observation.

It lasted about 2 minutes and then disappeared.

8. Any other relevant information.

We were at KIRCHHOFER's house when the lights went off and on three times and all the lights were out on Geikie Street. We left to go to the hockey game, beside church, Lori shouted "Look" - we turned around and saw something like a UFO. We stood and looked for a minute and

Michele GINGERA

U.F.O. Data Sheet page 2

then ran to KIRCHHOFER's house. Mr. and Mrs. KIRCHHOFER came outside but by then it was gone and the lights came back on.

THE END

U.F.O.

NAME: Lori KIRCHHOFER

ADDRESS: Box 461, Jasper, Alberta

TELEPHONE: 852-3871 DOB: 16FEB66

Please complete the following questions in longhand.

1. Date and time of sighting (include time zone),
Tuesday 78 NOVEMBER 07 about 8:30 p.m.

2. Condition of sky (clear, cloudy, hazy).
The sky was fairly cloudy at the time.

3. Identity of observer.
Lori KIRCHHOFER

4. Location of observer at time of sighting.
My home - 317 Geikie St. Jasper, Alberta

5. Identity of other persons who saw U.F.O.'s.
Michele GINGERA, Linda KIRCHHOFER
Colleen KIRCHHOFER (she just saw light flickering).

6. Description of sighting (shape, colour, altitude, movement, number of objects).
It was a round, green object, jotting back and forth, there
was only one object.

7. Duration of observation.
The thing looked like it was flickering off and on really fast.

8. Any other relevant information.
The thing had a touch of red around it (the outside of the
Object).

NRC METEOR CENTER OTTAWA 053-3715

REPORT OF UFO SIGHTING ON 78-11-10 AT ABOUT 12:50 AM

ON THAT DATE A UFO WAS SPOTTED BY TWO LADDIES IN OUR DET AREA IT WAS A CLEAR NIGHT AND THE TWO LADDIES THAT SAW THIS OBJECT WERE A MISS PHYLIS POWELL OF GOOSE COVE AND A MISS SHIRLEY MURRIN OF ST ANTHONY NEWFOUNDLAND. MISS POWELL WAS DRIVING HER CAR AT THE TIME ALONG ONE OF THE MAIN ROADS IN THE RURAL AREA, FROM THE COMMUNITY OF ST LUNAIRE NFLD. THE TWO LADDIES DESCRIBED THE OBJECT AS BEING A BRIGHT LIGHT WHICH CAME UP FROM BEHIND THEM AND THEN ALONG THE PASSENGER SIDE OF THE CAR. IT LIGHTED UP THE INTERIOR OF THE VEHICLE AND IT FOLLOWED THEM FOR A DISTANCE OF ABOUT 7 MILES RIGHT INTO THE TOWN OF ST ANTHONY, WHERE IT THEN LEFT THEM AND WENT UP INTO THE SKY. THEY DESCRIBED ITS SHAPE AS THAT BEING SIMILAR TO A "SNOW SHOE", THE CENTER OF THE OBJECT WAS A BRIGHT LIGHT YELLOW IN COLOUR, AND THERE APPEARED TO BE REVOLVING COLOURED LIGHTS AROUND THIS YELLOW LIGHT. THE COLOURS ON THE OUTSIDE WERE, GREEN, RED, AND WHITE. THEY OBSERVED THIS OBJECT FOR ABOUT 25 MINUTES, ALL THIS TIME IT FOLLOWED ALONG THE CAR AT A SPEED OF ABOUT 85 MILES AN HOUR AS THIS WAS THE SPEED THAT MISS POWELL SAID THAT SHE WAS DRIVING TO TRY AND GET AWAY FROM IT. THE PASSENGER OF THE VEHICLE, MISS MURRIN ALSO STATED THAT THE LIGHT FROM THIS OBJECT WAS HOT AND THAT SHE COULD FEEL IT ON HER ARM WHICH SHE SAID GOT NUMB FROM THE HEAT. THIS WAS ALL THE INFORMATION THAT THEY COULD GIVE AND BOTH WERE VERY SERIOUS ABOUT THE WHOLE THING.

Complaint of seeing a U.F.O.
Acadie Siding, Kent Co., N.B. 12 NOV 78

78 NOV 12

1. On the above date Mrs Edmond ROBICHAUD called this office at approximately midnight stating that she had observed between 2300 hr and 2345 hr a strange flashing light in the sky.
2. The condition of the sky at the time was clear.
3. The observers at the time were in Mrs Edmond ROBICHAUD's residence in Acadie Siding, three kilometers south of Rogersville, N.B.
4. It is the first time this incident occurred. The object was noticed travelling East and West and finally went upwards until it seemed to have changed into a star.
5. The luminosity of this object was bright red and bluish-green, flashing. The object was shaped circular but as it was approximately one mile from the observers a precise description was impossible to make.
6. Other witnesses were Larry ROBICHAUD and Sandra ROBICHAUD, children of Mrs Edmond ROBICHAUD.

78 NOV 13

7. On this date at approximately 1800 hr Lt. DEAN of C.F.B. Chatham was advised of this incident. He stated that approximately 2300 hrs a Vaudou plane travelled in the area that the U.F.O. was seen. But this particular plane doesn't have blue or green lights. It has red light and the clearance lights are flashing. Radiogram no.: 56 was forwarded to National Research Council in Ottawa regarding this.
8. Please find attached statements of Mrs Edmond ROBICHAUD and Larry ROBICHAUD. Statement of Sandra ROBICHAUD not available as she is now in Saint John, N.B. If required statement will be obtained from her.
9. Forwarded for your information.

VOLUNTARY STATEMENT OF: Mrs Edmond ROBICHAUD,
DB: 30 NOV 28, Acadie Siding, N.B.

Last night around 11:00 p.m., my daughter, Sandra, said look at the plane. I said no it isn't a plane, it's a U.F.O. It was like some flashing lights; red and blue. It was like as if it was changing colours. We didn't see any form. It was further than the hydro lines, more than a mile. It was going in the direction of East and West, it went up and at the end it looked like a star and it stopped in the dky. Around 1:00 a.m. when I went to bed it was there, it was a star.

Q. Did you ever see anything like that before?

A. No.

WIT: J.E.D. HACHE, Cst. (SGD) Mrs E. ROBICHAUD

Acadie Siding, N.B.

VOLUNTARY STATEMENT OF: Larry ROBICHAUD, (DB: 26 FEB 60),
Acadie Siding, N.B.

Last night I was watching T.V. when my sister said what's that, a plane. I looked and said yes. Then I came in the kitchen and they kept on watching it. And then when I started watching, it moved East and then it moved West and gradually climbed and after that I thought it was a bright star.

Q. How long did it take from the first time you saw the object to the time it stopped?

A. About $\frac{1}{4}$ of an hour.

Q. How was the object shaped like?

A. Circular, it was round and had red lights flashing and bluish-green like blinking lights.

RE: U.F.O. SIGHTING, ST. ANTHONY, NFLD. 78-11-14 (12:30/AM-
1:45/AM).

KEVIN L. SIMMS OF ST. ANTHONY NFLD. REPORTED THAT ON 78-11-14 AS HE WAS GOING TO BED HIS WIFE CALLED HIS ATTENTION TO AN OBJECT WHICH SHE SAW IN THE SKY. HE SAID HE WATCH ED THE OBJECT WITH THE NAKED EYE FOR ABOUT TEN MINUTES AND THEN BEGAN OBSERVING IT WITH A PAIR OF BINOCULARS. THE NIGHT WAS CLEAR (CLOUDLESS) -, #346 AND VERY BRIGHT WITH A FULL MOON. WHEN THE OBJECT WAS FIRST SIGHTED IT WAS ALMOST DUE NORTH AT AN ESTIMATED ALTITUDE OF 5000 FEET APPEARING TO LIE ABOUT IN THE AREA OF THE GRIQUET BRANCH ROAD INTERSECTION. THE OBJECT MOVED SLOWLY EAST ABOUT 30 DEGREES IN THE TOTAL TIME. THE ONLY OTHER NOTICABLE MOVEMENTS WERE VERTICAL POSITIONING MOVEMENTS, SUCH AS MIGHT OCCUR IF IT WERE HUNTING FOR A DESIREABLE POSITION. THE OBJECT DID WHAT APPEARED TO BE A STATIONARY TUMBLING ON ITS AXIS. AT FIRST THE WHOLE OBJECT KEPT CHANGING COLOURS: MOVEMENT OF LIGHTS OF RED, BLUE AND WHITE. AS THE OBJECT MOVED AWAY IT WAS A LIGHT RED AND BALL SHAPED. ACCORDING TO MR. SIMMS THE OBJECT LOOKED LIKE A ONE-LAYER CUT OF A CRYSTAL SAMPLE WITH LIGHT SHINING THROUGH IT AND HE SAID IT THEN TURNED INTO A SHAPE LIKE THAT OF A PROVERBIAL FLYING SAUCER WHICH WAS THE SHAPE IT WAS IN MOST OF THE TIME IT WAS BEING OBSERVED.

