BEALE CYPHER ASSOCIATION

MEMBERSHIP APPLICATION

I, the undersigned Applicant, being of legal age and residing in the United States, hereby apply for Membership in the BEALE CYPHER ASSOCIATION; a not-for-profit scientific association having its pricipal office in Medfield, Massachusetts, and sponsoring a research and investigation program pertaining to the Beale Ciphers. As a member of the Beale Cypher Association I will use my best efforts to:

1. Maintain and protect as confidential and not disclose to any non-members any and all confidential information disclosed to me by the BCA, either directly or indirectly identified in writing as confidential,
2. Submit and disclose to the BCA any and all such results and insights gained in my research and investigations towards the solution of the Beale Ciphers,
3. Donate to the BCA ten (10) percent of the gross receipts of any and all such amounts as I shall receive for my endeavors to locate, find, retrieve, claim, possess, sell or otherwise benefit from the Beale Treasure,
4. Honor this Agreement during my Membership in the BCA and for three (3) years thereafter.

The Beale Cypher Association shall award to me such number of Beale Points as are appropriate for my research and investigation contributions in accordance with the policies and practices established by the BCA Board of Directors. In the case of dissolution of the BCA or the distribution of any or all the assets of BCA, I shall receive such a share of the distributed assets as is commensurate with the number of Beale Points awarded to me in relation to the total number of Beale Points awarded up to that time. The Beale Points awarded to me shall be irrevocably mine. I understand that my Membership in the BCA shall only be terminated by a majority vote of the BCA Board of Directors.

COMPUTER PROGRAMS AND SERVICES

C1 CRYPTT: A Multiregression Cryptanalysis Program written by
Dr. Carl Hammer; in ANSI FORTRAN, well commented and struc-
tured for easy understanding. This program applies advanced
English letter frequency multiple regression techniques to
obtain and evaluate potential Key Documents for the Beale
Ciphers. Approx. 1300 lines; lineprinter listing ... 50.00

C2 CRYPTT: as C1, but in punched card format (standard 80
column cards; includes listing)
        ... 100.00

C3 DECIPHER: A Deciphering Program written by Per A. Holst; in
Standard BASIC; well commented and structured for easy
understanding. This program will accept document text words
and data (numbers) files and produce target deciphered text
for evaluation; applying various letter position schemes.
Approx. 500 lines, lineprinter listing
        ... 25.00

C4 DECIPHER: as C3, but in punched card format (standard 80
column cards; includes listing)
        ... 85.00

C5 DECIPHER: as C3, but on cassette tape for TRS-80 computers
(includes listing)
        ... 35.00
