REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional sheets, please use another sheet of paper. Please print or type neatly. Your assistance is of great value and is greatly appreciated. Thank you.

Dear Mr. Carr:

Hamilton Jordan's office has asked us to respond to your letter of July 20 concerning your UFOCOE plans.

We appreciate your interest in the UFO phenomena and your willingness to work personally with Mr. Jordan on this matter. However, because of the pressure of Mr. Jordan's other responsibilities, this is impossible at this time.

The extensive and growing interest in UFOs has resulted in consideration of placing responsibility for their future investigation in the hands of the National Aeronautics and Space Administration (NASA). Should these considerations materialize, we shall be pleased to put you in touch with the person best qualified to evaluate your ideas.

Again, thank you for your offer of assistance in this matter.

SUBJECT: UFO's *Unidentified Flying Objects*

UNIDENTIFIED FLYING OBJECTS

NASA is not involved in research concerning unidentified flying objects. Reports of unidentified objects entering U.S. air space are of interest to the U.S. military as a regular part of defense surveillance, but no government agency is conducting an ongoing investigation of UFOs at this time.

An extensive study known as Project Blue Book was undertaken in the 1960's by the U.S. Air Force through a contract with the University of Colorado. Based on the findings of this study as reviewed by the National Academy of Sciences, the Air Force terminated the project December 17, 1969.

The University of Colorado report, entitled Scientific Study of Unidentified Flying Objects, was published in paperback by Bantam Books. A three-volume photoduplication (AD 680:975-6-7) may be purchased for \$18 from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. The complete reports were transferred from Air Force storage in July 1976 to The National Archives, 8th Street and Pennsylvania Avenue, N.W., Washington, DC 20408. Those wishing to view the report must obtain a researcher's permit from the National Archives and Records Service.

The University of Colorado study reached the following conclusions: (1) there was no evidence that the subject of UFOs had been "shrouded in official security"; (2) UFOs did not constitute any hazard to national security; (3) two decades of UFO study had made no significant contribution to scientific knowledge; and (4) further extensive study of the general topic could not be expected to contribute meaningfully to the advancement of science.

Dear Frank:

In your letter of July 21 you expressed the view that NASA should be the focal point for UFO matters, and specifically recommended that a panel of inquiry be formed by NASA to see if there are any significant new findings since the Condon report and that NASA become the focal point for general correspondence and inquiries.

While we are inclined to agree with your recommendation, there are a number of questions which need to be resolved before any formal program is undertaken. You may know that the Air Force served as the focal point for UFO matters during the 1960's and devoted considerable resources to the program. It, however, concluded, in the absence of significant findings, that the program warranted no more than routine form letter answers to inquiries and has been handling the program in that manner since about 1970. It now handles a small number of inquiries, perhaps 10 to 12 monthly. NASA, likewise, handles routine inquiries by form letter response, 10 to 12 formal inquiries and a somewhat larger number of public inquiries monthly. NASA uses the information sheet attached in its responses. The Air Force uses similar data.

From the point of view of the Administration as a whole, this is economical. However, it fails to provide a recognized focal point for technical appraisal of sightings and understandably results in some frustration to individuals making what they consider to be serious inquiries.

A panel of inquiry such as you suggest might possibly discover new significant findings. It would certainly generate current

September 14, 1977

Dear Bob:

I have your letter of September 6 responding to my letter of July 21 recommending that NASA become a focal point for Federal activity in UFO matters.

I am pleased that you agree that NASA can handle the public inquiries on UFOs. The fact that my Office and the White House can direct such inquiries to NASA will relieve my small staff of a responsibility we are not equipped to handle. Therefore, I have asked my assistant, Stan Schneider, who has discussed this matter with your Executive Officer, Ed Andrews, to forward all our UFO inquiries to NASA.

Regarding the recommendation for NASA to become a focal point for the scientific and technical appraisal of the UFO phenomenon, I can understand your reluctance to commit the agency to a formal program before evaluating the current status and recent history of UFO activity and determining what might be involved in conducting a serious study on this matter. Therefore, I concur with your idea of assigning a project officer at NASA to review the situation before deciding whether to undertake a more formal inquiry.

By copy of this letter, I am informing Jim Purks of the White House Media Liaison Office of our exchange of ideas on this subject so that they are in the communications loop on this situation. I will suggest that he forward all public inquiries on UFOs to the White House to NASA (Code 4) for response.

I would appreciate it if NASA could keep my office, through Stan Schneider, informed of any progress the agency makes toward a decision on a possible UFO study.

Yours sincerely,

MEMO FOR: WALT WURFEL
FROM: Jim *JP*
SUBJ: UFOs- National Inquirer

Bob Pratt of the National Enquirer has been working a long time on the UFO stories, and has the tape of the Carter interview in which he is quoted as saying he saw one once and if elected would make certain that information about them is made available to the public.