THE OBJECT WAS OBSERVED UNTIL 1:45 A.M. BY MR. SIMMS WIFE AND HIS TWO CHILDREN

PE: - OBJET: Mr. Harold O'BRIAN - Reported U.F.O. Sighting
Near Prince George, B. C. 78-11-18
PRINCE GEORGE DETACHMENT CASE (UNORG.)

1. On 18 November, 1978, at 2030 hours, Mr. O'BRIAN contacted this office, advising that there was a U.F.O. over his property. Mr. O'BRIAN's property is approximately 20 miles East of Prince George, B. C.

2. At 2110 hours, Cst. K. G. HEIDEMA arrived at O'Brian's residence, and Mr. and Mrs. O'BRIAN gave the following account of the sighting:

The entire family was in the basement, playing darts. Mrs. O'BRIAN came upstairs at approximately 2010 hours to get something to eat, and noticed a bright light to the east. Mrs. O'BRIAN called the family upstairs, and everyone watched it from the large living-room window.

They describe the light at first as a bright red, and then it appeared to move closer, and the colour appeared to be a fire orange-red. The lights were extremely bright, almost like the light cast from an arc welder. The field where the UFO appeared to be hovering is cleared, and approximately 8 acres in size.

O'BRIAN stated that the lights lit up the entire field almost as though it were daylight. The U.F.O. appeared to be approximately 85' to 100' above the ground, and remained above the field for what O'BRIAN feels was approximately 15-20 minutes. When the U.F.O. left, it went towards the south.

O'BRIAN advised that while they were watching the U.F.O., he turned off all the lights in the house to make the residence less obvious.

Both O'BRIAN and his wife describe the physical appearance of the U.F.O. as:

"Circular in shape, with three large lights inside. These three large lights were extremely bright and remained stationary. The outside ring of lights changed colours from orange-red to bluish in colour. The U.F.O. did not make any audible noise, as O'BRIAN stated he opened the window, and could not hear anything."

RE-OBJET

PAGE 2

Reported U.F.O. Sighting - continued

file: 78/34427

Mr. O'BRIAN and Cst. HEIDEMA conducted a search of the field where the U.F.O. appeared to have been, however, nothing at all was disturbed. There was no indication of any snow being blown by any turbulence, no snow knocked from the top of trees, etc.

O'BRIAN could not give an accurate estimate of the size of the U.F.O., due to the fact that it was hard to establish its distance from the house, however, he feels it was approximately 100 ft. in diameter.

3. The weather conditions at the time of the sighting were:

Clear visibility; Cold, -30°C ; 3/4 moon (very bright); no wind; fresh snow on ground (approximately eight to ten inches).

4. Mr. O'BRIAN seemed very sincere in his reporting of the U.F.O. He appeared to be a rational person, and it is doubtful that he or his family would fabricate their report.

1. Call received from the above, reporting a possible U.F.O. sighting in the Sherbrooke area.
2. She said that the object was too far away to be clearly seen & all she could see were silver flashing lights. She further said that the object stayed hovering for about seven (7) minutes before slowly coming down.
3. The a/n, who witnessed the sighting with her husband, wanted to report it to the proper authorities.
4. Mrs. Benoit was given the Military Police's phone number at Uplands Air Base so that they can be informed & possibly continue the investigation.
5. SUBMITTED FOR INFO PURPOSE

c/n phoned and advised that he and his wife had viewed a bright light in sky for approximately 6 minutes. Time was 5:04 AM this date. Atlantic Std. time.

Dec 02, 9:04

1100 hrs. - I spoke with Mrs. MacDONALD on telephone. She described the light as roughly triangular shaped, pulsating bright then dimming, appeared about 1/2 size full moon. Was observed in So. west direction from their house and appeared below cloud level. There were stars visible and sky partly cloudy. After 6 mins. or so the light faded out, then came back slightly and then disappeared for good. Maintained lookout to be sure cloud was not in way but sure this was not case. Light did not appear to move location while visible to she & her husband. Mr. & Mrs. MacDONALD believed to be reliable.

Copy this report being forwarded direct National Research Council, Planetary Signs Section, 100 Sussex Dr., Ottawa.

SECURITY CLASSIFICATION - DE SÉCURITÉ
OUR FILE - N/RÉFÉRENCE 78/5376
OUR FILE - V/RÉFÉRENCE N78/226
DATE 78-12-11

SUBJECT / OBJET: Phillip SMITH-Sighting of U.F.O.

Dec 02, 20:00

At 1800 A.S.T., 78-12-02, Mr. Phillip SMITH B:25Jun43 of Mackerel Cove, Lower Tantallon, Halifax County, N.S. reported the sighting of an unidentified flying object. He described it as; a soft white light in the shape of a "big hallo", do-nut shaped with a center of yellowish brown. He stated that it was very low to the water, about 200 feet and fluttering downward. There was no sound coming from the object as it disappeared behind the trees.

2. After numerous attempts to contact this individual since the happening, he was finally located on 78-12-08. Subject was interviewed and the following clarifications are included. When he initially reported the sighting it was not at 1800 but at 0035 AST that he actually witnessed the UFO. He stated that it was a clear night, he had just returned home and was taking the groceries out of the car. Stated that it was a single UFO about 1/2 mile out over the water. It appeared "ghostly" and did not look solid, heading in an easterly direction, out the St. Margaret's Bay towards the ocean. He thought it was just over the water about 100 feet in height. He was unsure of the size of the object. The center of the UFO appeared to have yellowish brown spot. He advised that none of his neighbors saw the UFO.

3. Subject was a school teacher but is presently employed as a TV repairman. He appears honest and there is no reason to doubt his story.

4. There were no other reports of UFO's on this occasion. The location is just off the No. 333 highway, approximately 25 miles from Halifax in a south westerly direction on the St. Margaret's Bay.

- (2) CLEAR SKY GOOD VISIBILITY.
- (3) GILBERT HEFFERN 14 GRIEVE CRES., GANDER, NFLD B:55OCT21
- (4) DRIVING WEST ON TRANS CANADA HIGHWAY IN THE AREA OF BENTON, NFLD., APPROX 12 MILES EAST OF GANDER.
- (5) JUDY MARIE HISCOCK 65 HAWKER CRES., GANDER, NFLD. B:57JUN05.
- (6) OBJECT DESCRIBED AS OVAL SHAPED WITH TWO BRIGHT LIGHTS (SIMILAR TO LANDING LIGHTS ON AN AIRCRAFT) APPROXIMATELY 20 FEET BETWEEN WHITE LIGHTS. NO NOTICEABLE NOISE. OBJECT OBSERVED APPROX 90 SECONDS FROM A MOVING CAR. OBJECT FIRST NOTICED APPROXIMATELY ONE HALF MILE SOUTH OF TCH AND IT APPEARED TO COME OVER AUTO AND HOOVER FOR A SHORT TIME AND THEN WAS LOST FROM SIGHT. MR. HEFFERN ADVISED THAT HE FIRST THOUGHT OBJECT TO BE A PLANE BUT AFTER FURTHER OBSERVATION CHANGED HIS MIND. HE ADVISED THAT HE PANNICKED AND INCREASED HIS SPEED FROM 55 MPH TO APPROX 85 MPH UNTIL HE ARRIVED GANDER.

RE - OBJET: <i>Meteor Centre</i>	Gilbert HEFFERN - 55 OCT 21 Unidentified Flying Object Sighting Benton, Newfoundland, 78 DEC 20		REG. (4712-5) INCL. 13 DIR TO A. Claude INDEXED BY MAIN FILE CHARGED TO -

78 DEC 20

At 0100 hours this date, Mr. Gilbert HEFFERN of 14 Grieve Cres., Gander, Nfld., contacted Gander Airport Detachment and advised that he and his girlfriend, Judy Marie HISCOCK of 65 Hawker Cres., Gander, Nfld., had seen an Unidentified Flying Object in the sky in the area of Soulis Brook on the Trans Canada Highway approximately twelve miles east of Gander. The object was first noticed by Mr. HEFFERN approximately one half mile South of the Trans Canada Highway. It appeared to travel over their auto and hover for a short period of time and was lost from sight. Mr. HEFFERN advised that when he first noticed the object he thought it was an airplane but after looking at it further he changed his mind. Object was observed for about one and one half minutes from a moving vehicle. He advised that he and his girlfriend panicked shortly after noticing object and he increased his vehicle speed from 55 MPH to about 85 MPH until he reached the town of Gander. Object sighted at approximately 0030 hours.

2. When this call was received at Gander Airport Detachment, S/Cst. M. ROWSELL contacted the Air Traffic Control Tower at Gander International Airport. The Controllers working at the time advised that they had not seen anything out of the ordinary during their shift. They did advise, however, that an Eastern Provincial Airways flight had arrived at Gander International Airport at approximately the same time the U.F.O. was sighted. The Controllers also advised that this flight had made its approach to Gander Airport from the area of Soulis Brook and would have been flying fairly low in that area.

3. The object seen by Mr. HEFFERN and Miss HISCOCK was described as being oval in shape with two bright lights (similar to landing lights on an aircraft). These white lights appeared to be about twenty feet apart and several red and blue lights appeared to cross the object between the bright white lights. No noise noticed from object. The weather at the time of this sighting was clear and cold and visibility was excellent. The stars were visible.

