'UNEXPLAINED' AERIAL SIGHTING REPORT - 4 MAR 98

1. In accordance with current policy I am required to run all 'UFO' reports received by the Department made by 'credible witnesses' past you.
2. We received a message at 1607 hrs yesterday from a **Section 40** **Section 40** (an assistant Air Traffic Controller (civilian) based at RAF Wainfleet, Boston Lincolnshire, Tel No available if needed). At 041306Z Mar 98 for period of 20 seconds he and a colleague (**Section 40** a Chief Radio Technician) saw a large cylindrical solid object which was silver in colour and very bright. The object was seen over the North Sea, South West of Gibraltar Point. They observed the object with the naked eye. It was very high in the sky - well above the cumulous cloud. The object then shot up in the air and disappeared from view. The weather was good with 25K visibility.
3. Thus far we have received no other reports for yesterday.
4. I should be grateful if you would let me know if any follow up action is necessary.