Since then, we have said basically all records are unclassified and available at Archives, or through the Freedom of Information Act, and therefore the President's commitment is fulfilled.

However, Pratt is pressing ahead and says there are incidents where the armed services have not divulged everything and have occasionally told us -- the Press Office -- stories later found not to be true.

He is writing a story now and has formally requested a statement from Jody on UFO policy. He wants to hear within a couple of days. I have usually handled UFO news inquiries from out-of-state, but this one is especially pressing. Could you check with Jody and help me out to see if any kind of "policy statement" requested by Pratt will be made?

For your background, here is the latest report from Dr. Frank Press, our Science Adviser. (We could say that for now the Administration is supporting Dr. Press in asking NASA to handle UFO inquiries and assigning one of their project officers to determine if a new study is needed.)

Thanks.

RE: REQUESTED PERSONAL MEETING WITH PRESIDENT JIMMY CARTER

Dear Mr. Reiman:

As a result of our interview with you at the Executive Office Bldg.,
— June 24, 1977 and following our recent phone conversation of Oct. 7,
I am sending this letter to formally request that a personal meeting
be arranged with President Jimmy Carter for Charlotte Blob (Director
of UFO Education Center) and her associates. Briefly, the reasons for
requesting such a meeting are as follows.

- 1) On March 31, 1976, Presidential Candidate Jimmy Carter --as a result of our questions to him at the Appleton Airport News Conference (Appleton, Wis.) --- made the historic declaration for the first time that, as President, he would release all the secret government information concerning UFO's.
- 2) Immediately following that News Conference, I spoke personally with Mr. Carter telling of our extensive evidence and films, and the humanitarian work of Charlotte Blob and UFO Education Center. Mr. Carter thanked me for the offer to view the films, etc., and said a meeting could be arranged sometime following the election.
- 3) The President needs to know that there is far more to this field than paperbacks, statistics, or academic speculation. ALL PEOPLE FROM ALL BACKGROUNDS ARE INVOLVED. For this purpose, UFO Education Center is unique in its non-profit service of Direct Counseling -- on a 24-hour, "Open Line" telephone, available across the country. This is a humane approach: an effort to develop a profound dialogue, by means of a sound, educational program, at all levels --- universities; schools; community and religious groups; State, Local, and Federal officials; law enforcement agencies; and concerned citizens and leaders in many other countries.
- 4) It is urgent for the President to know that a vast number of citizens acknowledge the objective reality of peaceful Visitations. Thousands, even millions, have a voice to be heard on the basis of their own experiences.
- 5) It is URGENT that the President learn from us, first-hand, the unprecedented near-landings correlated with his Presidential Campaign. The data are outstanding-----reported exclusively to UFO Education Center by highly-credible, unrelated witnesses including professors, technicians, officials, farmers, and veterans!

Dear Mr. Heiman:

Through the courtesy of Mr. Richard Reiman, we have learned of your request for a meeting with the President for Ms. Charlotte ~~X~~ Blob, Director of the UFO Education Center, and her associates.

The President is indeed grateful for the willingness of Ms. Blob and her associates to come in to talk with him in an effort to be helpful and would like to see personally all who now are expressing this desire. If circumstances permitted, he would be glad to meet with them but, most unfortunately, the heavy demands on his time just will not allow him to do so.

Dear Mr. Brademas:

Frank Moore has asked me to respond to your letter of May 5 requesting information as to a possible White House statement on Unidentified Flying Objects (UFOs), the request being prompted by a letter from your constituent referring to an item in the April 18 issue of U.S. News and World Report. That item indicated that the Government would make disclosures about UFOs, based on information from the CIA.

At present, we know of no White House plans to make any such new disclosures. Our check with the CIA verifies that they are not conducting any research on this matter and have no new information to report. Official Federal involvement in UFO identification and recordkeeping ended in 1969 when the Air Force terminated its work on this subject. Its entire file on UFOs was declassified and turned over to the National Archives in July 1976, where it is now a matter of public record. There is no other Federal UFO program at this time.

We hope this information is of help to you in replying to your constituent.

IN REPLY REFER TO: UFO

September 14, 1973

Honorable Jimmy Carter
 Governor of Georgia
 Atlanta, GA

Dear Governor Carter:

For the past 17 years the International UFO Bureau, Inc. has researched the subject of unidentified flying objects, commonly called and known the world over as 'flying saucers'.

Needless to say we are deeply interested in the recent sightings in and around Georgia and for this reason have several 'field investigators' in the area at this time.

Reports have reached our office that you have observed the objects and I am wondering if you would be kind enough to supply us with the details of your experience ?

I have enclosed one of our sighting forms and will welcome any additional statements or illustrations that you care to offer.

Feel free to ask any questions you may have and if the Bureau can be of service to you or your office feel free to contact us. Until then, I remain...

 INTERNATIONAL UFO BUREAU, Inc.