78 DEC 23

4. Message forwarded to The National Research Council, Meteor Center this date.

5. The only explanation for this sighting is the possibility of the E.P.A. flight having been mistaken for a U.F.O. It might be noted that object was observed for a very short period of time from a moving vehicle by two people who admit that they were panic struck by what they saw. The vehicle from which object was observed was also travelling at a high rate of speed. No further explanation for sighting at this point.

THE AVIATION HISTORICAL SOCIETY OF N.Z.

Christmas Greetings and Best Wishes
for the New Year

The first flight of Richard Pearse in his heavier than air machine at Waitohi, New Zealand, 31st March 1904. He travelled 150 yards in the air and reached a height of about 12 feet. Power was provided by a 4 cylinder, 25 HP, horizontally opposed engine of his own design.

An artists impression based on patent drawings dated 1906.

PCR: FIRST HERE				

RE - OBJET: Edward ESAU - (DOB: 38-10-08) - Unidentified Flying Object
Summit Lake, B. C. 78-12-05
PRINCE GEORGE DETACHMENT CASE (UNORG.)

N78/236

1. A U.F.O. sighting was reported to this office on 78-12-05 at 2300 hours, Pacific Standard Time. Conditions were clear and cold, no clouds overhead, no moon, The temperature was -18°C, with little wind.
2. Sighting was reported by Edward George ESAU (DOB: 38-10-08), Box 28, Summit Lake, B. C., phone: 965-7736. Object was observed from his livingroom window.
3. Witnesses to this sighting are:
Emily Joan ESAU (DOB: 46-11-10), Box 28, Summit Lake, B. C., phone 965-7736, wife of Edward ESAU.
Norman NADON (DOB: 39-12-11), same address, NADON is a boarder at this residence.
4. The house is 22 miles north of Prince George, B. C. on Highway #97. It is on the south side of the highway, just before Summit Lake. The large livingroom window faces west across Summit Lake. The place is hidden from the town by trees and a hill.
5. All three people were in the livingroom of the house on the date in question. Edward got up to check the thermometer, which is on the right side of the window. The object was to the southwest and appeared to be the size of a light-bulb, white in colour. Emily and Norman watched the object with Edward. It appeared to be approximately 100 feet above the tree-line, but the distance could not be ascertained. Edward thought it might be 4 or 5 miles away, Norman thought approximately 30 to 40 miles away. The object got larger, and as it did so, it turned orange in colour.
6. Edward got a pair of binoculars and he and Emily watched the object. It appeared like a half-moon, with the flat portion horizontal. The left part of the curve appeared jagged almost like a flame burning. It was approximately 2½' to 4' in radius. NADON went outside, but could hear no noise. After approximately 5 minutes, the object started dropping and getting smaller. It eventually disappeared, leaving a pink glow in clouds in the southwest, some distance away.

RE-OBJET:

Edward ESAU - U.F.O. - continued

PAGE

2

7. Enquiries with town people and neighbours were negative. There are no other witnesses to this incident. It appears that the object was some distance away, as it left a glow in distant clouds. As stated earlier, the sky was clear in the immediate Summit Lake area. No other reports were received at this office with respect to this particular sighting.
8. Edward ESAU works for the British Columbia Government in Corrections Services. His wife is a housewife. NADON works for a caterer north of Summit Lake. None of them have a criminal record, or record of mental illness. They had not consumed alcohol or drugs in the last couple of days. They appeared like intelligent, normal people, and I feel that they definitely saw something.

No further action taken.

Concluded here.

On the 5th of JAN 79 at 2300 an object was sighted in the sky near Kathleen, Alta. The object was sighted by Gerry LAFLEUR and his wife, both of Box 58 McLennan, Alta. Tel:324-2182. They were in their residence when the following object was sighted to the South: a bright white oblong shaped object slightly smaller than the moon in size. They watched the object on and off until 0820 the following morning. The object remained in the same spot 450 up from the horizon until 0820 when it moved Southwest and disappeared. A check was made with several neighbours but no one else had seen the object. I feel Mr. LAFLEUR is a reliable witness and did see the above object.

RE - OBJET:

Murray Douglas P. BULMER - et al -
UFO Sighting
Sheffield, Sunbury Co., N.B.

1. DATE AND TIME: Sighted on 79-01-20 by Murray Douglas Patrick BULMER at approximately 4:15 am. Later five other individuals at the BULMER's house also saw the object.
2. CONDITION OF SKY: Condition of the sky was clear and there were many stars out.
3. LOCATION OF OBSERVER: The observer's position was initially in Oromocto, N.B. on the Oromocto Bridge. Later sighted at his residence in Sheffield, N.B., 5 miles from the bridge, east on the Trans Canada Highway (# 2).
4. OCCURRENCE OF BURSTS: Only one object was sighted.
5. LUMINOSITY: Luminosity of the object was brighter than the surrounding stars. Seemed to project a light of varying intensity.
6. COLOR: Color of the object was bluish white.
7. FORM: It's size seemed to be larger than the stars in the sky. It appeared to be oval in shape when sighted by the naked eye. When seen through binoculars it appeared to be two spheres resting adjacent to each other.
8. DURATION: The object was observed for a period of approximately three hours, 4:15 am - 7:15 am.
9. SOUNDS: There was no apparent sound transmitted by the object.
10. POSITIONS IN SKY: It appeared at a level lower than the other stars and about 100 feet above the top of the trees. It appeared to travel slightly to the south when observed over a period of time.
11. ANY UNUSUAL OBSERVATIONS: The light it projected seemed to change quite drastically in it's intensity. It should be noted that all people observing the light, gave approximately the same description.

RE: / OBJET: Rocky WHITE -
Sighting of UFO
Labrador City, Nfld., - 79 02 24

At approximately 10:40 p.m. on 24th of February, 1979 EDT Mr. Rocky WHITE of 4010 Duley Cres., Labrador City, Nfld. reported seeing an UFO in this area. At the time of the sighting the sky was very clear.

The observer was standing on the highway looking towards the West. He reported seeing a large object with lights in pairs about 30 to 50 feet apart. The lights were dull not unlike a house or plane light. He reported watching the object for about 30 seconds until it went out of sight behind a hill.

Mr. WHITE stated the object was oval shaped with eight lights which seemed to be in pairs. The object hovered over the top of a hill and then moved slowly down the side of the hill until it went out of sight. As it was dark he was unable to say what color the object was.

Mr. WHITE then drove approximately one mile further up the highway and saw the object again. At this time another vehicle came along and Mr. WHITE stopped along with the other vehicle and they both saw the object. We don't have the names of these people as Mr. WHITE was so excited he didn't get their names and they didn't report the incident.

They watched the object until it went out of sight into the trees. There was a noise so they left the scene immediately. Mr. WHITE then reported the incident to our office and a patrol was made to the scene by Cst. D. CHISHOLM and Cst. R. F. CUTHBERT of this Detachment, however, there was no sign of the object upon their arrival.

On the morning of the 25th of February, 1979 Mr. WHITE went to where he thought he saw the object go down. He went by ski-doo to see if he could find any trace of it. He examined the whole area with negative results. A local resident flying over the area on this same date was requested to look for anything strange. He reported that nothing strange was apparent.

Mr. WHITE is known to a few members of this Detachment and he is considered to be a very reliable person. However, we were unable to find any evidence to confirm his sighting. This report is being submitted for your information.

FILE NO: 1179/21

TIME/PLACE OF SIGHTING: January 28, 1979 0950Z SENNEVILLE, P.Q.

DURATION: approximately 10 - 15 secs.

NUMBER & TYPE OF WITNESSES: Mrs. Linda Joncas, housewife Senneville, P.Q. (36 Muir Park Circle)

NUMBER OF UFOs: 1

DIMENSIONS: approximately size of oval dinner plate at arm's length

COLOUR: object ring or donut shaped...yellow color...very bright white around

SOUND: low pitched hum pulsating when it disappeared.

ALTITUDE: slightly below tree top level (trees across from house about 200 to 500 ft. away.)

SPEED: approximately height of trees 40 - 50 ft. Object seen through upper branches

PLEASE PUT AN "X" NEXT TO THE APPROPRIATE ANSWER

WEATHER CONDITIONS

CLEAR PARTLY CLOUDY FULL CLOUD COVER RAIN SLEET SNOW
FOG HAZY WINDY Weather at 0900Z: Measured 2000 overcast, visibility 20mi. light rain, temp. 1 C., dew point 1 C., wind 270/04, press. 993.3

DESCRIBE AREA OF SIGHTING:

CITY SUBURBAN RURAL INDUSTRIAL COMMERCIAL RESIDENTIAL

DID THE SIGHTING OCCUR NEAR ANY OF THE FOLLOWING LOCATIONS?

RESERVOIR LAKE RIVER MILITARY INSTALLATION POWER STATION/POWER LINES
OTHER (PLEASE EXPLAIN) Not far from T.C. HWY 40 and MacDonald's College

WHERE WAS THE OBSERVER(S) AT THE TIME OF THE SIGHTING?

