Area has low to moderate activity.
Helicopters and small crop-dusting planes
come here to either pick-up or drop off
small packages. Small vessels come to deal
with these small packages. This activity
is sporadic and intermittent. "Workers" of
the cartel come here. The word
"March/marche" phonetically surfaced.

In the future, marshals will go in and
burn grasses/grounds. (Not U.S. marshals.)
"All Saints Day" surfaced.

With the help of ~~the~~ the U.S.,
Escobar will be "taken in" (captured)
within the Nov-Feb time frame. Escobar
will be taken by a country or countries
other than his own.

The word "Stephen/Stephen"
phonetically surfaced.

OJ5
24 August 92

There is going to be narcotics
trafficking associated with
the  SG1A

within the next 4-6 weeks
or around Oct 3rd, 1992. A
narcotics connection will
be made from this location.
Radio contact can be picked
up giving clues to where
and when drug trafficking
occurs. A vessel travels
away from this area with
drugs and may have several
stops before reaching its
final destination. The
activity associated with

SG1A

may be the joining of the ships. One vessel is predominantly white with some blue on it (bi-level). The other has a deep red on its hull (at least one of these vessels is ^(white, blue + red) ~~imperial~~). A picture or name of a bird or fowl is associated with one of these vessels.

SG1A

What can be determined from the 

the mode of transportation for possible drug trafficking. Radio contact at this location can reveal conditions of which narcotics drug deliveries are made and what directions they are moving in, showing mode of transportation.
