MEMORANDUM FOR THE RECORD

SUBJECT: Project MKULTRA, Subproject 27

B- 1. Subproject 27 of Project MKULTRA is being established as a means of providing funds for a terminal grant to Dr. [redacted] and [redacted] to complete their program of research on lysergic acid diethylamide. The money is to be used during the period July 4, 1954 to July 4, 1955. The funds will continue to be disbursed by [redacted] for cover purposes. - B

2. A considerable volume of data has accumulated during the past two years from the actual experimental drug administration. During the third year of the project, all of this data will be compiled and analyzed. Also, experimental work will be continued along several lines, including work on potential antidotes, the desensitization reaction to LSD, the testing of materials structurally related to LSD, and several basic investigations on the mode of action of LSD.

B- 3. The budget covers work to be done in two places, [redacted] and the [redacted]. The attached proposal indicates the cost breakdown of the estimated expenditures.

B- 4. The funds include \$42,460.00 for work at [redacted] and \$30,200.00 for [redacted], and a 4% service charge for the [redacted] amounting to \$2,506.40. Therefore the total cost of this investigation will not exceed \$75,166.40 for the period from July 5, 1954 to July 4, 1955.

Dear Sirs:

May I acknowledge with thanks the support you have given the LSD project at [REDACTED] for the past two years and take this opportunity to discuss with you the possibility of obtaining a terminal grant for the project at [REDACTED] from July 4, 1954 to July 3, 1955. The program for 1953 previously submitted is well under way. It has been a pleasure to work directly with your representatives who have aided in implementing the many aspects of the program. Our data, however, have been accumulating very rapidly. So rapid is the accumulation of data that the personnel of the project are confronted with the serious problem of carrying out the program for 1953-1954 and simultaneously writing up the program covering experiments suitable for statistical analysis performed during the first fiscal year of the program.

I should like to propose that [REDACTED] make a terminal grant for [REDACTED] for the following purposes:

1. To complete the papers that were begun during the period 1953-1954.
2. To calculate and to compile the data screened during 1954.
3. To make content analysis of the verbatim recordings not screened during 1953-1954.
4. To be prepared to assay unknown materials.
5. To continue the search for a suitable antidote.
6. To quantitatively determine psychologically and physiologically what happens during rapid desensitization following repeated high doses of LSD25.

The following budget is to be utilized only at [REDACTED]

1. To continue the work of Dr. ~~████████████████████~~ and ~~████████████████████~~ on the metabolism of nerve and brain tissue using conventional methods of studying tissue metabolism in the Warburg apparatus in an effort to isolate enzyme systems responsible for the special effects of LSD25. - C

2. To investigate the action of LSD25 on the development of the nervous system by studying both the embryological development of the developing embryo as a whole and the effect of LSD25 on the organizer itself. A preliminary survey of the subject indicates that the oligodynamic action of LSD25 may conceivably be involved in the process both of differentiation and development following differentiation.