OUTDOORS INDOORS IN A CAR IN AN AIRPLANE OTHER (PLEASE EXPLAIN)

HOW DID THE UFO ATTRACT YOUR ATTENTION?

SOMEONE CALLED IT TO YOUR ATTENTION HEARD A SOUND AN ANIMALS REACTION
SAW AN OBJECT SAW A LIGHT ELECTRICAL INTERFERENCE DON'T KNOW
OTHER (PLEASE EXPLAIN) see below

WHERE WAS THE UFO WHEN YOU FIRST NOTICED IT?

IN THE SKY TREE TOP LEVEL ON THE GROUND OTHER (PLEASE EXPLAIN)

CHARACTERISTICS:

Witness woke up at 0950Z (according to lighted digital clock on bedside) to feed and change young baby. Noticed that bedroom was extremely lighted up. Everything in bedroom bathed in bright milky colored light. Went to the window and saw a donut or ring shaped object yellowish color shining this bright light through window. Witness woke husband up. As husband awoke, object shut off like a light being shut off and at this point low, pulsating hum heard for about 4 secs. Husband did not see object or associated light but confirms he heard the sound. Main witness was unable to get back to sleep. Very anxious and puzzled.

SOURCE: _____ COMMENTS ON BACK PLEASE → P.T.O.

During the day, Mrs. Joncas told her sister of the sighting and was advised to call the Sunday Express Newspaper as they knew someone who would take down a report. Editor of the newspaper ~~ix~~ called me to give telephone number of witness. Howard Gontovnick and I went to interview the witness the following Sunday and took down a more detailed report (In personal files). Witnesses requested that this observation should be reported to someone in scientific or government circles, although they were unaware if anyone collected such reports. We advised them that the NRC might be interested and therefore assured them that their observation would be relayed.

According to our information (NOTAMS) Valcartier launching Radiosonde Balloons Mondays, Wednesdays and Fridays at 1115Z. However we are doubtful that this was the cause due to overcast conditions at 2000ft. Balloon Float levels ~~100000~~ 100,000ft.

Observational data does not appear to conform to fire ball activity or bolides.

Possibly ball lightning.

Yellowknife, N.W.T. 79-02-16

- On 19 Feb 79 Miss Melanie BREWER (B:63-11-27) reported to our office that she had seen a U.F.O. 79-02-16. When asked why she did not report it then she stated that she hadn't planned to do so but made the report on instructions from her mother. The sighting took place between 10:30 p.m. and 10:45 p.m. Time is estimated by BREWER and is subject to some possible change. The weather was cold and the sky was clear. Miss BREWER was accompanied by Miss Deanna SARTOR (B:61-10-12).
- The sighting was first noted on the Old Airport Road located on the west side of Yellowknife within the city limits. The start of the sighting is marked #1 on the attached map. The solid red line shows the direction of travel of the vehicle the two girls were driving and the end of the red line (marked #2) is where they last saw the U.F.O.
- It was described as round and glowed as a white light. It moved at tree top level and was by itself. It was viewed by the girls for an estimated 6 minutes.
- As can be seen by the attached map the Yellowknife Airport is just west of the road the girls were travelling on. Checking with aeroradio revealed that a Wardair Dash 7 aircraft departed the Yellowknife airport at 10:50 p.m. that night. The broken red line on the map shows its general route of departure. It is to be noted that the Wardair flight crossed over the airport road from left to right as did the U.F.O. as described in the attached statements. The aircraft then crossed over the cemetery as did the U.F.O., and then crossed highway #3 as did the U.F.O.
- The area around the cemetery and stock lake is quite wooded and used quite often by ski-doo's during the day and the night. At night their lights can be seen flickering in the trees as a person drives his vehicle down this same road.
- The aircraft and ski-doo possibility was mentioned to the girls but they both feel that this is not what they saw. They say that the object travelled at an erratic speed, sometimes as slow as the vehicle they were travelling in and then would spurt ahead and wait for them to catch up.

7. These are two impressionable young girls who could very easily think they saw something which was not what it appeared. There were no other reports of a U.F.O. that night and the airport tower which was manned at the same and only located a half mile away saw nothing out of the ordinary. The girls were, however, very co-operative when questioned and appeared to be honestly trying to describe what they think they saw.

This is the statement of Melanie BREWER
(27/10/63)

A flashing, white light flying just above the treetops. The size is hard to tell but it wasn't very big. The time was somewhere between 10:30 and 11:00. We first saw the object by Rowest Automotives on Old Airport Road. It was on the left side of the road and crossed to the other side just above the cemetery. It followed us and just before we reached the T in the road to go to "Giant", it stopped flashing and crossed the road in front of us. It was kind of round and not very big. It continued following us until we were almost at "Giant" then it just disappeared. We looked for it but we didn't see it again.

• This is the statement of Deanna SARTOR (12 Oct 41)

It was about 10:30 Friday night, and I was driving out towards the airport, Melaine Brewer was with me. I looked outside the left hand side of the van and I asked Mel if she saw it and she said yes. It then went over to the right as I turned the corner and it was situated above the cemetery. We were going to go down there but we decided not to because of the object. We turned right and headed towards the turn off for Giant and YK. as we were heading along that stretch it was just above the tree tops on the left hand side. We turned off at the turn off ~~at~~ towards Giant and we lost it just at the bottom of the hill. We turned around and headed back for town. We looked for it, but it was gone. At one point as we were heading towards the turn off to Giant, it stopped flashing for a minute and, you could see sort of a white circular shape.

Dear Sirs:

Re: Melvin CHOMA - UFO Sighting
Bienfait, Sask. - 79APRO8

Please find attached a copy of report of a UFO sighting submitted for your information.

encl.

R. Zarusky
(R. ZARUSKY), Sgt.
i/c Estevan Det.

DETACHMENT - DÉPARTÉMENT ESTEVAN		TIME - HEURE 2220hrs.	DATE 79/04/08
NAME - NOM Melvin CHOMA		PHONE NO. - NO. DE TÉLÉPHONE 388-2436	
ADDRESS - ADRESSE 241 Aldridge st. Bienfait Sask.,			
LOCATION OF OCCURRENCE - LIEU DE L'INCIDENT 241 Aldridge st. Bienfait Sask.,			
DETAILS TAKEN BY - DÉTAILS NOTÉS PAR Cst. Shiells		MEMBER DETAINED - MEMBRE CHARGÉ DE L'AFFAIRE Cst. Shiells & Udey	
TYPE OF OFFENCE - GENRE D'INFRACTION			

U.F.O. SIGHTING

- C/N called to advise that he and Lyle WHEELER, Jeff WHEELER, and Greg WHEELER, all of Bienfait Sask., observed a object in the sky over Bienfait, and were of the feeling that this was an unidentified flying object. The object was blue and red in colour, surrounded by a white haze. C/N went on to say that they first saw the object coming in from Estevan, at a very low altitude, and remained stationary over Bienfait for some time. C/N requested that a member attend.
- A patrol made to c/n res. Upon arriving, the c/n pointed to a star like object high in the sky, stating that this was the object that he and his friends had seen earlier.
- The object was observed for some time, with the aid of binoculars. The object was very high in the sky, and was very bright, giving off a red colour at various times. No blue light was observed. The object did not move but remained stationary.
- Estevan weather station advised, and they stated that they have rec'd calls earlier in the season, about a similar form, and that with the aid of a telescope, and with a little investigation on their part, it was decided that it was most likely the planet Venus.
- C/N advised of findings, but the c/n still remained firm on what he saw. As investigating member, it is felt, that with all considered, that the object is most likely to be a star. This decision was made after observing the object for some time, and talking to the weather stn. However it should be noted that this event should not be taken to lightly as it was discovered, that members of Torquay Det., have seen similar objects in the past.

Dear Sir:

Re: Unidentified Flying Object

Sighting of UFO in region of Southern Ontario in the area of Scarborough, the following information has been accumulated:

1. Sighting made Sunday, May 27, 1979, at 2145h ^{in May 28/79.} Eastern Time Zone. 02:45
2. Weather conditions overcast, dark with low cloud.
3. Mr. Russell DOW and Mrs. Ann DOW of 58 Porchester Drive, and Mr. Gus PAPADOPOULOS, 56 Porchester Drive, observed the object.
4. Sighting made from front doorstep of 58 Porchester Drive, Scarborough, facing southerly direction.
5. The sighted object was circular with 3 to 4 bright white lights projected around the shape. Altitude: seemed higher than jets that frequent area. Move-ment: stop and go fashion for approximately 3 min-utes then fast motion upward at which time the object instantaneously disappeared.

.../2

National Research Council

Page 2

79-06-12

6. One object sighted which left vapor-like streams trailing.
7. Duration of sighting $3\frac{1}{2}$ minutes.
8. Observers further noted object emitted no engine sound.
9. The witnesses reliability is reasonably sound.

Yours truly,

S. V. Barron, Cst.,

at cottage on LOWER BUCKHORN LAKES (near
Peterborough). Mrs Gurari was sitting
writing in front of large picture
window facing north east.

at 01:30, 2 July see noticed two
brightly illuminated objects - one
triangular with rounded corners, the
other a narrow vertical strip.

 like such, I would think

Watched them for 5 to 10 minutes - no
motion, relative or absolute, no change.
then they simply disappeared.

Misc. -

- thought they were visible through
top area of window
- judged them to be "yards" in size; or
some of inability to determine both distance
& size. brightness & size.
- only light on a cottage was lamp
at her side; probably no question
of reflections.

RE:
OBJET:

Roger BRIDEAU (DOB: 21 FEB 54)
Sighting of U.F.O.
Pont Landry, St-Isidore, NB 79-07-05

Attached please find statement of BRIDEAU on a U.F.O. sighting.

BRIDEAU has been working at the cabaret KoKo Lounge in Tracadie for the past seven years. He is known to be a stable person and a non/drinker. It is the belief of the writer that BRIDEAU is a reliable witness.

No other confirmation available.

CONCLUDED HERE.

R. ST-JEAN, Sgt.
i/c Tracadie Det.

J.G.L. GAUTHIER, Cst.
Tracadie Detachment.

Déclaration de Roger R. BRIDEAU, DN: 21 FEB 54, demeure à Pont Landry, NB. Adresse: C.P. 874, Tracadie, NB. Tel: 395-5692.

Quand j'ai vu ça la première fois en haut de la butte, le premier effet c'était comme un coucher de soleil. Comme une grosse boule rouge. Je me suis dit en moi-même ça ne se peut pas il est 2:20hrs du matin. Ça faisait penser plus je m'approchait comme une grosse grange qui était en feu dans la nuit, mais c'était trop haut pour être ça. Plus j'avançais plus elle avançait elle aussi. Plus que j'allais vite plus elle allait vite elle aussi. Je la suivait. Elle suivait tout le temps sa ligne droite, toujours au-dessus des fils au dessus des poteaux de téléphone. C'était très gros, gros comme le magasin continental. Après ça elle s'éloigna mais à mesure qu'elle s'en allait il y avait quelque chose qui rafallait en-dessous ensuite je l'ai perdu de vue complètement, mais la première chose je l'ai vu de nouveau. Il avait un char devant moi, j'ai passé le char je l'ai suivi elle s'en allait tout le temps à même distance toujours au-dessus des poteaux de téléphone. J'ai continué, je montait à Allardville. Quand j'ai arrivé à la butte de la tour, en haut de la butte, là je l'ai vu elle était bien loin mais elle était arrêté. C'était fait pareil comme une soucoupe volante mais bien rouge, rouge au complet, à la grandeur et tu voyais comme la bosse dessus puis c'était rouge comme du feu. C'était rouge comme quand tu allume une cigarette et que tu souffle dessus c'était rouge comme ça.

Q. Quelle température qu'il faisait ce soir là?

R. Il faisait très noir. Il n'y avait pas de lune.

Q. Quelle grosseur que tu dis que c'était cette affaire là?

R. Comme le magasin continental. Comme le magasin au complet.

Q. Comment c'était haut?

R. Comme 15 à 20 pieds plus haut que les poteaux de téléphone.

Q. Quels sortes de mouvements qu'elle faisait?

R. Des fois tu le voyais qui prenait l'air et tu le perdais de vue. Mais la dernière fois que je l'ai vu tu voyais qu'elle était bien arrêté dans le ciel puis je la voyais, je savais qu'elle était loin, je la voyais toute comme il le faut.

Q. As-tu entendu du bruit?

R. Non aucun bruit.

.../2

Déclaration de Roger R. BRIDEAU, DN: 24 FEB 54, demeure à Pont landry, NB. Adresse: C.P. 874, Tracadie, NB. Tel: 395-5692.

Q. Quant est-ce que tu a remarqué la forme?

R. Quand elle était arrêté, c'était pareil comme une soucoupe volante que tu vois à la télévision.

Q. Comment de temps l'a-tu observé?

R. Au moins 5 à 6 minutes.

Q. Avais-tu pris de la boisson?

R. Non pas une goutte de boisson. Je m'en allais à Bathurst. Je finissais de travailler. Je suis waiter dans un cabaret, le Kô-Ko Lounge à Tracadie, ça fais 7 ans que je fais cela.

Q. As-tu d'autres chose à ajouter?

R. Il parait que Fernand LOSIER la semaine passé à vu la même chose. Il la suivi de Tilley Road à St-Pons. Il n'y avait aucun reflet. Il n'y a eu aucun bruit ou aucune explosion.

J.J.L. GAUTHIER, Cst.

July 79 no time U.F.O.

N 75/056

1. While proceeding EAST on Highway 12 towards TEES, the following was observed by the writer and my 16 year old daughter;

A bright red light was observed above the noted location, after observing the light for approximately 10 minutes, two bright white lights were activated, this lasted for approximately 15-20 seconds, it was felt at first that the lights were those of a passing aircraft. I continued to observe the light noting at the same time that as I approached the light was not moving but was in a stationary position. After approximately 10 minutes the two white lights were again activated, as I approached TEES the object was noted to have a circular shape and consisted of the Red light on top with white lights around the centre with a green light on the bottom. The object was in view for a time period of 20-30 minutes from the first sighting until it left the area at a very high rate of speed.

The weather conditions at the time were as follows;

Sky- Some cloud and prior to sighting it had been raining however the sky was clear.

19 July 23:15 loc
N79/53

On the 19 day of July, 1979 at approximately 23:45 a call was received from the above captioned reporting that his wife and him had just seen a U.F.O. Secord stated that he was looking in a southerly direction through the kitchen window when he saw in the sky a light just about the same size of the North star but brighter. He then called his wife and they observed it for about 20 minutes. Secord got interested in the light when he noticed that the sighting was moving. He said that the light was standing still for a while then moved to the right very quickly then stopped. Then it moved back to the left at the same speed. The same movement was also noticed going up and down. Secord stated that the light seemed to always go back to the same place in regards to the tree from where he had pin-pointed the sighting.

79-08-15

On this date both Secords were visited and a statement was taken from them and attached to the report.

-------------	---	-----------

On the 19 day of July 1979 at approximately 23:15, I was inside the house looking through the kitchen window. The window in the kitchen goes South West. I saw a light slightly larger than the stars; slightly larger and brighter than the North star. It was moving eraticly. At first, I thought it was an helicopter but there were no visible other light such as red or green lights. I observed it for about 20 minutes. It was moving at different angles but always coming back to the same point. It was moving too fast to be a plane or any known flying object. The sky was all clear that night, there was no clouds. At one point while I was observing, I noticed a plane go by about 10 minutes through the sighting and the sighting to compare with the size of the green and red lights of the plane, the sighting was slightly smaller. I did not see it disappear all I know is when I went to see it later, it was gone.

All the time of the sighting I was with my wife and we decided to call it to the police in case somebody else would have seen it or if anyone knew what was going on.

On the 19 day of July, 1979 at approximately 23:15 I was getting ready for bed when Nick called me from the kitchen. He asked me to come see at something. I looked out the kitchen window with him and I saw it. To me, it looked like a large star, just about the tree line. It was moving. It was not moving all the time, just periodically. It would dash away then come back to where about it started going up and down, side ways. It seemed so far away that in order to move the way it did, it would have to be going at a tremendous speed. I went outdoors with the binoculars it seems that I could see redish light but without the binocular I could not see any redish lights. I observed it for just about 20 minutes and then we turned away then turned back and it was gone.

1. Further to our message forwarded to NRC Meteor Centre, Ottawa
 24 July 79 via telex number 053-3715

2. Message forwarded on that date read as follows:

- (1) Date: 79-07-23
 Time: 2245 hours (Atlantic Time Zone)
- (2) Condition of sky: clear
- (3) Observer: Miss Kimberly WARREN
 (24 years old)(Insurance Agent)
 ADD: 1815 24th Ave., North West
 Calgary, Alberta
 Temp.ADD: 48 Cloverville Road
 Antigonish, Nova Scotia
- (4) Location of observer at time of sighting:
 Heatherton, Antigonish County, N. S.
- (5) Witness: Lucille CHAISSON
 (26 years old)(Secretary)
 ADD: 5A Silverwood Drive
 Antigonish, Nova Scotia
- (6) Description of sighting:
 -No object shape available
 -Observed three lights. Two bright lights
 continually shining on either end. Lights
 were white in color. One flashing light
 in the centre. This light was less bright
 and flashed at about 15 second intervals.
 -Altitude could not be determined. Describ-
 ed as not very high.
 -Movement of object: was back and forth
 in form of an arch.
- (7) Duration of sighting was 7 - 8 minutes.
- (8) Reliability of witnesses - unknown.

3. Attached to this report, also are statements taken from the
 witnesses who reported seeing the unidentified flying object.

..... 2

RE-OBJET

Kimberly WARREN
 Report of sighting U.F.O.
 Heatherton, Antigonish Co., N.S.
 79-07-24

PAGE

2

4. The actual sighting took place at approximately 2245 hours on the 23 July 79. The report did not come through our office until two hours later, because of some hesitancy on the part of the observer. Both observers felt they may have a problem convincing authorities to believe them. After a fair amount of convincing by their friends the report was filed at this point.
5. Complainant was interviewed at some length at this time and gave the information supplied in the original message. This information was reconfirmed the following day when statements were taken from both observers.
6. Both observers described very vividly the sighting of three lights which hovered over the Heatherton area. The three lights were described as two very bright ones on either end with a flashing light in the centre.
7. At the first sighting the observers were proceeding west on Highway #104. The first impression was a helicopter, however, the length of time it was stationary appeared somewhat unusual. After viewing it for five to seven minutes, they stopped their vehicle and got out. Once outside they could hear absolutely no noise, but felt the object should be close enough to hear any motors. They could see absolutely no structural design of any object to which the lights might be attached.
8. The lights, then began to move gradually out towards George Bay and disappear from their visibility into the Northumberland Strait. Once the object started to move, it was described as picking up speed at a tremendously fast rate.
9. This sighting was determined to be around 2245 hours.
10. At 2300 hours a Mr. Jack MACPHERSON, of MacDonald's Trailer Court, Antigonish, N. S., was at his cottage near Malignant Cove, Antigonish County, N. S. MACPHERSON and his wife, Patricia MACPHERSON, both reported seeing the same or a similar object. Their description was identical to the one given by WARREN and CHAISSON. They did not see the object move. During their sighting it remained stationary for approximately 8 to 10 minutes. They returned to their cottage temporarily for about 2 minutes and when they returned outside there was absolutely no sign of the lights anywhere.
11. MACPHERSON reported his sighting to be over Cape George, Antigonish County, N. S. This would put his sighting approximately 25 miles north of the original sighting by WARREN and CHAISSON and 18 miles west of his own position. The direction of travel stated by the original observers, would coincide with the sighting by MACPHERSON.

..... 3

RE-OBJET:

Kimberly WARREN
Report of sighting U.F.D.
Heatherton, Antigonish Co., NS
79-07-24

3

12. MACPHERSON also reported seeing two objects at the same time. The second set of lights were further out to sea and he could not be so concise on his description or exact location. Felt it would be about five miles or more west of the sighting over Cape George.
13. There were other sightings, also reported, however, no further information could be learned. Information received described the sightings as previously outlined by the four mentioned observers.
14. Reliability of original observer is unknown. Mr. & Mrs. MACPHERSON however, are known to be very reliable.

CONCLUDED HERE

R. C. M. POLICE

Statement of Kimberly WARREN DOB: 17 Dec 55

It was on the evening of the 23rd of July 1979 at about 10:10:45pm. It was about five miles east of Heatherton, we were coming from Cape Breton. We saw some lights flashing and Lucille said "What's that?". I didn't know but didn't feel it to be a plane because it wasn't moving. It was about this time we both realized we didn't know what we were looking at. We kept looking at it as we were driving along the road and then stopped the car in Heatherton. I got out to look at it and told Lucille to turn the car off and see if we could hear anything. The object started moving towards the ocean but it wasn't moving in a straight line but more in the form of an arch. It then kept on going out of sight so we got in the car and drove away.

2. When we first spotted it, what caught my attention was the flashing light. Then there were the two bright outside lights that appeared to be much brighter than the one in the centre. The flashing of the centre light wasn't consistent, it would flash fast some times and not as fast other times. I don't know how high it was but lower than a plane. At first we thought it was a helicopter.

(Sgnd) Kim WARREN

Statement of Lucille CHAISSON

DOB: 29 Jan 53

Last night at about 10:45pm we were travelling west on the 104 Highway in the vicinity of New France. This would be just a short distance east of Heatherton. The first thing that got my attention was the blinking light. At first we thought it might be a star because it was a beautiful clear night. Then there was the large lights beside it, so we drove on a few more miles still watching it as we were travelling. The lights still appeared to be stationary so we decided to stop and investigate further. About a minute after we stopped, it started picking up speed with the light still flashing but not at regular intervals. At first when the object started to move it did not go in a straight line but in the path of an arch. Then when it did pick up speed it went very fast in a straight line in a northerly direction towards the water.

2. There was absolutely no noise that we could hear coming from the object. I have no idea about the height it was hovering but about the same as a helicopter. That was why we shut off the motor of the car to try and hear any motors on whatever. The only thing we could see were the two large bright lights on either end and the flashing one in the middle. Could not see any shape of the object other than the lights.

GUAY) aurait reçu un appel téléphonique à l'effet que vers la mi-juin 79, deux (2) individus auraient observé un O.V.N.I. au-dessus de Canadair. Copie de cet incident ci-attachée.

2. Nous vous annexons également une copie des dires et dessins de l'observation oculaire de M. Roger MAINVILLE, gardien de sécurité chez Canadair.
d.n.: 31 juillet 1939
Adresse: 239 Shamrock Drive, Pincourt, P.Q.
Tel. Résidence: 514-453-5332

3. Faisant référence à l'appel téléphonique reçu par M. J.M. GUAY, une tentative pour retrouver les noms des individus et leur numéro de téléphone, révèle que cette information fut remise à un préposé de leur bureau des relations publiques, et celui-ci l'aurait transmise à M. John ROBINSON de ce même bureau.

4. M. ROBINSON fut contacté le 6 août dernier, et il m'informe qu'après maintes et maintes reprises, il n'eut aucune réponse au numéro de téléphone qu'il avait reçu de M. GUAY. Cette action fut répétée durant deux jours, toujours sans réponse. C'est à ce point qu'il jeta à la poubelle le

N79/70

Identified as meteor Sept 79.

Dear Sirs:

I would like to report the following meteor:

- A) The date was August 2, 1979. The time was 0456 GMT.
- B) The sky condition was as follows: 5000 scattered (4/10 S.C.), estimated 8000 broken (4/10 A.C.), 28,000 overcast (2/10 CI). By my own observation, the moon was dimly visible.
- C) We were standing at the north eastern edge of the racetrack located on the exhibition grounds, Vermilion, Alberta.
- D) No bursts were observed.
- E) The luminosity was very bright, comparable to high beam headlights.
- F) The color was bright white.
- G) Being that we were quite a little ways away, the size is hard to relate. I would compare it to about the size of a 25c piece held quite close to you. The tail extended perhaps ten or twelve inches behind that.
- H) The duration was about five seconds.
- I) No sounds were heard.

- J) It was first sighted approximately straight north of us and if I had been flying, I would have said it was about 1:30 high. It was traveling east to west in an almost horizontal plane. It disappeared while still on about the same plane as when we initially saw it, though it was over into the north west by this time. Whether it burned up or went behind a cloud I don't know.
- K) The only thing that I can say was unusual about it was its size. I have seen hundreds of small meteors while flying, but I have never seen one this size before.

I hope that this can be of some help to you.

Yours truly,

John Rogers

of Astrophysics

Dear Sir,
 On Aug. 17, 1979, I was
 flying from St. John's, Que., to
 Windsor, Ont., heading 270.
 I was in a single prop, fixed
 wing, with blue markings,
 1974, Charley Walker aircraft
 I was sitting beside the pilot in
 the cockpit. The two passengers
 were behind us with no occupied
 floor seats: neither myself or the
 pilot were under the influence of
 alcohol or drugs. I am 45 yrs.

Miss Elaine L. Abbot
 98 May Street,
 Windsor, Ont.
 K7S 1E5,
 Aug. 31, 1979.

We are both healthy, stable, cool,
 calculating individuals, not
 given to hallucinations or hysterics.
 We have known each other over
 25 yrs. I am, by profession, a
 medical technologist. The pilot
 is, by profession, a police officer
 of approximately 16 yrs. experience.
 He is also a cattle farmer, and
 has had good fortune in the stock
 and bond exchange over the past
 30 yrs. He is a pilot of many
 years experience, and owns the
 aircraft we were flying in.
 We were cruising at an
 altitude of approx. 10,000 feet.

©

D. Davis. We were above the
 Holman hills, approximately
 40 miles N.E. of Davis.
 Visibility was excellent -
 maximum, approximately 40 miles
 or more, minimum, 25 miles.
 The time of the following experience
 was 2100 hrs. The pilot made
 a stop at 2100 hrs, turned over
 and affected.
 I looked out of my window
 and observed the (B) wing becoming
 red in color. I then looked to my
 left, past the pilot's head, and
 observed that the (A) wing was also
 red in color. I mentioned my
 observations to the pilot and he

(3)

performance of the aircraft.
 The pilot said to me, "The
 aircraft is slowing down - cut
 air speed to 0" - The instrument
 are behaving abnormally."
 said to the pilot "Take it down
 1000 ft". He replied, "I can't,
 I can't control the aircraft."
 The controls are jammed or
 something - we should be falling
 up we aren't". I said "There
 is something out there - it
 must be really over heat. I can't
 see it". The pilot agreed.
 At that point we both felt the
 aircraft being pulled upwards.

(4)

radiant
 if told, we saw the red side
 than the white side, and it rolled
 along the cloud upward to our
 view. When it sped away from
 our aircraft, we had a falling
 sensation. The aircraft were
 following to normal. The
 altitude had 5000 ft. We
 estimated that we must have
 fallen 1000 ft. before we got this
 feeling. In fact we estimated
 that we had been down upwards
 2000 ft. at least. At 4300 ft., we
 were flying once again, right on
 level, just as if had been before
 the experience. The temperature

②

appeared to be stationary in the
 sky, were being drawn upwards.
 The pilot looked out the right
 window and said to me, "Try
 first, look at the top of it; it
 must be close to 300 ft. in
 diameter." When I looked, I saw
 a gigantic red ball of energy,
 close to the right wing and close
 to the aircraft. It sped away rapidly
 and as it did it appeared to be
 while light on the ^{white} side.
 The depth of it was approximately
 50 ft. It disappeared into a large
 dark grey cloud to the west of us,
 only to re-appear in the same
 cloud following the same

③

⑦

This experience lasted 5-8 min. approximately... by my watch. We ruled out St. Thomas fire because of the duration of the experience, plus "it's" re-appearance in the distant cloud. As we descended to land at Annapolis airport, the rolling, red and white, motley ball, disappeared into the orange sky of the sunset.

I am reporting this to you as I feel it is my duty to do so. You may keep this for your records. We feel that we were very fortunate. This thing could

⑧

be so fortunate.

The pilot is [redacted]
[redacted], Ont; telephone [redacted]
He can usually be reached mornings 9 a.m. to 12 noon, with the exception of Wed and Sat and Sun.

Should you wish to contact him regarding this matter, please use discretion, as his young wife is insanely jealous of him, and very protective of 2 young children. She does not respect him or his rights. She opens his mail and intercepts with his phone calls. Try to check

(9)

for the time being at least, should you not be able to speak with him privately. If he cannot speak freely, leave your name and number and he will return your call. Or better still, phone or write me, and I will relay your message to him. This latter method would be more reliable. The pilot has hesitated informing you of this sighting due to his marital set up. He is presently proceeding with divorce proceedings however that is not yet completed. ~~That conclusion would be most~~

(10)

At the advice of my personal physician, here in Atorpiot, I requested that screening tests be done to determine whether or not, the pilot and myself were exposed to excess radiation, and absorbed same. I made this request Mon, Aug. 20th, to St. Wate of Radiation Protection Bureau 998-4700 under the Federal Health and Welfare Dep't. 996-4950, by telephone, and I must say that he was less than helpfull, or co-operative. He claimed our case to be beyond his realm of experience, and let the matter drop at that

Dr. Ian Halliday
National Research Council
Ottawa, Ontario

[N79/93]

Sir:

On August 19, I was with a group of friends camped beside the Spanish River, north-west of Sudbury. At 9:45 pm we observed a bright light, larger than a star, moving approximately south to north with a long, fiery tail. About 4 minutes after it passed we heard a boom.

Could you give me any information about what we might have seen?
Thank you

Satellite reentry

Sincerely,
Jane Brenner

To whom it May Concern

On August 19th at 9:45 at 78° 17 min west
 46° 37 min North at Lac des Saadiers P.Q.
 We were having supper outside when I noticed
 a fire ball going across the sky from
 South West to North East approximately
 25° above the horizon it was visible for
 about 45 seconds it was white hot
 and left a trail of sparks or tail
 behind it in the clear night air it looked
 to be about 1/4" in size and the tail was about 15 to 20 times
 as long as it was. There was no sonic
 boom and it was travelling level with
 with the horizon

(N79/75)

1. This date, Albert E. HENDERSON, 5 Hartley St., Brockville, Ontario, advised that on 79-08-29 at 22:00 hrs., on the Hwy. 401 at River Rouge, Quebec, he spotted a U-shaped, yellowish-orange light in the sky. He said the object divided, consolidated and, at times, was in three separate layers. He stated the object was ahead of his vehicle and on the north side of Hwy. 401, and that it disappeared at Riviere Beaudette, Quebec. He said he had it in sight for approximately 25 miles and could not gain on it. His wife, Helen, and a friend Jane Kendrick, who was visiting from Britain, also witnessed this object.

2. The following information is being submitted in accordance with OPS. Manual I.3.E.22.a:

- (1) Date & Time of Sighting: 79-08-29 - 22:00 hrs. 30/8/79 03:00
- (2) Condition of Sky: Cloudy.
- (3) Identity of Observer: Albert E. HENDERSON, 5 Hartley St., Brockville, Ont.
- (4) Location of Observer at Time of Sighting: Between River Rouge and Riviere Beaudette, Quebec.
- (5) Identity of Others who saw U.F.O.: - Helen HENDERSON, 5 Hartley Street.
- Jane KENDRICH, Britain.
- (6) Description of Sighting: U-shaped, yellowish-orange, just below clouds, straight line, parallel with Hwy. 401. One.
- (7) Duration of Observation: Approx. 20-25 minutes.

3. It should be noted that Mr. HENDERSON is a practising lawyer in Brockville. Other than this fact, the writer is unable to form any conclusions on the reliability of the witnesses. A copy of this report is being forwarded direct to National Research Council, Planetary Sciences Section, 100 Sussex Drive, Ottawa, K1A 0R6 for their information and any other action they deem necessary. No further action being taken this point.

Re: Possible UFO Sighting

On September 01, 1979 Cornelius BLANCHARD of Cold Brook, Newfoundland, DOB: 39 APR 03, called this office advising that last night around 00h30 he observed a strange phenomenon.

Sept 1, 04:30

2. Mrs. Rita BLANCHARD stated that she thought she heard a noise outside her window. The noise sounded like a screech. When she looked through the window there was a reddish light in the clouds.
3. The lighted object dropped and in about five minutes it appeared to be down to the top of the trees. The object was about 500 feet from the house. The light would disappear and shortly afterward, would reappear in the same area. This was observed by both Mr. and Mrs. BLANCHARD.
4. Mrs. BLANCHARD stated the object appeared to be about 20 feet wide while Mr. BLANCHARD stated that the object was about 3 to 4 feet wide. He stated the object was like looking into the sun. The colour of the object was that of the sun setting in the evening.
5. BLANCHARD searched the area the next day but did not notice anything out of the ordinary.
6. A check with the weather station revealed there was light rain at the time, winds southwest at 15 knots, and temperature 19°C.

OUR FILE / NOTRE RÉFÉRENCE	
YOUR FILE / VOTRE RÉFÉRENCE	N 99 / 82
DATE	September 12, 1979

SUBJECT / OBJET RE: U.F.O. SIGHTING

*Identified as Meteor
sept 79.*

Beverly CROUSE and Marcella CROUSE of Branch LaHave, Bridgewater Nova Scotia reported they observed a very bright red ball, which was very high in the sky and a bit larger than the sun, for a duration of approximately four seconds.

Date and Time: - Friday, 7 Sept. 79, 11:00 P.M.
Atlantic Standard Time

Condition of Sky: - Clear *Sept 3:00 2*

Location of Observer: - 6 Miles away - in their house

The object lasted for 4 seconds and then became smaller and vanished. The witnesses appeared to be normal and sober. They are both in their early thirties. A patrol was sent to the area but nothing unusual could be found. Reporting this for your information purposes.

METEORITE/UFO REPORT OF SIGHTING

FILE	(4712-8)
ENCL.	
DIR TO	A. Cloutier
INDEXED BY	#493
MAIN FILE CHARGED TO	

Date of sighting: 16 September 1979
Day Month

Time of sighting: 8³⁰ till 9⁰⁰ a.m. p.m. (Circle correct one).

Condition of sky (clear, cloudy, haze, etc.) clear

Location of observer (as precise as possible) travelling in car between Newport NS + WNFille NS, via Hwy 101.

Name of observer Gwenyth Phillips,

N79/93

Name and addresses of others also observing:

1. Wayne Phillips (same address)

2. _____

3. _____

Description of sighting:

1 Shape - not discernible - only lights could be seen

2 Size (compared to a known object) _____

3 Colour(s) (including any changes) red (2), green + white lights

4 Altitude (in degrees above the horizon) (a) at first sighting 30 °
 (b) at last sight 130 °

5 Movement: (a) direction it was going in general in same direction as we were travelling
 (b) speed from nil to extremely rapid
 (c) hovering (if any), height, duration, etc. yes - at 80° to horizon for several minutes
 (d) any change in speed yes

6 Number of objects observed one

7 How long was it observed for approx. 1/2 hr.

8 Description of any sounds heard nil

9 Was the sighting seen

- (a) through a glass window - Yes/No
 (b) from a car - Yes/No
 (c) in the open Yes/No

No further reports received - unknown source of this sighting.

(Over)

10. Other information and narrative report.

Our attention, initially, was drawn to an object with a white light + flashing red about 30° to the horizon. These lights seemed to cross the highway at a relatively low altitude. All of a sudden a green + red flashing light appeared on the same object and after several minutes it again became only a red + white light. It seemed to go parallel to our direction. As we approached Windsor N.S. the object changed altitude very quickly and only a red light was noticeable at about 80° to the horizon. The object appeared to be hovering. Within moments this object moved across the sky to approximately 130° — almost instantaneously. At this point the red flashing + white light were visible — the white light being very intense. The object again moved parallel to our automobile throughout the remainder of our drive.

Return to: Professor R. H. MacNeill,
Acadia University
Wolfville, N. S.

FILE	(4712-5)
ENCL	
DIR TO	A Claude
INDEXED BY	#92 B
MAILED	

57 Pleasant St.,
Sutton, Quebec.
October 5, 1979.

Sirs:

METEOR

N79/95

I wish to report my sighting of a U.F.O. The date was September 25, 1979, and the time was 4:25 A.M. The condition of the sky was brilliantly clear. As I watched, looking eastward from my ground-level bedroom window, it hovered just over a field, across Pleasant St. This large field is between two houses, near the corner of Western St, located on Pleasant St., in Sutton, Quebec. The light was a shimmering, white one. Its form was circular, and there was no sound. (My window was open.) Location in the sky was low enough to have the sighting lost for a few seconds, because a Hydro pole blocked the viewing. As for duration of time it hovered, I think about 2 minutes would be a close timing. I was further impressed by its subsequent ability to suddenly then gain altitude, which caused me to move to another window, looking southward. By then, it was up with the stars, moving southward, then out of sight.

Yours truly,
Dorothy H. Taylor
(Mrs. R. A. Taylor)

QUOTE

RE: U.F.O. OUR FILE: 79-19867 79-10-05

IT IS REQUESTED THAT E DIV NOTIFY THE N.R.C. AT TELEX NOS.
053-3715 CONCERNING THE FOLLOWING SITING OF A U.F.O.

AT APPROXIMATELY 00:20 HOURS, 79-10-05 DAYLIGHT SAVING TIME,
REG. NO. 29294 CST A.B.M. MILLER, SIGHTIED THE FOLLOWING U.F.O.
WHILE HE WAS PARKED IN HIS POLICE CAR ON LAC LE JEUNE ROAD,
KAMLOOPS, B.C. CLOUD COVER AT THE TIME OF SIGHTING LIGHT, 4/10THS
OF WHICH COULD NOT BE SEEN THROUGH. AT THIS TIME A DULL ORANGE
LIGHT WITH THE APPEARANCE OF A FLARE APPEARED IN THE SKY
APPROXIMATELY 1/2 MILE WEST OF THE POLICE CAR AND REMAINED THERE
FOR APPROXIMATELY FIVE TO TEN SECONDS AND THEN DISAPPEARED.
ABOUT THIRTY SECONDS LATER A HUGE CRAFT APPEARED TO APPEAR DIRECTLY
OVERHEAD OF THE WRITER WITH A SUDDEN BURST OF EIGHT TO TEN
EXTREMELY BRIGHT LIGHTS. THE THING REMAINED STATIONARY FOR
APPROXIMATELY TEN TO FIFTEEN SECONDS AND THEN HEADED EAST AT
AN EXTREME RATE OF SPEED.
WITHIN TWENTY TO THIRTY SECONDS IT DISAPPEARED FROM SIGHT OVER
THE MOUNTAINS NEAR MT. LOLO.
WHEN IT FIRST WAS SIGHTED AND WHEN IT PROPELLED EAST NO SOUND
COULD BE HEARD FROM IT.
CONTINUED PAGE 2

NRC OTT

NRC OTT
PRIORITY VIC 050CT UNCLAS
2ETELCOV5/361

PAGE TWO

WHILE THE CRAFT WAS OVERHEAD AND AFTER IT LEFT, CST OTTO , WHO WAS NEAR LAC LE JEUNE TURN-OFF, ADVISED HE SMELLED A STRONG ODOR OF SOMETHING SIMILAR TO A FUSE FLARE. SEVERAL MEMBERS AND A NUMBER OF CIVILIANS SAW THE CRAFT WHILE IT WAS MOVING. HOWEVER NO ONE SAW IT STATIONARY. MOST REPORTS INDICATE IT WOULD HAVE BEEN APPROXIMATELY AT CLOUD LEVEL WHICH WOULD BE 1/4 TO 1/2 MILE HIGH AS IT APPEARED TO LIGHT UP CLOUDS AND SMOG AS IT TRAVELLED: THE WHOLE TIME IT MOVED, IT APPEARED TO BE ONE CRAFT, AS ALL THE LIGHTS REMAINED IN PROPORTION THE WHOLE DISTANCE. IF IT WAS ONE CRAFT IT WAS A MINIMUM OF 1000 FEET IN LENGTH AND HAD A TALE APPROXIMATELY 100 FEET. THE SIGHTING HERE APPEARED AT 00:20 HOURS. SALMON ARM ADVISES IT WAS SIGHTED AT 00:28 HOURS AND REVELSTOKE REPORTS IT AT 00:30 HOURS. ALL REPORTS INDICATE IT WAS APPROXIMATELY 1/4 TO 1/2 MILE OFF THE GROUND AND APPROXIMATELY 1000 FEET OR MORE IN LENGTH. MT. LOLO RADAR BASE WAS ADVISED OF THE OCCURENCE, HOWEVER WOULD NOT OFFER ANY FURTHER INFO. 9.1 NORAD HQ WAS CONTACTED AND ADVISED THAT THE SIGHTING WAS THE RE-ENTRY OF A RUSSIAN SPACESHIP. IN VIEW OF THE FOREGOING A REPORT WILL NOT BE SUBMITTED UNLESS OTHERWISE REQUESTED. UNQUOTE PLEASE ADVISE IF A FURTHER REPORT WILL BE REQUIRED

Dear Sir,

RE: Unidentified Flying Object,
Shediac Detachment area,
79-10-23.

N79/106

1. Date: 79-10-22
Time: 20:00 Hrs. *23/10 00:00*
2. Condition of sky: Clear sky.
3. Witnesses:
 - Mr. Albert MAILLET (Tel. 532-5481)
Tipperary St., Shediac, West. Co., N.B.
 - Mrs. Albert MAILLET,
Same As Above.
 - Son of above two previous persons and
his friends.
 - Mr. Arthur CORMIER - 19 Gallagher St.,
Shediac, West. Co., N.B.
4. Above witnesses were at or near Mr. Albert MAILLET's residence
in Shediac, N.B.
5. As per witnesses, there were five or six objects flying at an
altitude of approximately what an helicopter flies, objects would have
a yellow light under it which would make it impossible to described the
shape of the objects. Objects were proceeding North.
6. Approximately 15 minutes.

..12

7. There were other unknown witnesses to this U.F.O. Information revealed that witnesses were reliable.

Yours very truly,

Maxwell Richard
J.F.M. RICHARD, Cst.
Shediac Detachment.

UFO REPORT

N79/112

Telephoned by T.J. McCarthy of Ottawa. *to HCN.*

- An aircraft controller, on his way home from Ottawa airport.

Time of Event: 14 Nov. 1979. 06:26 AM (Twilight).

Place: From Riverside Drive, near Mooney's Bay.

Observation: In the west. A bright white light moved swiftly downward and disappeared behind roof tops. Duration of event less than 1 second. Angular dimensions - greater than a first magnitude star, and less than 1/6 diameter of the moon.

This report recorded at NRC 16/11/79.

NOTE: Description fits that of a bright meteor.

OCCURRENCE REPORT
RAPPORT D'INCIDENT

OCCURRENCE NO. / INCIDENT N° 79/401		FILE NO. / DOSSIER N°
DETACHMENT / DÉTACHEMENT HOPE		TIME / HEURE 1720
NAME / NOM Mr. MURPHY		DATE 79-01-31
ADDRESS / ADRESSE 31181 Front St., Yale, B.C.		PHONE NO. / N° DE TELEPHONE 863-2357
LOCATION OF OCCURRENCE / LIEU DE L'INCIDENT Yale (in the sky)		
DETAILS TAKEN BY / DÉTAILS NOTÉS PAR C. LYNDON	MEMBER DETAILED / MEMBRE CHARGÉ DE L'AFFAIRE Cst. R. Lamb	TYPE OF OFFENCE / GENRE D'INFRACTION

C. OF FIRE IN THE SKY

N79/113

C. called office advising that approx. 5-10 minutes ago he saw a ball of fire in the sky. C. saw nothing before the fire and nothing after. C. also did not hear any noise previously, such as an airplane, etc.
Cst. Lamb advised

1725: Air Sea Rescue (732-4141) advised, requested to check if they had any info on overdue planes. Negative at this time would check further and advise.

C. could not give any location other than behind (North) of Yale.

1755: Air Sea Rescue called advising checks done. Vancouver Air Traffic control negative. Believed it may possibly have been a landing light being turned on or a flash from sun hitting an aircraft.
Cst. Lamb Advised.

C.L.

Talked with Cst. Dersch in regards to this matter, he advised that Cst. Leyh had seen item in sky also. At this time it appears same was probably a meteor or something similar.
Attended and talked with C. in Yale. He stated that he only saw a flash of white light and that it quite possibly could be a meteor. He was quite happy with action. Unless further is learned this file will be

CONCLUDED HERE.
